By order of the Republican District Committee

D. BLAKELY, Chairman.

THE NEWS THIS MORNING.

Owing to a storm east of La Crosse, our dispatches are brief.

Gen. Burnside is supposed to have reached his destination, which he would make known by his action. Burnside has always fulfilled expectations, and we trust he will not fail now. He has probably landed his force up the Rappahannock to co-operate with Pope in a movement on Richmond from the north.

In the best informed circles it is believed that very important movement on the Peninsula are about to take place.

Recruiting goes on bravely in the east. New York, it is expected, will fill her quota next week. Philadelphia will fill by volunteering her quotas for both calls, and thus avoid drafting.

AN IRISH COMPANY.

Yesterday a committee consisting of Messrs John Grace, Thomas Howard and M. H. Sullivan, representing the Irish citizens of Ramsey county, called upon the Governor and requested permission to raise a company exclusively of Irishmen, from Ramsey county, for one of the new Regiments. These gentlemen propose to hold a preliminary meeting at once and are sanguine of raising a company before the 18th inst. They were assured by the Executive that should they raise a company it would, if possible, be placed in the 6th or 7th Regiment; or if this could not be done that it would be made the first company of the 8th Regiment.

It will be understood that if the ten second lieutenants named as recruiting officers of the 7th Regiment, do not fill up their companies by the 18th inst., Gov. Ramsey will probably mass the fragments together, and put the drafted men on necessary to fill the Regiment into separate companies. That is to say, if by the 18th ten organizations contain five hundred men, then instead of all ten being filled up with drafted men, which would produce confusion in each organization, the fragments will be made into, say, five companies, and the line officers distributed so as to do justice to the claims of the different officers, regarding of course, at the same time, the wishes of the men. In such a contingency the company proposed to be raised by Messrs. Grace, Howard and Sullivan, will come in as one of the companies of the 7th Regiment; but should all the ten companies of the 7th be filled by the 18th, then this company would become company "A" of the 8th Regiment.

As provision has been made in the 7th Regiment for a German company, under Lieut. Buck, and a Scandinavian company, under Lieut. Ollstrom, it is but right that an opportunity should be offered for the formation of an exclusively Irish company.

We are glad to see the movement started by men of such influence among our Irish population as the gentlemen who are raising this company. We have no doubt that if the proper spirit can be infused into them by their leaders that other companies can be obtained in the State from the same population. In other parts of the Union they have come forward in large numbers to the defence of the government, and there is no reason why they should not do so here.

No part of our emigrant population has suffered more terribly from oppression than the Irish, and we believe that when they perceive that the tyrants of Europe are banding together to place their adopted country in the same position of degradation and submission in which Ireland has so long existed, they will rise as one man in its defence.

We shall hope to see this movement a thorough success and cannot too highly commend the patriotic course of those who have taken hold of the matter. As they propose to draw their recruits entirely from their own people, they will interfere but little with the recruiting now going on in this County for other companies.

"THE DEMOCRATIC MOVEMENT THROUGHOUT THE NORTH."

We republish, elsewhere, from the *Pioneer* of yesterday under the above caption, a forcible and just statement of the dangerous and treasonable attitude and tendency of the "Democratic movement throughout the North."

It is doubly significant emanating from a late democratic source. We commend it especially to such loyal men as the editor of the Glencoe *Register*, who strangely enough stands by the mixed treason and loyalty platform of the democracy of this district.

While we rejoice to see in the *Pioneer* such outspoken condemnation of the treason sympathising platform adopted by the "Democratic movement" in this district, we would be glad to see some indication in that paper that it *will not* support Maj. Cullen, who represents in this district the said "Democratic movement:" and who by accepting the nomination for Congress at the hands of the convention that laid down the platform which the *Pioneer* condemns as treasonable, stands squarely on the platform.

We would be glad to see some indication that it will support the worthy candidate put in nomination by the thoroughly loyal convention that met on the 30th ult., and adopted a platform with which the *Pioneer* was so well satisfied.

We trust we shall be pardoned for expressing an apprehension—that we are confident is shared by hundreds of the readers of the *Pioneer*—that after all its reprobation of the "Democratic movement," it may yet throw its influence in the scale, in favor of Maj. Cullen.

This apprehension does not solely arise from the knowledge of past events in the history of that paper, but has found root in the certainly remarkable—not to say very significent—fact that the *Pioneer* decidedly, and somewhat warmly endorsed the nominees of the late Convention of the "Democratic movement," while in noticing the Convention of the 30th, it was careful not to say a word in the way of endorsement or of commendation of Gov. Donnelly.

We are very sure that the public would be gratified to know just where the *Pioneer* does stand, in regard to candidates, for, after all, there is the practical test.

The public will lightly esteem its *professions* if its *practice* fails.

ACTIVE RECRUITING.

No time since a year ago last April, when the First Regiment was raised, has there been so much excitement on the streets as yesterday. Since that time there has been no one day when there were so many men enlisted. People were on the streets in knots and squads, and around the different recruiting offices discussing the advantages and disadvantages of going into this or that company.

Captain Grant enlisted and swore in fourteen men, bringing his company up to fifty-four. At this rate his company will be full in three days, and be Company A of the Sixth Regiment.

The McClellan and Sigel Guards, and Major Dayton's company, also enlisted a good many men.

Captain Bromly brought over nine men for his company, which is up to thirty.

Lieut. Gilfillan made a very good commencement for his company in the Seventh Regiment.

Lieut. Kennedy, of Dakota county, also mustered in several for his company.

The young men had a meeting last evening at Armory Hall, at which there was much enthusiasm, and a dozen or more names were enrolled. They then marched through the streets at the tap of the drum for the purpose of drill.

Sergeant Harmon's Letter.

EDITOR PRESS:—I see in the last issue of the Minneapolis *Advertiser* that in the charge preferred against me and the PRESS as to a portion of Seargeant Harmon's letter being suppressed they say when it is denied they will prove that it was suppressed. Now, I would not notice this with the expectations of benefitting the local editor of the *Advertiser*, for such an attempt would be useless; but for the satisfaction of the readers of the PRESS I will say that not a word in regard to McClellan was suppressed by myself or the editor of the PRESS in Sergeant Harmon's letter alluded to in the *Advertiser*.

ALLEN HARMON.

—Tieman, the champion billiard-playe Detroit, beat the chapion billiard-player of Memphis at a match in the former city. Tieman's largest run was 257 points.

David Blakely, Esq., and the Central Republican.

The *Central Republican* having refused to publish the call of the Republican Committee for a Congressional Convention in the Frist District, for the reason that it was entitled a UNION CONVENTION, Mr. Blakely chairman of the Committee is out in a reply to Mr. Brown of the *Republican*, in vindication of the action of the Committee. We make the following extracts from Mr. Blakely's able and pointed letter:

"The faction of the Democratic Convention recently held at St. Paul, placed between *loyal Democrats* and those who framed the platform of that Convention, a wide and insuperable barrier. The leaders of that movement and the framers of that platform recorded themselves as inflexible enemies of the Administration, and hence, of the efforts it is putting forth to suppress the rebellion. Their platform was one of essential disloyalty, and the journals which ratified and have since advocated it, enjoy the unenviable reputation of being, to say the least, but lukewarm supporters of their government. *Loyal* Democrats have refused to acknowledge the platform, or support the candidates standing therenpon; and Henry M. Rice, the old-time leader of the Democracy of Minnesota, has not only repudiated it, but has expressed sentiments as much in variance therewith as the most extreme Republican would desire to be enforced. For this action he has already been read out of the party by the knot of secessionists who run the Democratic concern of Minnesota; but in shaking from his feet the slime of the rotten hulk, who can doubt that he will be joined by the bulk of the men whose support, until lately, has barely made the numbers of the Minnesota Democracy respectable?

Actuated by a desire to call to the support of the government *all* loyal men, the Republican Congressional Committee, represented by such old and true Republicans as Swift, Sinclair, Driscoll and Webber, at a meeting at which all parties were present, unanimously determined, in issuing the call for a Congressional Convention, to invite the co-operation of "all men who are in favor of the vigorous prosecution of the war, and of upholding the executive in all acts looking to the suppression of the rebellion," This they did, in the single desire of achieving, by the aid of a powerful and successful party, a victory which should not only be valuable as are ordinary victories, but which should add thereto the moral of an overwhelming expression by the people of their determination to stand by the government until every vestige of rebellion should be forever exterminated from the land.

I can well understand, friend Brown, why you refuse to endorse the sentiments of a call which invites the co-operation of "all men who are in favor of upholding the Executive in all acts looking to the suppression of the rebellion." Your columns teem from week to week with abuse of the Administration and of the Government. You have asserted that the Administration of President Lincoln was so foul with corruption and imbecility, as to make that of Buchanan respectable beside it. In the very issue from which I take the paragraph quoted above, you jibe and jeer like a madman at the proposition of the President for the voluntary emancipation of slaves in the rebel States. Above and beyond all, you slander your own State by throwing in the teeth of the Chicago *Tribune*, that "without a thorough change in the policy of the Administration in the conduct of the war," the response of Minnesota in the matter of raising recruits under the new call of the President, will be a consideration of time! Call you this Republicanism? Then am I not a Republican. Call you this loyalty? Then have I a very inadequate sense of the term.

There is in this city a little knot of secessionists, whose sneaking slings at the Government have brought upon them the condemnation and contempt of all loyal citizens; but their numbers are small, and their influence nothing. In contrast with these, is here and there a loud-mouthed Republican, whose rantings and ravings against every act of the Administration are only eclipsed by those of the editor of the *Central Republican*. But because these men are known to be loyal at heart, their utterances are listened to with interest, and have more or less influence with the crowd. They dampen the ardor of the people, and throw a wet blanket upon the labor of raising volunteers. I leave it to your candor to decide which of these classes of men are the most dangerous to the Government—which the most powerful allies of the rebels in arms.

Gunboats to Patrol the Ohio River.

Governor Dennison, Gurley, and the rest of Ohio committee, had a long interview with Captain Fox, Assistant Secretary of the Navy, on Saturday. They represented the exposed condition of Ohio and Indiana along the Kentucky border, and that no military force, however large and well managed, could adequately protect the whole border from such incursions of guerrillas as the recent one into Indiana, which tend to keep the country in constant alarm, and feed the hopes and revive the courage of secessionists throughout Kentucky. They found the navy department very cordial in co-operating in their views.

It was believed that there was no way so effectually for guarding the border as an efficient gunboat force on the Ohio river. After a full conference, therefore, the Navy department promised the committee as many gunboats for service exclusively on the Ohio river as they wanted. Ten small boats, drawing ten feet, have already been selected and inspected by agents of the Navy Department. Captain Fox promised that a heavy force should at once be set at work to cut these boats down, put on thick wood bulwarks, and plate with iron, after the most approved models. Each boat is calculated to carry two guns and be able to patrol the Ohio river anywhere from the mouth to Pittsburg.

News of the Day.

—A loud cry for *Onions* comes from the camp at Harrison's Landing. Ten cents is paid for a single onion, because scurvy is appearing, and there is nothing like onions to keep off scurvy. Government is implored to send along some onions. The cry of one correspondent is "liberty and onions, now and forever, one and inseparable! Send us a onions, and you send us vigor, life, victory. Send us onions.

—The honorary degree of LL. D. was conferred upon Major General Henry Wager Halleck by Union College, New York, at its recent commencement.

—All the news indicates that our Southern "brethren" are active at all points, and theatening our forces wherever established in their territory. We have not the men, means nor disposition to be taking their towns in detail and holding them. We need a grand, overwhelming force, to move over the country, and crush the thing beyond resurrection, promptly and finally.

—About one thousand officers have resigned since the recent battles, most of them avowedly, as after the battle of Bull Run, to raise new commands.

—Col. Cluseret, of the army of the Shenandoah, has sent home a long letter, which eulogizes the American soldiers in the highest term. He says that they possess every quality of the French soldier and two other qualities besides—a patience and a resignation beyond all belief. He speaks of their long marches without food and almost barefoot as something unparalleled in military history, and believes them the first soldiers in the world.

—Gen. Pope has written a very sharp to Capt. Harrison, the officer for whose apprehension he recently offered five cents reward, rebuking him for his card of explanation in the New York papers, telling him he had no adequate ground for resigning, and that his excuses were trumped up to cover his disgraceful conduct, and assuring him that it was his deliberate purpose to disgrace, before the American people, any officer in his army who would be guilty of such conduct.

—The Ohio committee returns greatly delighted with Halleck. They profess themselves entirely satisfied that he will make war as vigorous as a full use of all means at his disposal will permit. They believe too, that he is now as sound on the confiscation of rebel property, and the use of rebel slaves, as people could wish, and that he is fully alive to the momentous importance of speedy and decisive action. Their visit has wrought a marked improvement in the tone of public feeling, and coupled with Halleck's declaration about confiscation, his order to McClellan, and Pope's movements, inspire confidence that has not been manifested at the capital for some time.

—The republicans of Dacotah have nominated Wm. Jayne, the Governor of the Territory, as a candidate for Delegate in Congress. He was formerly a resident of Springfield, Ill., once elected Mayor of that city, and afterwords sent to the State Senate. He is a brother-in-law of Senator Trumbull. The election for Delegate will take place on the 7th of September.

—A letter from John Ross, principal Chief of the Cherokee nation, has been received by the Federal commander at Fort Leavenworth, declining an interview on the subject of the loyality of that nation, and stating that the treaty of alliance between the Confederates will not be broken.

—The following are the opening words of the famous Crittenden resolution, which the Butternuts harped about so vigorously at Indianapolis:

"That the present deplorable civil war has been forced upon the country by the disunionists of the Southern States, now in arms against the Constitutional Government."

Do the Butternuts believe this? If they do, why do they howl all the time about the abolitionists?

—Gen. Mitchel will probably go to Cincinnati soon, and will not at present have a command in the army.

—The President and Cabinet are understood to have decided upon the immediate adoption of vigorous measures to repress treason in Maryland and elsewhere in the boarder States.

—Col. W. E. Woodruff, of Louisville, formerly Colonel of the 2d Kentucky regiment, has authority to raise a regiment in Kentucky, the 29th. He has issued a stirring appeal to the citizens of Kentucky.

—Gov. John Evans of Colorado, has just issued his first message, an able and interesting document, in which he congratulates that Territory on the rapidly accumulating evidences of the natural resources of Colorado. He says:

"It is estimated by those best informed on the subject, that the gold product of the present, will be at least double that of any former year, and that the gold mining country in our Territory has, as yet, been but half explored."

—The Prince of Wales is to leave England immediately for his visit to Russia. He goes in the royal yacht Osborne, and will be accompanied up the Baltic by the Channel fleet. The Prince will soon be the best traveled young gentleman of his time.

—Father Daley, the Catholic clergyman at New Britain, Conn., addressed the war meeting there a few nights since, and he said that he was a peace man—so fond of peace, indeed, that he was ready to fight for it.

The "Democratic" Movements Throughout the North.

From the Pioneer, of August 6th.

It is not in the field that the Union cause is in the greatest danger. Under McClellan and Pope in the East, and Grant and Buell in the West, the interests of the country are safe in comparison with their condition in localities far removed from the scenes of actual strife. The imminent danger of to-day springs rather from Northern politicians than from Southern rebels. The "Democratic" conventions of the North with their utterances of qualified patriotism and practical treason, are doing more to weaken the moral and military strength of the Government, than all the armies which have been coerced into the field by the despotism of Jeff. Davis.

The platform adopted by the late Democratic State Convention of Minnesota, as we find it printed in one of the party papers, has only ten lines of qualified support of the Government, while it has nearly ninety lines of unqualified denunciation of the legally constituted authorities of the Government. No man can read that platform, if he accepts its statements of fact, and imbibes its spirit, without feeling that all efforts and sacrifices in behalf of the country are useless, and worse than vain: for there is no crime against the Constitution and the laws, which is not there paraded as the deed of the President and his political partizans, and which is not held up before the people for their condemnation at the polls.

The present National Administration has yet nearly a three years' lease of power. If the rebellion is ever to be crushed, it must be crushed within the limits of that time. In any emergency, this civil war, during the next three years, must be prosecuted by this Administration, if it be prosecuted at all. The power of the Administration is derived from the people, and without their sympathy and support, the Government must fall, inevitably, into rebel hands. The only effect of the dissemination of doctrines and sentiments like those put forward by the Democratic party of this State, is to destroy the public confidence in, and withhold public support from, the Government. For, to every practical intent the Administration, during its term, is the Government. And, however cunningly it may have been worded, no man can contemplate its effects upon the public mind, without feeling that the logic of the Democratic platform here is treason.

The Secesh Democracy Illustrated, &c.

Beecher says:

For more than sixteen months, this great twenty million people, educated to free action, accustomed to parties, to endless divisions and contentions, have stood before the world a mit for Union! The recent efforts of a few masked men of the North to create a party of opposition to the government, have but served to show the breadth and strength of this Popular Unity. They ran out of the great channel into a bayou, and thought the current would follow them. Instead of that, the great river flows on, and they, cut off, sit around the edges of their pool, which every day is drying up and becoming smaller and dirtier, croaking into each other's faces the melancholy doctrine that if the people would not adopt their puddle, they ought to have done it.

WINSLOW'S LINE.

FROM WASHINGTON.

Important Movements About to Take Place.

New York Quota Soon to be Filled.

Loyal Blacks Coming into Pope's Army.

20 or 30 Negroes Found in Irons.

Sources of Information to Rebels Dried up.

Gen. Burnsede Arrived at his Destination, which he will make Known by Action.

Preliminary Report of Census will be Ready Soon.

WASHINGTON, August 6.

(*Special to Tribune.*)—It is believed here that very important movements are about to take place affecting the fortunes of the campaign.

Governor Morgan and Thurlow Weed arrived here this evening. The Governor says that New York's quota of volunteers will be raised by the end of next week.

The following are our latest advices from Sperryville:

Eight prisoners have just been brought in from Madison: three of them had been in the rebel army at Richmond.

Loyal blacks are coming into the lines in great numbers, in the direction of Stannardsville. They are of a very superior class, and will make excellent teamsters.

A scouting party yesterday found between 20 and 30 negroes in irons about twelve miles from Madison, in a nearly starved condition: they say they were caught while trying to escape to our lines, and placed in irons.

It was months ago believed that through rebel sources in Washington, the enemy was in constant receipt of important knowledge not generally known. Only a few Government officials whose patriotism is above suspicion can now receive information, the improper disclosure of which would prove detrimental to the best interests of the country.

Gen. Burnside, it is believed, has reached his new field of operations, and may soon by an act of his own announce his locality.

There is authority for emphatically denying the truth of the statement that Secretary Seward has made a remonstrance against the presence in the Gulf of Mexico of a powerful fleet, nor has any other such action as represented been taken in the premises.

The preliminary report of the census will be printed and ready for distribution in about a week.

Rumors of Important Movements on the Peninsula.

WASHINGTON, August 5.

[*Special to Times.*]—Though the rumor has not been current on the streets, well informed circles are full of stories about movements either progressing or anticipated in McClellan's army. The President is cited as authority for declarations that the present week must bring us stirring news from the Peninsula, and much stress is laid on Gen. Halleck's reported refusal to grant passes to any one on any account to visit the Peninsula this week, for the alleged reason that the state of affairs is too critical to permit any passing to and fro through the lines, even by military men.

The heavy draft by the Government is variously regarded in Washington, but the prevailing sentiment is approval. A strong feeling of confidence succeeds the distress of the past month. It is a question whether the draft applies to this District.

The Biggest Ram in the Flock Contracted For.

NEW YORK, August 5.

Wm. H. Webb, the well known ship builder, has contracted with the Government to build an iron steam ram to be covered with six-inch iron, to have two revolving turrets like the Monitor, the bow to be covered with twelve-inch iron and to have a solid iron ram half the length of the vessel. Price—one-and-a-quarter million dollars.

Recruiting Goes on Bravely in Philadelphia.

PHILADELPHIA, August 5.

Recruiting is going on bravely in this city. The quota of men required by the first call will soon be raised. The whole force from Philadelphia will probably be raised without a resort to drafting.

Dismissal from the Service.

WASHINGTON August 5.

The following officers have been dismissed from the service: Major General H. Richardson, of Michigan, and W. T. Bank, of Kentucky.

Patriotic Action of Boston Merchants.

BOSTON, August 5.

Over 500 leading merchants have signed the following, and a public meeting called to further increase the list:

We, the undersigned, merchants of Boston, do hereby agree that the young men in our employ who may enlist in the service of the United States, shall have, on their return from said service, the situations they occupied before enlisting.

New York Filling up her Quota.

NEW YORK, August 6.

The *Tribune* says, "from enquiries at the Quartermaster General's office, we are informed that, as nearly as can be ascertained, 22,800 men have already been enrolled in the State of New York, under the call for 300,000 volunteers.

About Drafting.

CONSCRIPTION NOT AN EVIL.

From the New York World.

Many men dread a resort to drafting as a direful evil. They would almost rather let the old flag go by the board than save it so. The men who talk thus are of two sorts—the weak headed who shun reflection, and the weak hearted who shrink danger. We have something to say to both classes.

You people who have caught the notion that there is something oppressive and shameful in substituting compulsory for volunteer service—why do you not honestly ask yourselves what distinction there can be between compulsory conscription and compulsory taxation? How is the government more discredited in obliging you to shoulder your musket in its defense, than in obliging you to surrender your dollars for the same end? Why not apply the volunteer principle to the raising of money as well as to the raising of soldiers? Unquestionably a great deal of good cash might be so raised. There are multitudes of noble-hearted patriots who would contribute all in their power to carry on the war. Millions might be so realized. But shall Government therefore burn up the tax bill and trust to the subscription paper? Of course you say, "No." The Government which would thus forego its authority to tax, and trust its existence to the disposition of this that and the other man to volunteer as money-furnishers, you would despise: and yet you think it unreasonable and discreditable that the same Government, in the same strait, should not forego its authority to draft, and trust its existence to the disposition of Tom, Dick, and Harry to volunteer as musket-bearers.

Our only security lies in greatly reinforcing our armies at once. Every day's delay increases the danger. Their is no assurance that volunteers enough will be ready in time. Government is left to its chances: and all because it holds back from exercising a power given to it by the letter of the Constitution, as well as by natural right, and which no government on the face of the earth ever before shrunk from, on any occasion, even though it were a tenth part so urgent. This idea that the Federal Government will lose credit by imposing a draft is an absurdity. Such an act would have just the contrary effect. It would impress the world with a new sense of republican strength. It would show that the Republic is not at the mercy of the popular feelings of the hour, but has reserved powers for its preservation equal to those of the proudest empire among the nations. It would prove that the American people are something more than a mere "organized mob;" that they are members of a mighty commonwealth, having its own millennial life to live, its own paramount responsibilities to meet, its own sovereign powers to exercise, before which, when all is at stake, the mere convenience or pleasure of individual men is of no account whatever.

It is also announced that John K. Arnold, of Wabashaw county, has been appointed Adjutant of the Regiment.

The above named Adjutant and Second Lieutenants will immediately report to Captain A. D. Nelson, U. S. mustering officer, at St. Paul, to be mustered into the service of the United States.

It is directed by the Secretary of War, that if the Sixth and Seventh Regiments of Minnesota Volunteers to be organized in this State are not full by the 18th inst., that the deficiencies in said regiments shall be made up by special draft from the militia of the State.

Mustering officers of the Sixth and Seventh Regiments of Min. Vol., who are active and efficient will receive appointments on the final organization of the companies, although they may have been unable to fill up their companies within the time specified.

All persons, besides the mustering officers, who are recruiting for the Sixth Regiment, must continue their efforts to fill up our quota of volunteers, but are at liberty to have their recruits mustered into such company in the Sixth or Seventh Regiments as they may select.

To facilitate recruiting, furloughs will be granted to recruits to the 17th of August if necessary.

The recruiting service under this order will be conducted as far as applicable according to the principles laid down in General Orders No. 16 from these Headquarters.

All inducements heretofore offered by the Government to volunteers, will be extended to volunteer recruits of the Seventh Regiment.

OSCAR MALMROS,

Adjutant-General.

News Items.

—Stanton's order about furloughs to-day is considered here equal to 75,000 or 100,000 recruits.

—Theodore S. Fay, late minister to Switzerland, has returned.

It is understood that a plan has been about resolved upon to adopt the new Congressional Districts, instead of those from which the present representatives are elected, for the appointment of collectors and assessors under the new tax law. The first effect of this change would be to render the Secretary of the Treasury and President independent of recommendations by Congressmen, which have hitherto been regarded as almost equivalent to appointment. It is said that this plan has been under consideration some time.

—The N. Y. Evening *Post's* Washington correspondence of the 31st, says that it is not probable that Gen. Mitchel will go into service again, if at all. There are no changes against him, for the administration, by refusing to accept his offered resignation some weeks ago, showed that it had unabated confidence in him. He is too dashing a general to suit Buell, or even Halleck, and it is now generally understood that he will not be given a command. He is still in Washington, but may soon return to Cincinnati.

—Gen. Sherman appears in the *National Intelligencer* in an elaborate defense of his campaign in South Carolina. He says that the expedition was not fitted to operate in the interior or against Charleston or Savannah, but with the sole purpose of opening a harbor for our blockading squadron. He says that if he had marched at once on Charleston or Savannah he would have deserved dismissal from the service and a straight jacket. He concludes by saying that he still believes his proclamation to South Carolina on his arrival to have been just the thing! Sherman is here out of command, because officers of his division in Halleck's army protested against him as incompetent. No other opening for him has since appeared.

—A special Washington dispatch in the New York *Tribune* of Thursday says that "Gen. Turchin, for the trial of whom as Col. Turchin, Gen. Buell is said by the Nashville *Union* to be delaying the deliverance of East Tennessee, *has been duly commissioned as brigadier general.* He was confirmed by the Senate after the charges against him, now being investigated by court martial, were made, if not after the court has been organized." Hardly any act of the Secretary of War could give more satisfaction in this community than the forwarding of Gen. Turchin's commission, for its effect will be to quash Gen. Don Carlos Buell's court martial, restoring Gen. Turchin to his position in the field, and securing to the country its invaluable services in fighting and crushing rebellion. A court martial of colonels cannot sit in judgment on a brigadier general.

Gen. Turchin's offense consists in believing that peace and war cannot be carried on successfully at the same time and place. He is not the man to allow his soldiers to die of scurvy for want of vegetables while guarding the onion patch of a traitor.

The Hon. R. J. Walker on Emancipation.

The Hon. Robert J. Walker has published his second letter urging the Border States to extinguish slavery by acceding to the principle of the President's resolution before those fatal words: "It is too late," sound the doom of the Republic. The paper is an elaborate comparison of the slave and free States in respect to material progress. Maryland and Massachusetts are compared in detail, and the conclusion arrived at is: "There is one invariable law, whether we compare all the slave State with all the Free States; small States with small, large with large, old with old, new with new, retarding the progress of the slaveholding States, ever operating, and differing in degree only."

Fugitive Slaves.

The figures of the last census reveal the curious fact that the number of slaves who escaped from their masters in 1860 is not only much less in proportion than in 1850, but is greatly reduced numerically. Thus, the number of fugitives in 1850 was 1,011, being 1.30 of one per cent. of the whole number; while in 1860 only 803 escaped, being 1.50 of one per cent. In both cases, it is not pretended that anything like all of those who escaped from their masters came into the free States. The Superintendent of the Census estimates that up to the present time the number of escapes has been gradually diminishing, to such an extent that the whole annual loss of the Southern States from this cause bears less proportion to the amount of capital involved than the daily variations which, in ordinary times, occur in the fluctuations of State or Government securities in the city of New York alone. It will be seen, therefore, how utterly groundless is the pretense, once made so much of, that the insecurity of slave property had much to do in causing the present infamous rebellion. Besides, if the allegation had been true, the leaders of the rebellion would have furnished the most remarkable instance on record of jumping out of the frying pan into the fire, for there have been more escapes in the last year than in the previous quarter of a century, and the process is only just begun.

Carlile's Villainous Speech to the Indiana Tories.

From the Cincinnati Commercial.

INDIANAPOLIS, July 30.—Carlile declared the man who called slavery and the Government incompatible, virtually pronounced the Government a failure, libeled the wisdom of its founders and was a traitor to it. The Republican party now in power, and now waging the war, had so pronounced through its hostile legislation to the constitution.

If slavery and the rights of States needs must go down: if at the dictation of these men you surrender a constitutional right, and deny or take from a State the right to hold slaves, "how soon may you be called upon to surrender others?" They make negroes competent witnesses in the District. How soon will they demand that it be done in Indiana?" If you again give these men your confidence, and return them to Congress, you will all be made slaves of a centralized Government, and no one will pity or sympathize with you. Carlile said *the interests of the West are with the South.* There was their grain market. "You have a northern market the same as ever; but your corn is rotting in your granaries, and you walk on the ruins of your prosperity. The wicked men of the North and South have deprived you of your market, and these Northern men want to wage a war that will forever deprive you of it." Freeing negroes won't make one. Free the niggers, exterminate the whites, and give the land to the Yankee Norway rats, and you'll never have a market there. *Indiana was more interested than the slave owners themselves in perpetuating slavery in the South.* To free four millions of blacks will be to keep up taxation, increase debt, ruin property, degrade our children, and make this country a second Mexico. Carlile had a great deal to say about the divine origin and institution of slavery, and the madness of dying in the face of God's decree, which had established and would continue it forever. He read to prove the condition of the plantation slave more enviable than that of the laborers in any other country, and seemed to be enchanted with the picture of the slave's felicity.

FROM KENTUCKY.

Reported Capture of Russellville by Guerrillas.

GOV. MAGOFFIN CONVENES THE LEGISLATURE.

LOUISVILLE, July 29.—It is reported that guerrillas under Colonel Gano, of Morgan notoriety, took Russellville this afternoon, killing one or two of our Lieutenants, and badly wounding Capt. Morrow of the Kentucky volunteers. Other reports say that a collision between the home guards at Russellville took place, either from mistake or otherwise, a few hours after the rebel capture of Russellville. A portion of a federal regiment was due there and has probably arrived and reinstated matters. The line is working south to Nashville, but we can get nothing further from Russellville, which is on a branch line, to-night. The theory here is that the rebels took away the operator before the arrival of our forces.

Governor Magoffin's proclamation of yesterday calling together the Kentucky Legislature August 14th, after remarking that the military board still claims to be the paramount military authority of the commonwealth, and an unwillingness to resign the powers heretofore exercised by them, or to permit their exercise by me, continues:

"Civil conflict is impending over us. I am without a soldier or a dollar to protect the lives, property and liberties of the people, or to enforce the laws. Daily appeals are being made to me as Governor of the State to protect our citizens from marauding bands, and in the peaceable enjoyment of their property and rights under the constitution. I am without the means and power to afford relief, and I am left no alternative but to appeal to you, their representatives, in the hope that it will not be in vain. Any attempt upon my part to organize a force for that purpose will certainly but precipitate the evil, and I therefore not unwillingly convene the general assembly that they may themselves determine the extent of the authority granted by them, and, looking to the policy adopted in the State, and the late action of Congress and the President touching the question of slavery, provide for the safety of our institutions and the peace and tranquility of the commonwealth."

The Recognition of Italy.

The recognition of the independence of Italy by Russia and Prussia is an event in which Americans ought to find lively satisfaction; for it completes the installment of one of our best European friends into the front ranks of European powers. The western nations of Europe, some months since, formally recognized Italian nationality. Our own government did so nearly a year and a half ago, in accrediting Mr. Marsh to the kingdom not of Sardinia, but of Italy. Notwithstanding, so long as powers of such strength as Russia and Prussia held back from taking the new customer by the hand, her place in the family of nations was still equivocal. It not only detracted from her prestige and influence, but exposed her to danger through the intimate connections of those powers with her old enemy Austria. This is now all at an end. The young kingdom now stands forth invested by all Europe—her enemy Austria excepted—and by all the civilized world, with every dignity and attribute that pertain to conspicuous membership in the great family of nations.

The first statements concerning this new recognition made it appear that harsh and humiliating conditions were attached to it. Italy, it was held out, was made to promise that she would renounce all further effort to acquire Rome and Venetia. It seems to be true that there was some such attempt to commit the new kingdom to the policy of peace. But they were not unduly pressed. The latest telegraphic news from Turin announces a speech by the Italian premier, in which he declared that "the recognition is not accompanied by any conditions calculated to wound the dignity of the Italian kingdom." It is very certain that no such engagements would have been accepted by the Italian people. No people in Europe have intenser national spirit. The acquirement of Rome and Venetia has been and is their darling object, and they will never deliberately renounce it.

Direct Trade Between Norway and the Northwest.

ARRIVAL OF THE NORWEGIAN BRIG SLEIPNER AT CHICAGO.

From the Tribune of August 5th.

Saturday was a memorable day in the commercial annals of Chicago, and marked by an event which would seem to foreshadow the establishment of another branch of direct trade between Chicago and foreign countries. Six years ago the little steamer Dean Richmond left this port for Europe. She was the first lake schooner to unfurl her sails upon the Atlantic, made an unparalleled trip, and safely furled her sails in the Mersey. Since that time, vessels from this and other lake ports have followed in her wake, and made profitable voyages. In each of these cases the idea was inaugurated by American shippers: the venture was of their own assumption, and their own purses were to be swelled or diminished.

In this instance the risk is assumed by our trans-Atlantic neighbors. The merchants of that stirring business port—Bergen, Norway, with an enterprise unexpected, and a spirit of speculation keenly alive to the main chances, fitted out a staunch and neat little brig, loaded her with sturdy Norwegian farmers and their bouncing wives and daughters to seek new homes in the distant West, and put on board a few fat Norwegian herrings to pay the expenses of the voyage, bidding the captain keep right on until he got to Chicago, fill up with wheat and corn and come home again. The feat is accomplished. The profits will be calculated by the Scandinavian merchants of Bergen, when the brave little brig gets home again.

The Sleipner is a hermaphrodite brig of about three hundred and fifty tons burden, commanded by Capt. Waage, and first officer Hardler. She left Bergen, Norway, on the 23d of May, with one hundred and fifty passengers, and two hundred barrels of herring, consigned to Swan & Synestvedt, 145 Kranzie street. The vessel arrived at Quebec on the 6th of July, where she remained until the 10th. She then started for the Lakes, and arrived at Montreal on the 14th; passed through the Welland Canal on the 21st, and reached Detroit on the 25th. There she left 40 passengers, and started for Lake Michigan, arriving at this port Saturday evening as above indicated. The health of the passengers during the voyage was excellent—not a death occurred on the passage, and no sickness. Soon after they reached Lake Erie, a child was born to one of the passengers.

The Sleipner is the first European vessel which has ever reached this port direct, with emigrants and consignments. The sending of the vessel is an experiment on the part of the merchants of Bergen, and it is yet too early to determine whether it will prove successful or otherwise. She takes a return cargo of grain. If successful on her homeward trip, our merchants may reasonably expect a large accession of direct trade with the countries of Northern Europe.

Of the passengers, but few remain in Chicago, the most intending to locate in Wisconsin, Iowa and Minnesota.

Loyalty of the Germans.

We are informed, that among all the German denizens of St. Louis, none have sought certificates of protection from consulates. They have declined to renounce their citizenship, actual or prospective, in the hour of peril. Having sought residence here, they accept its duties with its privilege,—the burthen with the benefit. A very few applications have been made, we are told, but in every instance by persons properly non-American, and staying here, *bona fide*, for a temporary purpose. In no case, we are assured, has a German who has fixed his domicile here, sought refuge under any other flag. There is an admirable integrity in the German character that is worthy of all men's respect.—*Missouri Democrat.*

ST. PAUL, August 1st, 1862.

MR. EDITOR:—Having been an attentive listener at the late meetings held at the capitol, I beg leave to make the following proposition: It is known to many of our citizens that I have been engaged in recruiting for a company, and it may not be out of place to say that I have spent both time and money. Many of us some months since said, that when Government actually needed us we would go. In my humble opinion, that time has now arrived. I propose to be one of twenty (to sign papers) to meet at the City Hall, on Wednesday, August 6th, and march to Fort Snelling and swear in as high privates. The city bounty money (four hundred dollars) to be left in the hands of the Mayor and City Council, for the relief of the families of any volunteer in the Sixth Regiment. BENJAMIN M. CARR.

GENERAL ORDERS—NO. 26.
HEADQUARTERS ARMY OF THE OHIO, IN CAMP, NEAR FLORENCE, ALA., June 24, 1862.
There are 14,000 officers and soldiers absent from their duty with the various Divisions of this army. Some of them have gone off without any authority; others with the permission of officers not authorized to grant it. In general, sickness is given as the cause of absence, but in very many cases the cause has notoriously ceased to exist, and men remain away, drawing the same pay as their comrades who are faithfully performing their duty. To correct this abuse it is ordered—
1. All officers and soldiers who are absent without direct authority from these Headquarters, the period for which has not transpired, will, on or before the 10th of July, proximo, join their companies or regiments wherever they may be. If ignorant of their locality, they will report to the commanding officer at Louisville or Nashville, by whom they will be directed to their regiments, or put on such light duty as they may be able to perform, if they are not entirely fit for active service; and these will be promptly reported to their regimental commanders by the officer so assigning them.
The cases of those who fail to join as above required, will be disposed of as follows:
2. If any absent officer or soldier, in consequence of sickness or wounds, is absolutely unable to report for duty as above required, he will forward by mail to "The Assistant Adjutant General, District of the Ohio, Nashville, Tennessee" a *Certificate of Disability*, according to the following form:
CERTIFICATE OF DISABILITY.
I declare on oath that I have carefully examined.....of Captain.....Company, Colonel.....Regiment of.....Volunteers, now at this place and under treatment by me, and find him incapable of performing the duties of a soldier for the following reasons: Here state all the *facts* known concerning the disease or wound, or cause of disability; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated; the duty or situation of the officer or soldier at the time the injury was received or disease contracted; and whatever facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.]
Place: (Signed).
Date: Surgeon [or Physician.]
Sworn and subscribed to before
This certificate must be subscribed and sworn to by a Surgeon or Private Physician in good standing, and known as such by the magistrate or other officer by whom the oath is administered; and on it a discharge will be ordered from these Headquarters, or the case otherwise disposed of according to the circumstances.
3. The death of any officer or soldier which has occurred since the 1st of January last, while he was absent from his regiment or company, and which has been reported by the Surgeon of the Hospital in which the death occurred, or by the friends of the deceased if not in Hospital, will be immediately reported by the Surgeon of the Hospital, or by the affidavit of friends, to "The Assistant Adjutant General, District of the Ohio, Nashville," setting forth the date of decease and other material circumstances.
4. All absent officers and soldiers who do not join their companies and regiments, or are not satisfactorily accounted for as above by the 10th of July next, will be reported on their muster-roll as deserters, dating from the time they may have been absent without authority.
By Act of Congress every deserter forfeits all claim on the Government for pay and allowances, besides being liable to arrest and trial by Court Martial. Any person who apprehends and returns a deserter to the commanding officer of a military post is entitled to five dollars.
By command of MAJOR GEN. BUELL.
[Official:] JAMES B. FRY,

The nett profits in two years amounts to $129,000, which shows an unparalled success in the history of Life Insurance. HOME

INSURANCE COMPANY,

NEW YORK.

Extract from Third Annual Report of the Superintendent of the Insurance Department of the State of New York. WM. BARNES, Superintendent.

There are now ninety-five joint stock fire insurance companies incorporated by the State of New York, engaged in the transaction of business; of these companies, fourteen only received premiums during the last year, amounting to over one hundred thousand dollars; four only received premiums above the sum of two hundred thousand dollars, and the premium income of one only exceeded three hundred thousand dollars. The premium receipts of this Company, the HOME, with a capital of $1,000,000, were $2,036,231. The premium income of thirty of the smaller companies was $851,278.65 only, with capitals, however, amounting in the aggregate to the sum of $13,000,000.

The state of things should be improved; the premium income of the mass of our fire insurance companies is by far too small for their capitals, and inadequate to the proper support of a separate and independent corporation. The experience of the HOME, PHOENIX, (of Brooklyn) and some other companies, has demonstrated that, with proper skill, tact and sagacity, business can be increased and managed to an indefinite extent, with entire safety, and even additional security to the company. We have now the machinery and organization in working order for nearly one hundred joint stock fire insurance companies. In the course of a few years their business can be safely doubled, and even quadrupled, without doubling or quadrupling the yearly expenses. Any considerable expansion of business must of course be mainly effected through the instrumentality of reliable, safe, and well managed agencies. The premium income of the HOME amounts to nearly one-eighth part that of the ninety-five companies combined, so that eight corporations like the HOME could conduct the entire business of all these companies. If each company transacted the same amount of business as the HOME, the aggregate premium income would reach the enormous amount of over seventy-eight millions of dollars per year. Our companies are not too numerous for the great future of this country, if managed on the progressive scale demanded by the spirit of the American people.

The annual statement of this our foremost local fire and inland company, made up to the first of January last, shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, President, A. F. Wilmarth, Vice President, and John Meiser, Secretary, those well accredited officers very justly say: "The well-known reputation of the HOME for fair and honorable dealing, together with its capital of one million dollars, and surplus of over half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our State, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the first of January last summed up to $1,521,268.68, against an actual liability of only $55,080.43; and, moreover, it is worth nothing that the assets are all of the very first class. The balance in bank in cash was $421,434.14, very nearly enough to set up an ordinary company; bonds and mortgages $910,219.53, secured on real estate worth $1,715,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,634. Any one not satisfied with the security of the HOME as an insurance institution, must be hard to please.

In 1861 the HOME wrote $10,715,145, taking $829,963 premium, and paid losses $335,775, including some losses for the year 1860. A dividend of ten per cent. was paid on the million capital; and after reserving an ample reinsurance fund, the company shows a "nett surplus" of $160,644 clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

MILLS,

SITUATED ON PHALON'S CREEK, WHERE THE STILLWATER ROAD CROSSES.

This Mill is just completed, and is in good running order. Our machinery embraces all the latest improvements, and was got up in the East, without regard to expense. It has two run of Burrs, which will be kept running night and day, so that farmers coming from a distance can be accommodated without much delay.

The need of a first class Mill of this kind has long been felt by the citizens of St. Paul and vicinity. We have secured the services of James Craigie, who has made milling the business of his life, and in whom we can place entire confidence.

All kinds of grain will be weighed when brought to the Mill, and also when taken away, if desired. We feel confident in saying to the public that we can make as good Flour and as great a yield to the bushel as any Mill in Minnesota, and respectfully solicit a fair trial.

Also a new Mill for grinding corn in the ear.

☞ All work done at this Mill is warranted.

1862. 1862.

LA CROSSE AND ST. PAUL

PACKET COMPANY.

SUMMER ARRANGEMENT

During the summer of 1862, till the close of navigation, the LaCrosse and St. Paul Packet Company, having completely equipped their Line and made large additions to their business facilities, will offer to shippers and passengers on the river greater inducements and conveniences, and QUICKER TIME, than was ever offered by any company on the river.

All the boats on the Chippewa, Minnesota, St. Croix and the upper Mississippi rivers, and the different lines of stages north of LaCrosse, will, the coming season run to connect with the Davidson boats and the LaCrosse and Milwaukee Railroad.

The LaCrosse and St. Paul Packet Company will run a

PASSENGER AND FREIGHT LINE.

The former will number two first class boats—the nicest and fastest on the river. They will be the McCLELLAN and NORTHERN BELLE.—The first will be the Lightning Line, making the run from La Crosse to St. Paul in EIGHTEEN HOURS, and returning will leave here in the morning, and arrive at La Crosse in twelve hours time to connect with the evening train, by which our passengers will make close connection and reach Milwaukee in time for cars, or boats on the Lake in TWENTY HOURS FROM ST. PAUL, and reach Chicago next morning, by Minnesota Junction or Milwaukee, in just TWENTY-FOUR HOURS FROM LEAVING ST. PAUL, and in time for close connection East. This will be by twelve hours the quickest time between these three cities ever made! Nothing but passengers, the mails, express matter, and express goods will be carried on these boats, which will be furnished in the best of style. Passengers will then have daylight to view the grand beauties of the river, and good sleeping cars from La Crosse to Chicago—a great item. Arrangements have also been perfected so that all the boats on the upper rivers and all the stage lines will run in close connection.

The other line will number three regular boats; the Keokuk, G. H. Wilson and Wenona, one of which will leave La Crosse daily on the arrival of the morning train from the East, connecting at all points North, and will also make close connections. The Favorite will run as a tri-weekly packet between St. Paul and Mankato, on the Minnesota river.

A daily line will run between St

THE CITY.

THE CONCERT last evening, though not very largely attended, we are happy to say, gave the best of satisfaction. They sing again to-morrow night. Let the hall be full for they richly deserve a liberal patronage.

PATRIOTISM IN SAINT PETER.—Col. Tibbett of the Land Office, and Col. B. F. Pratt of St. Peter each offer a sack of flour to each man of family who will fill up the company now being raised in Nicollet county.

ERROR.—In noticing yesterday the generous bounty offered by Mr. Whittell as an inducement to fill up the Sixth regiment, the types made us say his offer was $15 each to twenty married men, &c., when it should have read $20 each to fifteen married men, or $10 each to thirty single men, &c.

SERGEANT JOHNSON COULTER of the Fourth Regiment has opened a recruiting office at the City Hotel. This is a good opportunity to enlist in this splendid regiment. Sergeant C. says that it is in better condition than any regiment in the army of the Mississippi, all owing to the excellent management and kind care taken of it by the Colonel.

NATIONAL GUARDS.—This company has 60 men already on its rolls. Forty-one more wanted. Company to elect *all* of its own officers. Usual bounties given.

E. ST. JULIEN COX,
St. Peter, Min.

This company will be at Fort Snelling on the 15th.

MR. J. B. CARTER, it will be seen, is getting up a company called the National Blues, for one of the regiments recently called for. Capt. Carter has already seen service in the army in Missouri, having been for a time on the staff of Gen. Lane. We have no doubt he will prove an acceptable and efficient officer.

FOUR of our printers—J. B. Bell, M. B. Field, Sanders J. Wieting and Gus. Erickson—have just enlisted in the Sixth Regiment, and another starts to-day to join a regiment in Wisconsin, where he formerly resided. Printers are patriotic. This office has furnished since the war broke out nearly half a company towards swelling the numbers of the Grand Army of the Union.

THE P. O. BOYS SPEAK!—MORE BOUNTY!—The undersigned—Clerks in the Saint Paul Post Office, agree to give the sum of $2.50 each per month during the war, (while in our present positions,) towards the support of the families of the first two married men who will notify us of the acceptance of this offer, and enlist in either of the four St. Paul companies (6th Regiment), *i. e.*, $5 per month to each volunteer's family.

EDSON PARKER,
W. D. CLARKSON,
J. F. WILLIAMS,
JOHN LESH.

RIVER ITEMS.—The Minnesota river has risen about two inches in consequence of late rains.

The Canada from St. Louis, Milwaukee from Dunleith, Wenona from Hastings, Clara Hine from Carver, and Ariel from St. Peter, are the arrivals since our last.

The Antelope did not come down yesterday, for what reason we did not learn.

The McLellan is the down boat this morning for LaCrosse from Hastings, and the Key City is the down boat this evening for Dunleith.

WAR MEETING IN CARVER COUNTY.—A mass meeting was held at Carver on the 3d inst., at which Hon. James Smith, D. A. Robertson, and Albert Wolff, of St. Paul, and Frank Warner, of Carver, made speeches. The following excellent resolutions were adopted:

Resolved, That it is the duty of the people to exert themselves to the utmost in maintaining the integrity and just authority of the General Government.

Resolved, That, in our opinion, it is the duty of the government to seize every means that nature affords, and the laws of war justly authorize, in putting down this rebellion and maintaining its integrity and honor.

Resolved, That the armed rebels against this government stand not only in the relation of traitors, but, also, in that of a nation in open war. As traitors, they are justly amenable to the law for the punishment of treason; and, as a nation in open war, we may rightfully employ any means known to civilized warfare for their subjugation and the restoration of the national authority.

Resolved, That inasmuch as the present aspect of the rebellion indicates a prolongation of the war, we heartily endorse the recent call of the government for 300,000 men, and would recommend, if necessary, double that number, and would pledge ourselves to do all in our power to raise that amount.

Resolved, That there is no difference of opinion among the people on the subject of the prosecution of the war for the maintenance of the honor and integrity of this Government.

Resolved, That the Commissioner of this county be instructed to offer a bounty of thirty dollars to each person volunteering from this county, and the sum of eight dollars per month to his family during his absence, and, in case of their death, until they obtain a pension from the Government; the said sums to be paid out of the special funds, and to be paid the first day of each month.

JUST WHAT WE LIKE TO SEE.—The young men we noticed yesterday, met last evening and adopted the following Constitution:

We the undersigned, feeling it our duty to come forward in support of our Government and not wait to be drafted, agree to raise a company to be known as the "Young Men's Guard, composed of young men of respectable character and steady habits—men whom we are willing to associate, eat or sleep with in camp or out of camp. To be an independent organization, to be all sworn in as *privates*, to select our own officers from the ranks and attach ourselves to the Regiment.

If we do not succeed in raising our full quota by the 15th instant, then we will declare by vote whose company we will enter, or will consider ourselves at liberty to disband and take the chances of being drafted.

We would tender our thanks to Mr. Charles Elfelt for the patriotic manner in which he tendered us the use of the Armory Hall. There will be a squad drill to-night at same place.

CHARLES J. STERS,	H. D. TENNEY,
E. H. NORWOOD,	ED. H. JUDSON,
WM. H. BERGH,	N. H. WILMOT,
L. D. K. RANDALL,	JOHN M. KEENAN,
D. H. MCCLOUD,	G. S. HASELTON,
JULIUS WENZ.	

There will be another meeting to-night at Armory Hall, which will be addressed by several able speakers.

LONG HAIRED WENTWORTH.—This singular genius and printer, who enlisted in St. Paul last summer as a recruit for the Minnesota First, and who, when he reached the regiment, was mustered out, because he would not allow his long yellow hair, which hung down over his shoulders, to be cut off, has been arrested, and is now in jail at Baltimore as a rebel spy. It seems that after his discharge from service, he wandered out in the vicinity of Manassas Junction, where he picked up some rebel letters among the evacuated camps, which he secured for trophies; and these being found on his person, were deemed as evidence of his disloyalty. After his arrest he was offered his liberty on taking the oath of allegiance, but he refuses on principle, and demands the interference of the President, and remuneration for his lost time. At the time of the breaking out of the war, Wentworth was in Texas, where he was arrested and imprisoned, and came near being hung, for outspoken Unionism. Being something of a poetaster, he has sent the Rochester *Post* a description of the whole affair in rhyme, but we can make room for only the following:

I rebel say?—This cursed hair
Plays mischief with me every where:
In Jefferson, they all insist
That I'm an abolitionist:
But Abraham gives Jeff. the lie
By making me a rebel spy.
I've been imprisoned in the South,
For talking with a Union mouth.
And now I'm in a Union dell
For disarming a rebel fell!
In jail or out, on every hand,
I'm treated like a contraband—
Loudly expelled from all society,
For what? why, just for native piety.
The ladies, who so wildly stare
And speculate upon my hair,
Would share their tortures if they knew
The worship they're entitled to.
The officer who loves to shine
And talk so heavily o'er his wine—
Who said, were I in his command,
He'd tie me up, both foot and hand,
And barber me by eighteous force—
Could do so, in a speech, of course.
The priest, who, through divine mistake,
Thinks I exist for Jesus' sake,
And wonders why I can't believe
The slanders upon mother Eve.
Would wonder less, could he explore
Some manuscript I have in store,
And have me to the free pursuit
Of what he calls "forbidden fruit."
The wag, who likes, when I'm his target,
The way I take my flax to market,
And says: "So muddy is the road,
Be careful lest you overload!"
Must be excused; his petty tax
Does not affect the price of flax,
And all his revenue depends
On frugal nature's odds and ends.
Such harmless jokes I take at par:
But jokes official go too far.
And must receive the gentle check
That threatens some commissioned neck.

* * * * *

Now, in conclusion, let me say
I want my liberty and pay;
The pay amounts, I roughly guess,
To forty dollars, more or less:
But if I am not paid before
July, it will amount to more.

DEPARTED.—Surgons Stewart and Le Bouteillier of the First Minnesota Regiment left last evening on the Milwaukee to report themselves at Jefferson Barracks, Mo., in obedience to recent orders.

Maj. S. B. A. Haynes, recently appointed Paymaster in the army, left on the same boat to report himself for duty at Washington.

Lieut. Peckham and Sergeant Dave Stewart, of Shelly's Cavelry in the Curtis Horse, also went down and are to recruit in Iowa for the regiment.

IMPORTANT.—Holcombe says it is important that all who intend to join his last Dollar Writing Class should be on hand the first lesson. The class will commence this afternoon at 3 o'clock. The prizes for last course will first be awarded.

GOODHUE COUNTY.—The Board of County Commissioners met last Wednesday, and passed the following patriotic resolution, as suggested by the citizens in a war meeting assembled last week:

Resolved, That there be paid from the Treasury of Goodhue County to each and every person who may enlist in this county for the Sixth Regiment of Minnesota Volunteers, or in any other regiment that may be hereafter called for from this state, the sum of $20, said sum to be paid upon the mustering in of the person enlisting, upon the certificate of the mustering officer or commander of the company in which such recruit may enlist, that such person has enlisted.

Drafting.

The process of drafting in other countries and as it would be here, is this: Rolls are prepared of those liable to service—able-bodied men between the ages of 18 and 45—and the requisite number of names are drawn by lot in the presence of prescribed officials. The persons drawn are notified and given opportunity to prove themselves exempt, or provide suitable substitutes, failing in which they are compelled to serve, or submit to heavy penalties, generally imprisonment.

All male citizens of the United States between the ages of 18 and 45 are liable to be drafted, except those who are employed in the civil service of the Government, from President down to mail carriers, and all those who are disabled by age, disease or personal inability.

The Guerilla Raid in North Missouri.

HUDSON, Mo., August 3d.—Porter's band of guerillas crossed the North Missouri railroad on Wednesday last, and on Thursday night crossed the Hannibal and St. Joseph road on their way to the northern counties pursued by Col. Guitar's forces. Porter had between 600 and 700 men. Bands numbering ten, twenty and fifty were constantly joining him. Poindexter, another notorious marauder, with about an equal number of men was marching on Glasgow yesterday, where there are less than two hundred of our troops. The guerillas in Northeastern Mo. will probably number 2000, but it is confidently believed that their operations will be speedily brought to a close by prompt and efficient measures, adopted by our forces.

Porter and Poindexter profess to have come from the Confederate Gov. to raise recruits and then join Price, who, it is expected, will soon be in the State again.

They have the REVERSIBLE FEED MOTION, which enables the operator to have the work carried either way, or to change the direction, and fasten the end of seams, welds, together with ease, making a long and a short stitch, is done simply by turning a thumb screw.

THE NEWS THIS MORNING.

We have good news—the Army of the Potomac has again assumed the offensive. A force has advanced ten miles toward Richmond, and after sharp skirmishing with the rebel out posts, has encamped on Malvern Hill—the scene of one of the greatest of the seven days battles.

Gen. Pope is likely to encounter a very formidable army at Gordonsville.—We may expect news of a battle in that quarter immediately.

One of those awful Marine disasters that are so overwhelmingly destructive, and terrible in detail, has occurred on the Pacific Coast—the burning of the Steamer Golden Gate, one of the San Francisco and Isthmus packets.

WARLIKE CANDIDATES.

A funny dialogue took place a day or two since in front of the Winslow House between Major Cullen, and Lieut. Gov. Donnelly.

Major C., proposed that they should both stop running for Congress and go and enlist.

Gov. D., objected to this as it would require two new conventions to be called to nominate two new candidates, but proposed to enter into an agreement with Major C. that whoever was defeated should go at once and enter the ranks.

The Major objected this highly to reasonable proposition and drove off rather red in the face.

AN IRISH REGIMENT.

In our paper of yesterday we announced that a few of the prominent Irish citizens of Ramsey County had obtained authority to raise a company for the Seventh or Eigth Regiment. On Wednesday evening they held a meeting and were so much inspired by the appearance of things that yesterday they called upon the Governor in conjunction with J. L. Macdonald, Esq., editor of the Shakopee *Argus*, a leading paper among the Irish population of the Minnesota valley, and stated that they felt confident of raising at once not only a company but an entire Regiment of Irish soldiers.

This offer was of course accepted by the Governor, and in another column will be found an order from the Adjutant-General, providing that when five organizations are recruited to the number of fifteen each, an Eighth Regiment to be composed exclusively of Irishmen will be called for, and the regiment when filled be permitted to select its own line and field officers, and Chaplain.

Nothing could be fairer than this opportunity. Let our Irish fellow-citizens turn out and fill up the ranks of the regiment. Now is the time to prove their devotion to the cause of their adopted country. They can easily furnish *one thousand men*, and under officers selected by themselves they will make a most efficient body of soldiers.

Under a draft their large population could scarcely furnish less than one thousand men, and that too without bounty and with less pay.

It is proposed to raise two companies in Ramsey county, two in Scott, two in Dakota, one in LeSueur, one in Rice, one in Hennepin, and one in Fillmore. Let active young men set to work among their countrymen. Fifteen men will entitle them to a second lieutenancy.

The time for raising the Regiment may appear short but we have no doubt that should the men be forthcoming as rapidly as some anticipate, ample time would be given by the War Department.

Irishmen should remember that as they have through their leading men requested this opportunity, they must now take advantage of it or the people of the State will conclude that they have no part or lot in the patriotic feeling of the rest of the population, and no love for the country that has sheltered them and given them prosperity.

They at least cannot complain that ample opportunity has not been given them.

THE CALL FOR 300,000 BY DRAFT.

We re-publish the order of the War Department calling for the 300,000 militia by draft, as we find it in the Chicago papers of Tuesday. It will be seen to differ from the dispatch to Governor Ramsey which we published, in that an additional section appears relating to the promotion of officers in the army and volunteers for meritorious conduct, and ridding the service of incompetent officers. Also, the date when drafting is to take effect is the 15th of August according to the order published in Chicago, instead of the 18th as telegraphed to Governor Ramsey:

WAR BULLETIN.

WASHINGTON, August 4, 1862.

ORDERED—*First*—That a draft of 300,000 militia be immediately called into the service of the United States to serve for nine months, unless sooner discharged.

The Secretary of War will assign the quotas to the States and establish regulations for the draft.

Second—That if any State shall not by the 15th of August furnish its quota of the additional 300,000 volunteers authorized by law, the deficiency of volunteers in that State will also be made up by special draft from the militia. The Secretary of War will establish regulations for this purpose.

Third—Regulations will be prepared by the War Department and presented to the President with the object of securing the promotion of officers of the army and volunteers for meritorious and distinguished service, and preventing the nomination or appointment in the militia service of incompetent or unworthy officers.

Regulations will also provide for ridding the service of such incompetent persons as now hold commissions. By order of the President.

EDWIN M. STANTON,
Secretary of War.

The Nominee and Platform of the Second Congressional District.

RESPONSES OF THE STATE PRESS.

The *Central Republican*, Faribault, which is generally very hard to please, is, we are glad to see, entirely satisfied with the action of the Second Congressional District Convention. It warmly endorses Governor Donnelly, and the platform, as follows:

The Republicans of the Second Congressional District held their Convention at St. Paul on Wednesday last. The Convention was well attended and the proceedings entirely harmonious. The platform it will be seen is in marked contrast with that of the Valandighamites. The nomination of Lieutenant Governor Donnelly was made by acclamation, and was by no means surprising. It was what we have for some time expected, and it is a nomination as creditable to the Republicans of the Second District, as it is honorable to Governor Donnelly. Governor Donnelly is a man of superior education and ability, and as Lieutenant Governor and President of the Senate has proved himself the best presiding officer we have ever had in Minnesota. His speech on receiving the nomination, which we publish below, has the ring of the true metal, and we confidently expect Governor Donnelly when in Congress will bravely stand by the noble sentiments he has uttered. God help him to do so.

The loyal patriotic Republicans of the Second District owe it to themselves, to their country, and nominee, to give him a rousing majority in that district.

The withdrawal of the names of all other candidates, and the nomination of Governor Donnelly by acclamation, illustrates the high esteem in which he is held by the people. Mr. Donnelly has been twice elected Lieutenant Governor of our State, in which position he has discharged his duties with such signal success as to command the admiration alike of political friends and opponents. As a parliamentarian, he has no superior in the State; while as a ready and forcible debater, he has but few peers. His patriotism and devotion to country cannot be questioned. In energy and talent, he is the youthful Douglas of the Northwest, without the faults and errors of opinion and doctrine of Douglas.

Around such a man as Ignatius Donnelly, the people of the second district will rally with an enthusiasm that could not be inspired for any other man. We think his election an absolute certainty,—*Stillwater Messenger.*

From the state Atlas,

WE are eminently satisfied with the action of the late Convention at St. Paul, in its nominating for Congress, by acclamation, Lieut Gov. Donnelly. It was a nomination altogether fit to be made.—Mr. Donnelly is a young man, but he has had considerable legislative experience, and he has what is better than any experience, a natural comprehension and aptitude for public affairs. Joined to this he possesses indomitable industry, large literary culture, and an unusual facility both for speaking and writing. Mr. Donnelly, too, does not merely *assume* his political principles but he *believes* in them. If he shall be elected, as he will be, we pledge our readers that Minnesota will find in him a representative whose character and ability will so appear both in debate and committee that no apology will be needed in his behalf.

War with Savages.

The Louisville *Journal* well says "It is not necessary that we become savages to carry on a war with savages. We did n't scalp the Indians in the war of 1812."

Baltimore Demands that all the Slaves of Rebels shall be Freed.

At the great meeting on Monday evening in Monument Square, Baltimore, said by the *Clipper* to be the largest meeting held in that place, the fifth resolution, which was adopted unanimously, reads:

Resolved, That while confiscation and emancipation of the property and slaves of rebels may not be an efficient means of suppressing the rebellion, they are essential to cripple the power of those now in arms to embarrass the restoration of peaceful and constitutional government after their military power is broken; and therefore we heartily approve of the policy of confiscating the property of the leaders of the rebellion, and declaring the slaves of every rebel free from all obligation to obey those who refuse to obey the laws of the land.

THE DUTY OF ASSESSORS.

We direct attention to General Order 22, published this morning. Let Assessors not neglect their duty to enroll the militia in their respective districts.

—Gold has been discovered near Carol Dover, in Tuscarawas county, Ohio. The Dover iron company had been drilling for coal for some time past, and a few days ago the augur struck a rich vein of gold quartz, at a depth of about 295 feet from surface. The quartz seems to be full of gold, and several gentleman pronounce it full as rich as the best California quartz.

LOCAL ITEMS.

HON. MICHAEL COOK, of Rice county—commissioned a Lieutenant to recruit for the Seventh Regiment—arrived in the city last night.

CAPT. PARKER, of Company I, Fourth Regiment, arrived in the city last evening, and is stopping at the International. He has has been ill, but is rapidly improving. He reports to Captain Nelson for recruiting duty.

THE military organization of this city, known as the Hope Guards, have disbanded, owing to the enlistment of a number of their members in the regiments now being raised for the war.

BOUNTY.—Messrs. L. B. & C. Greig offer $10 each to the first ten men who will join either of the four companies from this town in the 6th Regiment, or Lieut. Gilfillan's company in the 7th.

The bounty offered yesterday by the Post Office boys was gobbled up early in the morning.

LEE DAVIS, the first man sworn into Lieut. Gilfillan's company for the Seventh Regiment, was yesterday presented with a splendid sword by S. Long, proprietor of the Winslow House.

THE meeting of the young men last night was well attended. Twenty-two names were affixed to the roll, including those of Alderman Valentine, Hon. H. L. Carver, and Geo. W. Prescott. Eloquent speeches were made by Hon. John M. Gilman and Rev. Mr. Noble. They will meet again to night, and the work go bravely on.

BILL HILL has got out of durance on a habeas corpus. As he was already enlisted in the war for the Union, the State will not further interfere to prevent his carrying out so laudable a purpose.—But. William, next time you shoot wait till your commander orders, and then fire to kill.

E. D. N.

CAUGHT A TARTER.—Jim Burns, a colored individual keeps a saloon, and is sometimes known to bet on cards. Jim was in that business the other night, and got beat out of $25 by another gentleman of color. Jim wanted to get it back, and asked Squire Gibbs' advice about it. The colored individual was sent for, and the confession of both heard, when the Squire fined them $5 each for gambling. Then Jim's friend made a complaint against him for keeping a gambling house, and he was fined $25 for that, which he couldn't pay and was sent to jail to board it out.

RIVER ITEMS.—The arrivals yesterday were the Key City, from Dunleith, Wenona from Hastings, Antelope and Clara Hine from Carver.

The morning packet to-day, in connection with the Wenona, for LaCrosse, is the Favorite. The down boat this evening for Dunleith is the War Eagle.

The Antelope is all right again. She laid up one day only in consequence of being snagged.

CITY BOUNTY ALL TAKEN.—The last of the city bounty to the first seventy-five men who would enlist in the Sixth Regiment from this county was taken up yesterday afternoon, eight days sooner than the time specified in the resolution of the Council.

This fills the quota for this County for the 6th Regiment. Of this seventy-five, 37 have enlisted in the Union Guards, Capt. Grant; 21 in the Sigel Guards, Capt. Schoneman; 15 in the Minnesota Grenadiers, Major Dayton, and two in the McClellan Guards, Lieutenant Dana White.

About twenty-six of these volunteers leave families, and will probably apply for the further aid of $5 per month offered by the city on condition of the allotment of $8 per month.

—Letters from prominent officers in the West have been received, making bitter complaints against Gen. Thos, J, Wood of Kentucky, commanding a division in Buel's army. They accuse him of violating the article of war forbidding the employment of soldiers for the return of fugitive slaves, of stripping negroes naked, tying them to trees, whipping them with his own hands, allowing men whose sons are in the rebel army, at home on furloughs, to prowl through his camps at pleasure, ostensibly hunting runaway slaves, but really getting information for their sons to take to rebel commanders, guarding property of rebel officers, and releasing rebel soldiers from confinement, because they were only mulattoes who testified to their being such. Gen. Wood is a native of Mumfordsville, Kentucky, a graduate of West Point, and a colonel of cavalry in the regular army.

—Miss Nevins, a teacher of Rochester, was drowned at Buffalo on Tuesday.

—The Paris *Patrie* says the United States Government has offered to purchase the province of Sonora for $6,000,000.

—Professor Hitchcock, of Amherst College, which is the only College in the country where gymnastic exercises are conducted as a part of the regular college duties, reports that after two years' trial the gymnasium works with complete success. The health of the students has been greatly improved.

—During nine months, from September 1861, to June, 1862, there fell in Klamath county, California, the enormous quantity of 129 inches of rain! The wettest spot in North America.

A Visit to the Military Hospitals in Philadelphia.

PHILADELPHIA, August 2, 1862.

To the Editor of the St. Paul Press:

To-day, in company with Governor Ramsey, I visited two of the military hospitals in this city. That at West Philadelphia is a series of large, well ventilated wards, one story in height, arranged to connect with the Surgeon's quarters and offices which are in the center. There are accommodations here, I should judge, for two thousand, and every body and everything presents a scrupulously neat appearance. Although the buildings are far from being ornamental, they are very comfortable, and beautifully situated in the suburbs of the city, offering a most inviting shelter to the soldier exhausted by disease, or crippled by wounds.

In ward "D," of this institution, we found two soldiers of Company E, of the First Minnesota. Corporal Bradley, shot in the thigh at the battle of Savage's Station, on Sunday night, June 29th, is doing well; and private Patterson, wounded in the shoulder at the same place, is convalescent. They were both left at the Station and captured by the rebels. After remaing for nearly two weeks there they were taken to Richmond, and from thence to City Point, on the James River, where they were transferred under a flag of truce to a United States steamer, and forwarded to this city.

Returning from West Philadelphia, we proceeded to the Fourth street hospital, which is more than a mile north of Market street. Here we found Hamilton Lyons, of Company A, wounded in the foot at the same time as those we have mentioned. While still lame and obliged to use a crutch, he is doing well.

It is cheering to the men to see the care evinced by the benevolent of all classes in their welfare, and they have no reasonable want which is not instantly supplied.

General Dana is still in the city, at the house of a friend. He is still troubled with fever, but is not dangerously ill.

Infamous Doctrine avowed by Judge Chatfield's Home Organ.

From the Central Republican.

The most disgraceful, diabolical avowal of the real quintessence of Democratic meanness and brutality we have seen in any paper is a leading editorial in Judge Chatfield's home organ, the *Argus*, of July 20th under the heading of "Negroes to aid the Government." It not only denounces as unconstitutional all confiscation or emancipation measures, but declares that if slaves of rebels are confiscated it should be as property, (that is the Government of the United States should become a slave trader and sell the slaves as they would any other property), and goes on to say, "we would put the negro to work in our trenches, but never pay them wages, and when we had no farther use for them send them back for their rebel masters, to be supported by them."

If that isn't a fine expression of brutalized Democratic brutality, then we have never seen one, and that too, from the organ of Judge Chatfield, the *Shakopee Argus*, published under his own nose, and and we have heard it suggested that it was probably written by himself; the same Judge Chatfield who proposes to represent the First District of Minnesota in the next Congress. If the people of Southern Minnesota are brutes, they may elect a man who believes in such sentiments to represent them in Congress, but not otherwise.

—Gov. Andrews says he is authorized by the war department to announce that the men who enlist in the old regiments will be discharged when the term of service of those regiments expires.

LATEST NEWS.

BY TELEGRAPH TO ST. PAUL.

WINSLOW'S LINE.

From Gen. Pope's Department.

The Enemy in Great Force at Gordonsville.

They Intend to Attack Pope and fall on McClellan.

Sigel's Corps Subsisting on the Enemy.

WASHINGTON, August 6.

[*Special to Tribune.*]—Late advices from Sperryville state that a deserter from the 7th Virgina cavalry had come in the lines, having left Gordonsville last Saturday. He says there is a large force at Gordonsville and Stannardsville, that reinforcements are arriving daliy from both the north and south, and that it is their intention to attack Pope, whip him if they can, and then fall upon McClellan.

The most advanced brigade of General Sigel's corps is now subsisting entirely upon the enemy. A still later dispatch, dated Sperryville this morning says, Col. Robinson, provost marshal, to-day received orders to send 140 citizens of Sperryville and surrounding country, who will not take the oath, beyond the lines of our army.

Good News From Tennessee

Gen. Nelson with 6,000 Men Occupies McMinnville.

Rebel General Forrest Skedaddled.

General Negley at Columbia

He Dispersed a Large Body of Guerrillas.

NASHVILLE, August 5.

A special to the New York *Herald* says General Nelson occupied McMinnville on Saturday with 6,000 troops. The rebel Forrest fled on his approach, leaving 40 stragglers to fall into our hands. The rebel Morgan was at Sparta with 2,000 cavalry. Transportation between Murfreesboro and McMinnville is open for the Unionists. The telegraph line is being erected between the two points.

General Negley arrived at Columbia yesterday. He dispersed a large concentration of guerrillas at Williamsport, 12 miles from Columbia, Sunday evening, capturing a number.

Captain Julian of the Tennessee troops put to flight a gang of guerrillas near Big Tom, a few miles from Columbia. The guerrillas near there have been attempting to concentrate for some time.

Liberty is occupied by U. S. troops. Cotton has been burned in considerable quantities near Columbia.

The Tennessee and Alabama Railroad from Columbia to Nashville was never more secure. Morgan is supposed to be at Knoxville.

Boston Nobly Meeting the Crisis.

War to be Made the Business of the People until Peace is Conquered.

BOSTON, August 7.

In accordance with the request of many citizens, Gov. Andrew has authorized the organization of a Boston Regiment for the war, to consist of ten companies of rifles and a battery of artillery. Lieut. Colonel Batchellor of the 13th Massachusetts is to be Colonel, and the Governor suggests that the regiment be mainly officered from soldiers now in the field, who have earned a right for promotion by gallant services.

Geo. Lunt, editor of the Boston *Courier*, announces his interest in that paper for sale.

The second battalion of infantry of Boston tigers are to be increased to a regiment for nine months service. Major C. L. Holbrooke is to be the Colonel.

A general desire is expressed that the whole militia of Massachusetts be organized, equipped, and held in readiness for the call of the Government. The People seem delighted to make the war a special business until a peace is conquered.

Awful Marine Disaster on the Pacific.

Burning of the Steamer Golden Gate.

NEW YORK, Aug. 7.

Skirmish near Memphis.

MEMPHIS, August 6.

A fight occurred on Sunday afternoon between a Federal reconnoitering party and a body of rebels. It was a small affair. About one hundred and fifty of the latter were surprised in the vicinity of Money Creek who fled at the first fire. Six or seven were killed and several wounded.

The Army of the Potomac Again on the Offensive.

A Force Advances to Within Nine Miles of Richmond.

Sharp Skirmishing, in which the Enemy was Routed.

HEADQUARTERS ARMY OF THE POTOMAC,
Wednesday, August 6.

The Army of the Potomac again assumed the offensive. The reconnoissance made yesterday under General Hooker to Malvern Hill, White Oak Swamp Bridge and direction of New Market and Richmond in every respect a complete success.

Troops left camp about dark night-before-last, arriving at Malvern Hill, at 4 o'clock yesterday morning—distance ten miles. Here they encountered two regiments of infantry and a battery posted behind earthworks. Fire was immediately opened on them by Capt. Benson's battery and a section of Capt. Robinson's infantry was engaged. Firing lasted about three hours, when the rebels ingloriously fled by river road to Richmond, hotly pursued by our troops who succeeded in taking 100 of them prisoners. Loss on our side at this point—three killed, 11 wounded.

Capt. Ransom had his thigh broken by a piece of shell. Doctors think his leg can be saved. Lieut. Col. Gamble of the 8th Illinois cavalry, was severely wounded in breast while driving in enemy's pickets.

Col. Averill with 500 cavalry took the Quaker road to White Oak Swamp bridge and there found the 10th Virginia cavalry drawn up to receive them. A charge was immediately ordered which broke the rebel lines, when they fled. Col. Averill followed them three miles, taking twenty-eight prisoners, without loosing a single man.

Gen. Pleasanton, with force, took Newmarket road on which a portion of the rebels were retreating.

He followed them to within a short distance of Newmarket, where meeting two brigades of rebels, he fell back, bringing over thirty prisoners taken on the way.

Thus ended operations for to-day, when the troops went into camp on Malvern Hill.

Gen. McClellan, who went to the scene of action early yesterday morning has not yet returned.

About 3000 of our prisoners will arrive to-day from Richmond, in exchange for a similar number sent up on Monday P.M.

Everything is quiet on the opposite side of the river.

The Great War Meeting at Washington.

WHAT WAS SAID.

Gov. Boutwell said the War would last as long as Slavery.

WASHINGTON, August 6.

Ex-Gov. Boutwell made an effective speech at the war meeting. In the course of his remarks he said to, save the Government slavery must die. The war will last as long as slavery lasts, and you take it by the throat if you decide with courage that slavery shall cease. Let it be your war cry. (Applause.)

He was succeeded by Gen. Shepley, military Governor of Louisiana. He, among other things, alluded to the planting and defense of the stars and stripes in the so-called seceded States. A long rope and a short shrift in New Orleans tells the fate of a man who dares pull down the American flag, which in Louisiana is now defended by men from the green hills of Vermont, the pine woods of Maine, and the shores of Massachusetts bay. They will carry with them some lessons which have been related down from the rock of Plymouth, and from the Declaration of Independence, and the articles of confederation which came over in the Mayflower—lessons of a permanent character which the men of the south might well read hereafter for their good.

Gen. Shields said cheers and resolutions will never whip the secessionists and put down the rebellion. We must do more than this. We must do away with old party divisions and unite in a great common cause against men, women and children who are smitten with the infernal madness of rebellion. If we can only throw 100,000 fresh men into the field we can crush the rebellion now and forever. What we want, as was said on a memorable occasion, during the Mexican war is, "a little more grape."—(Excessive laughter and applause.)

An Important Secret Expedition.

Changes in Naval Commanders.

From Gen. Pope's Department.

NEW YORK, August 6.

The *Commercial* states that an important secret expedition, consisting of one little steamer and a few picked men, has left one of our naval depots and will be heard of in a few days.

Admiral Goldsboro and Fleet Captain Case have asked to be relieved from present command.

Rumor says that Captain Wilkes will take Goldsboro's place. Captain Porter of the mortar flotilla will be flag officer of the naval forces before Richmond.

Special reports to the *Post* from Gen. Pope's headquarters, state that the rebels are concentrating their forces at Gordonsville, with an evident intention to attack Pope.

Several Governors of loyal States, including Governor Buckingham of Connecticut, are here in consultation with the President in relation to the new order for drafting.

A Battle with Jeff Thompson

REBELS DEFEATED.

CAIRO, August 6.

The *Bulletin* gives no particulars; more fighting is anticipated.

Another Great War Meeting in Boston.

Edward Everett Declares the War Must Go On.

BOSTON, August 6.

A great war meeting was held here this evening. Hon. Edward Everett was the principal speaker and made an eloquent and patriotic address strongly denouncing any idea of giving up the contest. He might once have been in favor of a peace-separation, but that time had passed, and now the Union must be restored at whatever cost.

Army Changes.

WASHINGTON, August 6.

Gen. Casey is here. It is expected he will be placed on the retired list.

Brigadier General Canby is relieved from duty in New Mexico and is ordered to report to Secretary of War in person.

Brigadier General Elliott is relieved from duty in the army of the Mississippi and ordered to report to Gen. Pope.

Reliable Estimates of Rebel Army in the Field.

NEW YORK, August 6.

The *Post* professes to have reliable information from Richmond that the entire rebel army never exceeded 250,000 effective men from the Potomac to Rio Grande. The forces about Richmond reach at the highest but 120,000 men of whom only 90,000 were on the Peninsula during the memorable seven days, and of whom 60,000 only were used against our flanks and all points. Rebel loss was 28,000 killed and wounded. Richmond has been one vast hospital.

Wednesday, Thursday and Friday, September 17, 18 and 19, 1862.

By a joint resolution of the last Legislature the unoccupied rooms in the Capitol building and the grounds around it were granted to the Ramsey County Agricultural Society to be used for the purposes of a Fair in the fall of 1862. Early in the season the society resolved to hold a fair in the month of September and had made considerable progress in the preparation of its premium list and other arrangements, when a proposition came from the State Society to organize a union of the two associations for the present year, thus to enlarge the sphere of action and produce a degree of interest which the County Society alone could not hope to do.

The State Society had at an early day issued circulars to all the principal towns inviting proposals for holding a fair in them, intending to go wherever a sufficient amount was pledged to enclose grounds and erect suitable buildings, without which aid it was in vain to attempt to hold a fair anywhere. Having received no fitting response up to the 10th of July, it was resolved to unite with the Ramsey County Society, which was already in possession of the Capitol enclosures as before stated, and the arrangements between the two Associations were then consummated. A sub-committee of four was chosen from each Executive Committe to constitute the Board of Managers for the Fair, and the following officers have been chosen to carry into complete effect the plans of the Board. In every thing pertaining to the Fair the two societies hold themselves by agreement equally responsible:

P. P. FURBER, President.
PENNOCK PUSEY, Rec. Sec.
J. A. WHEELOCK, Cor. Sec.
WM. L. AMES, Treasurer.

RULES AND REGULATIONS.

ENTRIES.

1. Articles other than stock will be received from Monday the 15th day of September, until Wednesday, the 17th, at 5 o'clock, P. M., and at that hour the entry books will be closed. Entries may be made before the first day of the Fair at the office of J. A. Wheelock, Esq., in the Capitol, by letter or otherwise, by forwarding the amount of entrance fee, or upon the grounds on and after Monday the 15th inst.

2. When entries are made of live stock, or of any article, the Secretary will give to the party a card, which will contain the number of entry and class, and must be attached to the article in a conspicuous place, to facilitate the committees in making examinations. All articles entered must be delivered to the Superintendent by the exhibitors at the Fair Grounds.

3. Previous to making an entry or entries, the applicant must purchase a membership ticket of the Treasurer, which will cost him one dollar. This ticket will admit him to the grounds during the Fair. No person will be allowed to see the entries until after the awards are made.

4. No article exhibited shall be removed before the close of the Fair without permission from the President.

5. Exhibitors of thorough-bred and blooded stock must specify the breed, pedigree and by whom bred, and of all stock, the age of the animal, the owner's name, and their treatment.

6. The Executive Committee will not be responsible for the omission of any animal on the lists, if the foregoing rules are not complied with, nor for any mistake on the part of the exhibitors in the classification of their articles or animals.

DUTIES OF AWARDING COMMITTEES.

7. Copies of the Premium List will be sent to all persons named on the awarding committees. They will also receive communications from the Secretary, announcing their appointment, and they are requested to inform the Secretary whether they accept or decline the appointment. The notice of the appointment exhibited at the gate will procure free admission to the Fair Grounds. In awarding premiums, the committees must be guided strictly by the regulations. They are not authorized to award discretionary premiums, but are requested to report all cases deserving of special consideration to the Board of Managers.

8. Members of awarding committees are requested to report themselves at the Secretary's office, and enter their names on the Register, where they will be advised of the meeting of the Committee, and furnished with the books of entries, which they are desired to fill up with the awards, and return to the Secretary's office. They will also be supplied with badges, which will admit them during the Fair. Two members of the committee will be a quorum, and vacancies to make up that number will be supplied by the managers or under their direction.

9. When there is but one exhibitor, although he may show several animals in a class or sub-division of a class, only one premium will be awarded, that to be the first or otherwise as the committee may determine, and a premium will not be awarded where the animal or article is unworthy or unsound, although there may be no competition. Plows must be tried before a premium is awarded.

10. *Blue ribbons* are designed for first premiums; *red ribbons* for second premiums. The *green* and *yellow* ribbons are designed for miscellaneous articles for which no premiums can be awarded, except on the special direction of the managers—the *green ribbon for the highest commendation*, and *the yellow ribbon for high commendation*.

PREMIUMS.

11. Premiums will be paid by the Treasurer on the grounds, or sent by mail or express as requested.

12. All premiums not claimed within thirty days after the award will be considered as forfeited.

ADMISSION TO THE FAIR GROUNDS.

13. Every person purchasing a membership ticket will be entitled to enter the fair grounds with the ladies and minor children of his family, any day during the fair.

14. Single tickets for one admission, twenty-five cents each.

15. Complimentary and membership tickets are not transferrable, nor are the badges given to officers and awarding committees; if any such tickets or badges are presented at the gates by any other than the proper person, the gate keepers are instructed to take them up.

SUPERINTENDENTS.

16. Seven Superintendents will be appointed, one to take charge of each of the following divisions: A, horses and cattle. B, sheep, swine and poultry. C, farm products. D, horticultural and floral. E, implements and machinery. F, ornamental and domestic. G, miscellaneous.

They or their assistants shall attend to the arrangement of the animals or articles on exhibition in their respective departments; shall attend the awarding committees and see that no one interferes with them. They shall see that every animal or article on exhibition is properly and conspicuously labelled for the information of visitors. They shall be responsible to the board of managers for the faithful performance of their duties; shall assist, when necessary, in maintaining order on the grounds, and shall give due notice of any wrong-doing affecting the rights of the Association or of the exhibitors. The position of each division and sub-division will be indicated by signs, and each superintendent will have a place in the building or on the grounds, at which the exhibitors and others can apply for information. They will also carefully guard all property committed to their care.

DESIGNATION OF OFFICERS.

17. The officers of the Society will wear blue rosettes; the superintendents of departments will wear red sashes; the general superintendent will wear a rosette and green sash, and his assistants will wear green sashes; the gate keepers and police will wear white sashes, and the awarding committee will be provided with badges.

PREMIUMS FOR FIELD CROPS.

18. Premiums for field crops will be awarded at the annual meeting of the State Society, to be held on the first Monday in February, 1863, at which time applicants will appear, with suitable verification, or statements, with proper vouchers, which may be filed at any time previously in the office of the Secretary of the State Society, J. A. Wheelock, Esq.

SALE OF STOCK.

19. Public sales of stock and other articles, by auction or otherwise, will take place at 12 o'clock on the second and third days of the fair, in some portion of the ground designated by the Superintendent. A list of the articles or animals to be sold should be written out and handed to the Secretary on the day before sale.

EDITORS AND REPORTERS.

20. A suitable room will be provided for the accommodation of editors and reporters, and every facility afforded them to obtain information in regard to the exhibition and awards.

FORAGE FOR STOCK.

21. Hay and straw will be furnished on the grounds without charge for all animals on exhibition. Corn and grain will be furnished at reasonable prices. All exhibitors must attend to the feeding and care of their animals, and be prepared to bring them out for inspection when called for.

ARRANGEMENTS FOR ATTENDING THE FAIR.

22. Davidson's line of boats and the Minnesota Packet Company have agreed to carry persons who wish to attend the fair, from the several points on the river and back again, at considerably less than the usual rates; and articles intended for exhibition and actually exhibited, for half price. The Saint Paul and Pacific Railroad Company will, on the fair days, run extra trains if needed, and convey passengers at half fare on all trains. The Saint Paul bridge will be made free on the days of the fair to all persons visiting the same for the exhibition of stock or other articles.

Articles for exhibition may be sent to the Fair, addressed to the care of W. L. Wilson, General Superintendent, at Saint Paul, who will attend to the grounds on and after Monday the 15th, to receive them.

NOTICE.

23. All stock, implements, inventions and articles of merit, raised, owned or manufactured out of this State, will receive notice from awarding committees and diplomas given if thought worthy, but no cash premiums, unless specially directed by the board of managers. They will not compete with Minnesota products except in the cases specified in this list.

GENERAL ARRANGEMENTS.

24. The exhibition will open to the public each morning at nine o'clock. Every officer will be at his post precisely at half past eight.

25. Disorderly conduct will not be permitted. A police force, sufficient to prevent the same will be in attendance.

CASH CAPITAL.....$100,000
NETT SURPLUS..... 138,000

DIVIDENDS ON CAPITAL LIMITED BY ITS CHARTER TO SEVEN PER CENT. PER ANNUM—
—THE ENTIRE PROFITS GO TO THE POLICY HOLDERS.

This Society was organized in the year 1859, with a cash capital of $100,000 deposited irrevocably with the Insurance Department of the State of New York, in United States bonds, on which it allows but seven per cent. per annum to the stockholders, and the entire profits of the business is shared by the policy holders. The net profits in two years amounts to $129,000, which shows an unparalleled success in the history of Life Insurance. Its operations are managed by a Board of Directors composed of the the ablest business men of the country, and its business is conducted entirely on the cash plan. Dividends to the policy holders will be made every five years, and no Company in the country offers equal advantages to its dealers.

The annual statement of this our foremost home-based Indiana company, made up to the first of January last, shows a condition of such position, strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, President, A. F. Wilmarth, Vice President, and John Morton, Secretary, those well accredited officers very justly say: "The well-known reputation of the HOME for fair and honorable dealing, together with its capital of one million dollars, and surplus of over half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our State, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the first of January last summed up to $1,521,258.08, against an actual liability of only $55,080.43; and, moreover, it is worth nothing that the assets are all of the very first class. The balance in bank in cash was $621,631.14, very nearly enough to set up an ordinary company; bonds and mortgages $940,229.53, secured on real estate worth $1,745,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $259,696. Any one not satisfied with the security of the HOME as an insurance institution, must be hard to please.

In 1861 the HOME wrote $706,745.18, taking $20,993 premium, and paid losses $535,775, including some losses for the year 1860. A dividend of ten per cent. was paid on the million capital; and after reserving an ample reinsurance fund, the company shows a "net surplus" of $100,541 clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

MILLS,

SITUATED ON PHALON'S CREEK, WHERE THE STILLWATER ROAD CROSSES.

This Mill is just completed, and is in good running order. Our machinery embraces all the latest improvements, and was got up in the East, without regard to expense. It has two run of Burrs, which will be kept running night and day, so that farmers coming from a distance can be accommodated without much delay.

The need of a first class Mill of this kind has long been felt by the citizens of St. Paul and vicinity. We have secured the services of James Craigie, who has made milling the business of his life, and in whom we can place entire confidence.

All kinds of grain will be weighed when brought to the Mill, and also when taken away, if desired. We feel confident in saying to the public that we can make as good Flour and as great a yield to the bushel as any Mill in Minnesota, and respectfully solicit a fair trial.

Also a new Mill for grinding corn in the ear.

LA CROSSE AND ST. PAUL

PACKET COMPANY.

SUMMER ARRANGEMENT

During the summer of 1862, till the close of navigation, the LaCrosse and St. Paul Packet Company, having completely equipped their Line and made large additions to their business facilities, will offer to shippers and passengers on the river greater inducements and conveniences, and QUICKER TIME, than was ever offered by any company on the river.

All the boats on the Chippewa, Minnesota, St. Croix and the upper Mississippi rivers, and the different lines of stages north of LaCrosse, will, the coming season run to connect with the Davidson boats and the LaCrosse and Milwaukee Railroad.

The LaCrosse and St. Paul Packet Company will run a

PASSENGER AND FREIGHT LINE.

The former will number two first class boats—the finest and fastest on the river. They will be the McCLELLAN and NORTHERN BELLE.—The next will be the Lightning Line, making the run from LaCrosse to St. Paul in EIGHTEEN HOURS, and returning will leave here in the morning, and arrive at LaCrosse in twelve hours time to connect with the evening train, by which our passengers will make close connection and reach Milwaukee in time for cars, or boats on the Lake in TWENTY HOURS FROM ST. PAUL, and reach Chicago next morning, by Minnesota Junction or Milwaukee, in just TWENTY-FOUR HOURS FROM LEAVING ST. PAUL, and in time for close connection East! This will be by twelve hours the quickest time between these three cities ever made! Nothing but passengers, the mails, express matter, and express goods will be carried on these boats, which will be furnished in the best of style. Passengers will then have daylight to view the grand beauties of the river, and good sleeping cars from La Crosse to Chicago—a great item. Arrangements have also been perfected so that all the boats on the upper rivers and all the stage lines will run in close connection.

The other line will number three regular boats; the Rosalie, G. H. Wilson and Wenonah, one of which will leave La Crosse daily on the arrival of the morning train from the East, connecting at all points North, and will also make close connections. The Favorite will run as a tri-weekly packet between St. Paul and Mankato, on the Minnesota river.

A daily line will run between St. Anthony and St. Cloud on the Upper Mississippi, for passenger and freight business. All of which are to connect with the boats above named, plying between La Crosse and St. Paul, and connecting with the La Crosse and Milwaukee Railroad.

This Company have just completed at St. Paul a mammoth wharf boat, which will hold seven hundred tons of freight; and to or from which goods of all kinds can be carried to any part of the city, without further handling or danger of breakage.

Shippers of freight to St. Paul by this line or over the La Crosse and Milwaukee Railroad in connection, will, by shipping to the care of J. C. Burbank & Co., have their goods delivered FREE in the City, or forwarded to all points North FREE OF WAREHOUSE OR STAGE CHARGES. Goods going the other way have the same advantages.

To avoid all delays, and to make the closest connections and quickest time, see that your tickets are for this line and no other.

GENERAL ORDERS—NO. 25.

HEADQUARTERS ARMY OF THE OHIO,
IN CAMP, NEAR FLORENCE, Ala.,
June 24, 1862.

There are 14,000 officers and soldiers absent from their duty with the various Divisions of this army. Some of them have gone off without any authority; others with the permission of officers not authorized to grant it. In general, sickness is given as the cause of absence, but in very many cases the cause has notoriously ceased to exist, and men remain away, drawing the same pay as their comrades who are faithfully performing their duty. To correct this abuse, it is ordered—

1. All officers and soldiers who are absent without proper authority from these Headquarters, the period for which has not transpired, will, on or before the 20th of July, proxime, join their companies or regiments wherever they may be. It is earnest of their loyalty, they will report to the commanding officer at Louisville or Nashville, by whom they will be directed to their regiments, or put on such light duty as they may be able to perform, if they are not entirely fit for active service; and these will be promptly reported to their regimental commanders by the officer so assigning them.

The cases of those who fail to join as above required, will be disposed of as follows:

2. If any absent officer or soldier, in consequence of sickness or wounds, is absolutely unable to report for duty as above required, he will forward by mail to "The Assistant Adjutant General, District of the Ohio, Nashville, Tennessee," a *Certificate of Disability*, according to the following form:

CERTIFICATE OF DISABILITY.

I declare on oath that I have carefully examined.....of Captain.....
Company, Colonel.....Regiment.....Volunteers, now at this place and under treatment by me, and I find him incapable of performing the duties of a soldier for the following reasons: Here **state** all the *facts* known concerning the disease or wound, or cause of disability; the time, place, manner, and all the circumstances under which the the injury occurred or disease originated; the duty or situation of the officer or soldier at the time the injury was received or disease contracted; and whatever facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.]

Place: (Signed).
Date: Surgeon [or Physician.]

Sworn and subscribed to before

This certificate must be subscribed and sworn to by a Surgeon or private Physician in good standing, and known as such by the magistrate or other officer by whom the oath is administered; and on it a discharge will be ordered from these Headquarters, or the case otherwise disposed of according to the circumstances.

3. The death of any officer or soldier which has occurred since the 1st of January last, while he was absent from his regiment or company, and which has been reported by the Surgeon of the Hospital in which the death occurred, or by the friends of the deceased if not in Hospital, will be immediately reported by the Surgeon of the Hospital, or by the affidavit of friends, to "The Assistant Adjutant General, District of the Ohio, Nashville," setting forth the date of decease and other material circumstances.

4. All absent officers and soldiers who do not join their companies and regiments, or are not satisfactorily accounted for as above by the 10th of July next, will be reported on their muster-roll as deserters, dating from the time they may have been absent without authority.

By Act of Congress every deserter forfeits all claim on the Government for pay and allowances, besides being liable to arrest and trial by Court Martial. Any person who apprehends and returns a deserter to the commanding officer of a military post is entitled to five dollars.

By command of Major GEN. BUELL.

REPUBLICAN DISTRICT CONVENTION.

The Republicans of the First Congressional District of the State of Minnesota, *and all others* who are in favor of the vigorous prosecution of the war, and of upholding the Executive in all acts looking to the immediate suppression of the rebellion, are requested to meet in Delegate Convention, at Owatonna, in Steele county, on Wednesday, the 20th day of August next, at 12 o'clock M., for the purpose of nominating a Candidate for Representative in Congress from said First District.

The different counties in the District will be entitled to be represented in the Convention by delegates who are *bona fide* residents of the counties from which they are accredited, as follows:

THE NEWS.

Gen. Burnside is at Acquia Creek, which is the landing on the Potomac of the Fredericksburg road to Richmond.

The enemy is reported marching out from Richmond to attack McClellan's force at Malvern Hill.

Gen. Robert L. McCook, one of the heroes of Mill Spring, has been shot by a road-side guerrilla.

Missouri is a perfect Pandemonium of guerrillas. A sharp fight occurred near Hudson, the junction of the St. Louis with the Hannibal and St. Joseph R. R. In the southwest, near Springfield, there has been fighting, and in the southeast the troops have had a skirmish with citizens that resisted the enrollment act. A war of extermination against traitors is inaugurated by the loyal citizens.

AN END TO TREASON IN OUR MIDST.

The telegraph brings us a much needed order for the arrest of the copper heads in our midst that discourage enlistments, or by word or deed, give aid and comfort to the enemy. It will silence a good deal of outspoken treason in St. Paul.

Important to Settlers on Public Lands.

J. M. Edmunds, the Land Commissioner, responds to a letter to him, called out by persistent efforts being used to prevent enlistments in the army by representing that settlers will lose their lands in consequence of absence in the service of the country. The Land Commissioner says:

> Such entries will not be declared forfeited until an opportunity is afforded to the purchasers, who may return to their settlements, to show they have complied with the spirit and intent of said act, by actual settlement and cultivation, which are now prerequisite to the delivery of the patents. In case the purchaser should be killed, or die in actual service, upon presentation of satisfactory evidence of the fact, and of some act intended to show the *bona fide* intention of the deceased to fulfil the requirements of the law, his claim will be confirmed to his heirs or legal representatives.

U. S. CIRCUIT COURT FOR MINNESOTA.

By the annexed order, adopted on the 7th inst., the Circuit Court of the United States is inaugurated within the District of Minnesota.

We are requested to mention that Judge Nelson deems it necessary that Attorneys, entitled to practice in the District Court, should likewise qualify as officers of the Circuit Court under its new organization:

UNITED STATES CIRCUIT COURT, } DISTRICT OF MINNESOTA. }

AT CHAMBERS: August 7, 1862.

Ordered—That James W. Taylor be and he is hereby appointed Clerk of the United States Circuit Court for the District of Minnesota, and Master and Examiner in Chancery.

Ordered—That the Rules of Practice in civil cases adopted by the District Court of Minnesota, having Circuit Court powers, be and the same are hereby adopted as Rules of Practice in the Circuit Court, until further ordered; excepting the rule on the subject of garnishment, which is made to conform to the practice now existing in the State Courts.

Ordered—That the Clerk procure a seal, to be made in conformity to law, to be used in the Circuit Court for this District.

Ordered—That the United States Commissioners, Masters and Examiners in Chancery heretofore appointed by the District Court be continued as Masters and Examiners in this Court.

R. R. NELSON, Judge.

—General Howard's right arm was shattered by a ball during the recent battles, and was amputated above the elbow. While being borne on a litter he met General Kearney, who had lost his left arm in Mexico. "I want to make a bargain with you, General," said Howard, "that hereafter we buy our gloves together."

—The Wheeling *Intelligencer* of the 2d inst. contains a scathing speech delivered at Morgantown, Va., by Senator Willey, on the course of his colleague, Carlile, in reference to the bill for the admission of West Virginia.

THE NURSE OF PRESTON S. BROOKS.—An old colored woman, formerly a slave is now residing in Rahway, Newjersey. She was the nurse of Preston S. Brooks, and has a large family of children, all of them slaves. "Massa Brooks" she describes as a bad boy and a cruel man to his people, whom he whipped terribly and fed in a miserable manner. His brutality in childhood was fairly parent to the ferocity of his manhood.

The Nominations in the Second District.

RESPONSE OF THE PRESS.

From the Hastings Independent.

It is with great gratification that we announce that our distinguished fellow citizen, Hon. Ignatius Donnelly, has received the Republican nomination as the candidate for Congress in this District. We regret that the position in which he places himself is a partisan one, though we believe that his independence of character, and appreciative sense of justice, will ennoble him to the distinguished position of the representative of the entire people of his District irrespective of party lines or party names.

To say that we are pleased that he is placed in a position that gives us the opportunity of demonstrating our appreciation of his wisdom, patriotism and sagacity, is but a feeble expression of the entire confidence we have in his legislative ability. We have known him for years and known him well—as the social companion, the private citizen, or the public officer, we have ever found him earnest, faithful, vigilant and capable.

From the Anoka Republican.

HON. IGNATIUS DONNELLY is the nominee of the Republican Congressional Convention which met in St. Paul on the 30th, and we place his name at the head of our paper with more than usual pleasure, because, above all others, he was our choice, the choice of the county, and the choice of the district.

We ask the people to read the platform adopted by the Convention and contrast its patriotic utterances with that of the Moccasinites, upon which Major Cullen stands as the so-called democratic candidate for Congress.

The Central Republican's Reply to D. Blakely, Esq.

In reply to the letter of D. Blakely, Esq., an extract from which we published in Thursday's PRESS, the Central *Republican* of the 6th inst. has a vigorous rejoinder, from which we take the following:

> We shall enter into no controversy with Mr. Blakely as to our readiness to give a reason for the hope that is in us, the sentiments we utter or our common sense. Readers of the *Post* and *Republican* will decide that matter for themselves. Nor do we differ with him as to the essential disloyalty of the Democratic platform, its builders and supporters; but of the changes he speaks of, we know of none in this county, not one that does not endorse the platform and intend to support the candidates. Douglas men denounce Rice as a Breckinridgite, the Breckenridge men as an office seeker; which are right? If there were changes we should feel somewhat doubtful of the real conversion of a man who could not rally to the support of the country under the same party name (Republican) which was inscribed on the banner under which such men as Jefferson, John Quincy Adams, Clay, Jackson, and other worthies of old rallied. We should want to take such men on a few months' probation before changing the party name to please their fastidious tastes.
>
> Now Mr. Blakely without consulting the party that entrusted him with the honorable position of Chairman of the District Committee, with the honorable precedent before him of the Second District Committee, who decided that they had no right to call any but a Republican Convention, with a perfect knowledge that the silly proposition to change the Republican party name was indignantly repudiated by the last State Convention, surprises the party by usurping the authority to verify a Democratic prediction made in 1860, "that before the next Congressional election the party would be running under a new name," and disorganizing the Republican party by giving it a new name. This assumption of authority never delegated you is precisely what we charged you with—not a word is said about the language of the call; that is a matter not in controversy at present—and the readers of your letter will see that you dare not assert that the Committee authorized you to call a "Union," instead of a Republican, District Convention. This assumption of and exercise of power never delegated you is solely your own act, and upon this point we have this to say, that however desirous you might be to gratify the fastidious tastes of a superior order of Democrats in Rochester, or however desirous of getting everybody to support our minister (the President,) your plain duty—holding as you did your position from the Republican party—was to have laid the case fairly before them and invited public action.

Young Men of Minnesota to the Rescue.

EDITOR PRESS: Now is the time to serve your country, in this her darkest hour of peril. We call upon you, one and all to step forward and fill up Minnesota's quota. You who would serve your country from motives of true patriotism and not for pay or bounty. You who would ward off the disgrace of a draft, and show yourselves co-citizens of those who have gone before. You who care not for office, but only want a chance to fight for our glorious country—now is the day, and now the hour.

Young Ladies! we call upon you to do *your* share in this noble work—the salvation of our country. Your influence is most powerful, exert it to the utmost. Our ranks will soon be full if you treat with the contempt they deserve those who now stay at home from motives of cowardice or self interest. We well know your your patriotism, will you make all young men show *theirs?* A *word!* a *look!* will be sufficient.

Young Men! I say again, do your duty, leave your farms, leave your business, leave everything. The honor of fighting and dying for our country is enough to compensate for all.

ONE OF THE "YOUNG GUARDS."

THE AGE OF BREVITY.—Deep feeling is not wordy. True grief is almost dumb; great joy is speechless. Triumphant Cæsar's three verbs of two syllables Perry's laconic announcement of victory, the old King's lament over Absalom, are as familiar as household words. Short sermons, short speeches, short editorials, short letters, everything short but crops and money—is the doctrine now-a-days.

State News.

From Mankato Record.

PERSONAL.—Col. D. A. Robertson, sheriff of Ramsey county, is on a visit to our town. The colonel, we believe, is the first person who conceived the idea of locating a town on the present site of Mankato, and came here for that purpose about ten years ago—before the extinguishment of the Indian title. He is at the Mankato House, where he will remain for a day or two.

HARVEST.—The farmers of this section of the State are busy harvesting their spring wheat, and the reports that daily reach us confirm fully the anticipations of a very heavy yield. We have heard many farmers estimate their crops as high as thirty-five and forty bushels to the acre; while the average for winter wheat will not be les than fifty bushels.

From the St. Peter Tribune.

THE STORM OF SUNDAY.—One of the most violent storms of the season passed over this place on Sunday, doing considerable damage to the grain and other crops.

ACCIDENTALLY SHOT.—A young man named Wiegand residing at Henderson, started out gunning Monday; and the ground being wet, he slipped and by some means the gun was discharged. The entire charge passed almost through his body, and he died on Monday evening. He was a promising and industrious young man.

FOR BARNUM.—Two badgers were sent from St. Peter this morning by express. They are to be exhibited in Barnum's Museum, and will serve a double purpose as natural curiosities, and walking perfumery chests. The lady visitors to the Metropolitan show can have an opportunity of judging the merits of Western curiosities and Western odors. The latter is decidedly a "big thing."

ENLISTMENT.—We are informed that thirty-seven men have enlisted in the National Guards, and it is confidently expected that the number will be increased to fifty during the present week. Several of those enlisting in this company went to Fort Snelling yesterday to be sworn into the service, and the others will probably go down on Friday.

THE CARIBOO PARTY.—Yesterday the families of our Cariboo party were rejoiced by the arrival of letters from the travelers. They have thus far enjoyed excellent health, and the trip has been free of all accidents to man, beast or equipage. The roads traveled over on the route are pronounced good, and but little dilliculty has been encountered in crossing streams or sloughs. When last heard from, they were 240 miles west of Fort Garry. Twenty-five miles is the average distance traveled each day.

From the Hastings Conserver.

The Messrs. Harisons bought a load of white winter wheat this week, for which they paid eighty cents per bushel. This wheat was raised this season, and yielded *fifty bushels to the acre.* Who doubts the future wealth and greatness of Minnesota?

THE SCHOOL FRIEND.—This is the title of a small quarterly octavo sheet, just printed at this office, and edited by Prof. Thicknum, Principal of the Central University. We have taken the liberty to quote largely from this admirable little paper on our outside. Prof. Thicknum is a progressive man, an excellent educator, and christian gentleman. This newspaper is a credit to the school it represents, and we expect that such enterprise will meet its ample reward.

War Meeting at Northfield.

NORTHFIELD, Aug. 6, 1862.

EDITOR PRESS:—A large and enthusiastic war meeting was held in this village last Monday evening, which was addressed by Hon. John M. Berry, of Faribault. The speaker alluded, in his opening remarks, to the radical change of opinion on many important questions which this war had wrought in men's minds. This change of opinion he felicitously illustrated by reference to several of the topics generally discussed in the newspapers and in social circles. In referring to one of these—emancipation—I thought he unconsciously somewhat overstated the undoubtedly great change of public opinion on the subject. I believe that popular sentiment has been for a long time much in advance of the action of our public men on this subject; rather, perhaps, waiting for leadership, ready at the spoken word to sanction whatever measures the Constitution would uphold, to rid the political system of the virus of slavery. Our different views of this matter result, perhaps, from our different stand-points. Mr. Berry having been heretofore classed among conservative Republicans, while your correspondent has had radical leanings all his life time. It must be conceded that the change of opinion on the question of emancipation has been very great. One fact accomplished illustrates this beyond peradventure. The most we dared hope for in the direction of emancipation, or abolition, at the incoming of Mr. Lincoln's Administration, as the direct result of his policy, was that before the close of his term, some scheme of gradual emancipation in the District of Columbia might be adopted. Scarcely one year had passed before public sentiment imperatively demanded that the seat of the Federal Capital be instantaneously purified from this "relic of barbarism," and it was done.

Mr. B. impressively urged the duty incumbent upon every man, either to volunteer himself, or to make it an object, by contribution of his means, for some other man to do so. He presented a hopeful, cheerful view of the prospects of the cause, and the frequent applause with which his address was received testified to the hearty appreciation of it by the audience. At the close of the meeting a vote was taken on a proposition to invite our County Commissioners to vote a bounty to recruits from this County, and the proposition was carried by a unanimous vote.

"Spirit of '76."

EDITOR PRESS: We at last see true patriotism beaming through the dark and cloudy sky. We are seeing young men and old coming out side by side in defense of this good and glorious county that was consecrated and baptized in the blood of 1776. We like to see men come out and say they won't wait to be drafted; that we are not going for bounty or pay, but for love of country and its institutions; men who say we "will share our pay alike—we want no office—we go to fight for our country."

We like the agreement which our young men pledged themselves and their honor to, the other night, at Armory Hall. When they get forty-one men, they will march to Captain Nelson's office and be sworn in as privates; then make out their allotment roll, agreeing to allot their entire pay to a company fund, from which officers and privates are to draw out an equal share—so that a private draws as much pay as the Captain. After these men are sworn in, they will proceed to an election of officers, and as each candidate is nominated, he pledges himself by oath that should he be elected he will allot his entire pay to the company fund as per former agreement, so that he draws no more pay than a private.

The Young Men's Guard now have thirty good men, and only started two days ago, which shows it is bound to succeed. Young men are coming in from all around the country and giving in their names. Old men come in and say, "I am over the age at which they draft, but I go because the fire of patriotism that animated our forefathers burns in me." Young men say, "I am not of age, but I am old enough to shoulder a musket and fire it too." Let the young men of other towns follow their example. Would that every town in the Union would take up this equalization of pay and carry it through.

THE PRESIDENT'S PEREMPTORY DECISION AGAINST ARMING NEGROES.

Special dispatch to the Chicago Tribune.

WASHINGTON August 5, 1862—It was hoped that certain features of the interview with the President to-day, on the subject of arming the negroes, would not be made public; but a garbled statement in a semi-secession New York paper necessiates the publication of the facts. A delegation of Western men, including two United States Senators, made the offer of certain negro regiments to the President, to which offer, as stated last night, the President replied that he had decided not to arm negroes. The matter then was freely discussed with reference to Lane's project and the general policy. The President was plied with arguments against the decision, and discussion gradually became more fully explained. "Gentlemen, you have my decision. I have made my mind up deliberately and mean to adhere to it. It embodies my best judgment, and if the people are dissatisfied, I will resign and let Mr. Hamlin try it," to which one of them replied, "I hope in God's name, Sir, President, you will." The heat of the discussion seems to have arisen from the feeling that the President was drawing back from the ground his visitors thought he had given them reason to believe he occupied.

The special of the Cincinnati *Gazette* states the President's position somewhat more qualifiedly, as follows:

WASHINGTON, Aug. 4.—Certain prominent western gentleman waited on the President to-day to tender him two negro regiments from the West, the organization of which could be completed and ready to take the field within ten days. The interview was protracted and the discussion covered the whole ground of arming the negroes with all its possibilities for good and evil. The President finally closed by announcing that he had made up his mind not to accept at present the service of armed negroes. He would use them as teamsters, cooks, laborers on entrenchments and in every capacity save fighting. He declared that to accept regiments of armed negroes would be to lose forty thousand white soldiers now in the army, and would drive some of the border States out of the Union. He had deliberately made up his mind to this policy, and would adhere to it, unless totally new circumstaces require the change. This announcement causes the utmost astonishment among Western men, who had supposed Jim Lane's project fully authorized by the President himself. His determination upsets that whole scheme and will also work decided revolutions in plans elsewhere. It is believed hat the President cannot now consistently allow Hunter to go on with his colored regiments in South Carolina, and will put an end also to the organization of negro troops in numerous other quarters.

A Chicago Banker Captured.

A few weeks ago since Lazarus Silverman, Esq., a well known banker doing business on Lasalle street, left for Memphis with the avowed purpose of purchasing cotton. Mr. Silverman carried with him nearly $30,000 in gold, with which he hoped to drive such bargains with the needy Southrons as should net him an amount sufficient to remunerate him for the risk incurred. The banker went to Memphis, and while the country to the rear of that city was still half subjugated, trusting to his familiarity with the people and the fact that he was connected by marriage with some of the first families of Tennessee, he imprudently ventured beyond our lines, and took up his abode with a planter of decided "Union proclivities," and was in a fair way to realize a small fortune by exchanging the gold for the staple. But alas! the banker's visions of wealth were destined to vanish like the mist before the summer's sun. His "Union" friend proved to be in the confidence of Jeff. Thompson's Guerillas, and notified them of the presence of his Northern friend. One fine morning a thieving band of forty cane galloping up the lawn leading to the mansion of the planter—and laid violent hands on Mr. Silverman and his bag of gold. The banker is now studying political economy in the upper story of a cotton factory in Dixie, and his hard earned dollars have gone to swell the coffers of the bogus confederacy in the direction of the tropics.—*Chicago Tribune.*

IRISH-AMERICANS OF MINNESOTA.

At the request of many of your fellow-countrymen, the Executive has kindly permitted the citizens of Minnesota, who are of Irish birth or descent, to organize themselves into a distinct Regiment, and has designated the Eighth Regiment for that purpose.

The time has now come for *action*; and while other classes of our fellow-citizens are rushing to defend their country, let it not be said that we are behind them. Your countrymen of other States have gained for themselves a reputation for gallantry and bravery second to none. Let us share with them the dangers of the field and the duties of a soldier, and prove ourselves equally worthy the thanks and praises of our adopted country. Let us prove ourselves not ungrateful for the many favors which we have received from this Government.

The undersigned has been appointed, by the Commander-in-chief, to visit the different populous counties in the State, for the purpose of hastening the organization of Irish-American companies to fill up the Eighth Regiment, and thereby facilitate its organization. Owing to the brief period that intervenes between this and the 15th, it will be impossible to make other than hasty visits, and he therefore takes this method of requesting the active cooperation of all Irish-Americans in the different counties, in this matter.

Let companies be organized at once. By volunteering before the 15th, persons will receive the bounties offered by the Government, and their respective counties, cities or towns, and at the same time avoid the disgrace of a draft; whereas all those who are drafted will receive but $11 00 per month and no bounty.

All communications addressed to Shakopee will receive prompt attention.

Respectfully your fellow-citizen,

J. L. McDONALD.

ADJUTANT GENERAL'S OFFICE, } ST. PAUL, Min., August 9th, 1862. }

[GENERAL ORDERS NO. TWENTY-THREE.]

The pressing nature of the orders from the War Department, requiring that the militia lists should be prepared with the least possible delay, and in order to secure greater correctness, the County Auditors of the several counties in this State are requested to prepare blank militia lists for the assessors of their several wards and town-ships and to forward them at once to the more distant townships by special messenger.

The State will pay all expenses incurred for that purpose, if the United States should refuse to do so.

The assessors will not, as some suppose, be the judges of who is or is not liable to do military duty; they must take down the names of all white male citizens between the ages of eighteen and forty-five, in the manner directed by general order No. twenty-two.

By order of the Commander-in-Chief.

OSCAR MALMROS,

A War of Extermination Inaugurated.

HUDSON, Mo., Aug. 7.

Col. McNeil's force came up with Porter's guerrillas a few miles northeast of Kirksville, Adair county, yesterday morning and followed him, skirmishing into the town, where a general fight ensued, in which the rebels lost 150 killed, 40 wagons of supplies and ten wagon loads of arms. Porter's forces are scatted.

SPRINGFIELD, Mo., Aug. 7.

At daylight on the morning of the 2d, Col. Lawther, with a band of 125 rebels attacked Capt. Birch's command of 75 Federals at Ozaukee. Capt. Birch having been apprized of the meditated attack, fired and abandoned his tents and withdrew into the brush. Soon after which the enemy rode on to the light of the burning camp and called upon our men to surrender, but Captain Birch replied with a volley of musket balls, when the rebels broke and run. They lost most of their arms and a port folio containing muster rolls and correspondence.

The enemy had two killed and several wounded.

After retreating forty miles from Forsythe on White River, where Birch attacked them at daylight on the morning of the 4th and killed three of them, wounded seven, and captured 25 horses, 20 guns, most of the clothing and saddles of the men, with 200 letters and original authority from the War Department of C. S. A., authorizing Col. Lawther to organize a regiment of partizan rangers for service in Missouri, Kansas, Iowa and Illinois.

Colley, Hughes and Tracey are making strong efforts to get a footing in this State, but the activity of our troops have so far prevented it.

Citizens are being rapidly enrolled in the State Militia. Thirty-five companies already have been organized. Fifteen of which have been armed and are now chasing guerrillas and assisting our troops to maintain quiet.

There is an excited state of feeling, and death to the guerrillas is the motto.

Seven guerrillas were hung in one day by a party of citizens who joined together for a fox chase.

The time for resort to law or watching for Government troops has gone by and loyal citizens are determined to take the matter in their own hands and rid the the country of lawless marauders and guerrillas.

THE LAW AUTHORIZING DRAFTING.

The following are the sections authorizing a draft of the militia, of the law passed by the late Congress, and under which the call for the 300,000 is made:

Be it enacted, &c., That whenever the President of the United States shall call forth the militia of the States, to be employed in the service of the United States, he may specify in his call the period for which such service will be required, not exceeding nine months; and the militia so called shall be mustered in and continue to serve for and during the term so specified unless sooner discharged by command of the President. If by reason of defects in existing laws, or in the execution of them, in the several States or any of them, it shall be found necessary to provide for the enrolling of the militia and otherwise putting this act in execution, the President is authorized in all such cases to make all necessary rules and regulations; and the enrollment of the militia shall in all cases include all the able-bodied male citizens between the ages of eighteen and forty-five, and shall be apportioned among the States according to representative population.

Sec. 2. *And be it further enacted*, That the President be and he is hereby authorized, in addition to the volunteer forces which he is now authorized by law to raise, to accept the services of any number of volunteers not exceeding one hundred thousand, as infantry, for a period of nine months, unless sooner discharged. And every soldier who shall enlist under the provisions of this section shall receive his first month's pay, and also twenty-five dollars bounty, upon the mustering of his company or regiment into the service of the United States. And all provisions of law relating to volunteers enlisted in the service of the United States for three years or during the war, except in relation to bounty, shall be and the same are extended to, and are hereby declared to embrace, the volunteers to be raised under the provisions of this section.

Sec. 4. *And be it further enacted*, That for the purpose of filling up the regiments of infantry now in the United States service, the President be, and he hereby is, authorized to accept the services of volunteers in such numbers as may be presented for that purpose for twelve months, if not sooner discharged. And such volunteers, when mustered into the service, shall be in all respects upon a footing with similar troops in the United States service, except as to service bounty, which shall be fifty dollars, one half of which to be paid upon their joining their regiments, and the other half at the expiration of their enlistment.

PERSONAL.—Hon. E. B. Washburne, during a recent brief visit to New York was serenaded by a party of prominent German citizens who congratulated him on his successful congressional career. The *Evening Post* says:

Mr. Sagisimund Kaufman acted as the spokesman to the party. Mr. Washburne made a few remarks eulogizing the labors of the late congress, which he said it was the fashion of the semi-secessionists to denounce. He demanded a more vigorous prosecution of the war. "I shall take courage and hope," said he, "when I see a general in the field of energy and courage, and whose heart is in this cause, and who is willing to use these black men either as laborers or as soldiers in the way they can be most useful. Then I will take hope. We want less strategy and more fighting. We want to use the bayonet more and the spade less—that is what we want." The speaker denounced England, expressed his confidence in President Lincoln, and concluded with an appeal for increased enlistments.

SHEEP. — D. R. Sherman, of Maple Grove in this county, is now on the way from Michigan with a flock of eight hundred sheep. He will keep upon his farm as many of these as he can, and the rest he will dispose of to his neighbors. A Mr. Roberts from near Anoka is now driving to that place a flock of sixteen hundred, for himself and others. We understand a gentleman who resides at Adrian, Mich., is now on the way to Minneapolis with a flock of eight hundred sheep, which he intends to *let* in small flocks to the farmers of this region. This last project we regard with great favor. It is said, that so great is the demand for sheep in Michigan for driving to Minesota and Iowa, that they have arisen in value $2.00 per head within four weeks.—*State Atlas.*

A MASCULINE GODIVA IN CHICAGO.—On Saturday evening last, several young men of Chicago were bathing in Lake Michigan, when some horses came down to drink. The young men mounted several of them and had a fine frolic. Presently one of the animals became frightened, and set off with his rider at a full gallop, carrying him at a headlong speed through the streets of the city. No persuasion could induce the horse to stop; the young Mazeppa dare not dismount; and many of the citizens of Chicago, who were enjoying the twilight of the front steps and balconies, were startled out of their propriety and composure at the spectacle of a horse, unsaddled and unbridled, ridden by a rider unequarisoned.

THE COLONEL—We see by our Ohio exchanges that our elder brother, anq for years our partner and co-laborer in the line editorial, N. H. Van Vorhes, after an eighteen months campaign with Gen. Mitchell in Dixie Land, has been appointed Colonel of the 92d Ohio regiment. Congratulations, my boy! Go in on your muscle! If you succeed in licking the rebels as well as you did in licking the writer hereof "some twenty years ago," you ought to be happy! Any chance for a good "sit" speaking typographically, on your staff?—*Stillwater Messenger.*

—Gov. Andrews says he is authorized by the war department to announce that the men who enlist in the old regiments will be discharged when the term of service of those regiments expires.

THE WAR IN MISSOURI.

GUERRILLA WORK IN NORTH EAST MISSOURI.

FIGHT AT NEWARK, KNOX CO.

MISSOURI MAY NEED ILLINOIS HELP.

Special dispatch to the Chicago Tribune.

ST. LOUIS, August 5.

The dispatch from Cairo announcing the occupation of Bloomfield, Missouri, by the rebels, is contradicted at Colonel Merrill's office here by a dispatch stating that Colonel Daniels had compelled the guerrillas to skedaddle to Arkansas.

Information from Glasgow places the 150 troops in that place in danger of being gobbled up by 1,000 guerrillas under Poindexter, lately assembled from Boone, Howard, and adjacent counties. If not reinforced, the garrison at Glasgow will undoubtedly refire to this side of the river.

It is reported that a company of Iowa cavalry were lately overpowered at Painsville, Bates county, and compelled to surrender. They were paroled, and released.

The river reporter of the *Democrat* learns from a steamboat captain from Keokuk, that Alexandria, opposite Warsaw, Illinois, was robbed by guerillas on Friday. The next day, Union men went to Keokuk, and distributed their goods to Union victims of guerillas. The *Democrat* this evening has the following account of the fight in Knox county:

From a leading citizen of Edina we gather the particulars of a severe fight, which took place at the town of Newark, Knox county, on Friday evening last. A gang of Porter's men, numbering about 1,000, approached the town about an hour before sunset, and were met at the outskirts of the village, at the crossing of a small creek, by parts of two companies of the State troops, seventy-five men in all, under command of Capt. Lair, who had been stationed at the post of Newark for some days. The fight began at once, the guerillas charging on the Missouri troops, but without being able to break their lines. Finally the guerillas dismounted and pushed the State troops back into the town, where an irregular skirmish took place, the troops firing from behind houses and fences.

As dark approached, Captain Lair, seeing that his case was hopeless, and that he must be overpowered by superior numbers, sent to Porter a flag of truce, with offers of capitulation. These were at once accepted, the militia gave up their arms ane camp equipments, and were immediately released on parole. Captain Lair's loss is four killed and four wounded. The rebel loss, according to their own account, was seventy-three killed and a large number wounded. They left ten killed on the field. The day after the fight, on Sunday, the State troops, under Colonels Guitar and McNeil, Major Clapper and others, passed through Nawark in rapid pursuit of the guerrillas. Our informant says it is great folly to fight Porter, as our men are now doing. We can never catch him ar do hin any serious harm, so long as our force are encumbered with heavy baggage trains. He says we must live on the seceesh as Porter does on the Union men, and then by raid movements and bushwhacking fighting we shall be able to do something.

ST. LOUIS, Aug. 4.—A gentlemen who came down from St. Joseph via the Hannibal and St. Joseph and North Missouri Railroads, says that on Saturday Poindexter, with 4,000 men was at Renick. What his designs were no one knew, but it was thought that he was gathering recruits and preparing to co-operate with Porter. Porter's force was moving north, and it was feared that he would make an attack on Hudson.

Guerrillas are being organized in many parts of North Missouri, and there is reason to believe that the forces of Porter, Cobb and Poindexter are being largely increased.

Silly rumors were afloat in the city today that a large force of rebels were approaching St. Louis. The Judge of the Law Commissioners' Court got frightened and adjourned his court.

If our State forces are not sufficient to put down the guerrillas, Gen. Schofield will ask the governor of the State of Illinois to call out men for thirty days for service in Missouri.

Order No. 23, known as the ten dollar order, has been revoked, and a new one issued again, directing the enrollment of all loyal citizens into companies. Secessionists or sympathizers are not required or permitted to enter the militia. They are required, however, to deliver up their arms to the nearest military post.

The rebel band which robbed the town of Canton was accompanied off by ex-Senator James S. Green. He had returned the day before from Washington. While in Washington he had quarreled with Hon. John E. Bouligny, of New Orleans, and he was cased by Bouligny.

Private advices from Washington represent Gen. Hitchkock's health is so poor that he will resign his commision in the army.

It is believed here in intelligent quarters that the administration will assign Cassius M. Clay, daily expected home from Russia, to the command of the department of the West. Others think that Quartermaster Meigs will be assigned to the field.

The Kentucky Policy.

The Kentucky policy has recently gathered sharpness and point by the very dangers that impend over Kentucky. A single month may see her swept and devastated by guerrillas, or she may be securely walled by the bayonets of freeman. The latter she will accept now, though once she refused such aid. The time may come when she will be willing to enjoy peace and see the marauders held back by bayonets in the hands of every loyal man, whether his skin is white, brown or yellow. It will not be long to wait before, in the resistless logic of this war, even the Kentucky policy may accept the blacks as good enough allies in the work of saving the Union. They were certainly allies good enough and gladly accepted in the day that saw the Union founded.

Strategy vs. "a Nigger."

By the way, he tells the strange story that at the close of our famous change of base, when we were within four miles of James river, the rebels thirty thousand strong, had penetrated the road ahead of our army, and lay there, expecting our advance. An engineer officer, riding ahead of the column, was informed of the fact by a negro from a neighboring plantation, who also showed him an old road by which the army could avoid the rebel position, and strike the river a little lower down. The army took the negroe's road and reached the river in safety! If true, is it not strange that that magnificent army should owe its preservation—not to strategy, but a "nigger?"—*Cor. Cin. Gazette.*

Shakespeare on the Military Situation.

Is there any conceivable situation of human affairs, whether belonging to public or private life, which Shakespeare has not described? How apt to our times, and to the recent debatings in Congress and the press, in the following extract from the first act of the first part of his "King Henry VI:"

Messenger.—My honorable lords, health to you all!
Sad tidings bring I to you out of France,
Of loss, of slaughter, and discomfiture,
Guienne, Champaigne, Rheims, Orleans,
Paris, Guysors, Poictiers, are all quite lost.

* * * *

Duke of Exeter.—How were they lost? What treachery was used?

Messenger.—No treachery; but want of men and money.
Among the soldiers this is muttered,—
That here you maintain several factions;
And, whilst a field should be disputed and fought,
You are disputing of your generals.
One would have ling'ring wars, with little cost;
Another would fly swift, but wanteth wings;
A third man thinks, without expense at all,
By guileful fair words peace may be obtained.
Awake, awake, English nobility!
Let not sloth dim your honors, new begot:
Cropp'd are the flower-de-luces in your arms:
Of England's coat one-half is cut away.

The Freed Men of South Carolina.

If it were not for the all-absorbing interest of the war, the problem which the black freedmen of Port Royal are working out, and regarding which the official reports and newspaper correspondence keeps us well informed, would receive the attention it deserves as one of the most interesting and important in the whole range of ethnologic and social inquiry.

Probably the only men who will not be greatly surprised at the capacities for voluntary labor developed by the free blacks at Port Royal, and the respectable amount of mental and moral faculty they display, are the Southern slaveholders. *They* never believed the gammon they have contrived to circulate for the last quarter of a century, as to the brute lazyness, bestiality, incapacity and hopeless degradation of the hapless inheritors of the "curse of Canaan." But it has been a profitable gospel to preach, and hence they have done their best to make it an article of popular faith, and to give it the force of a scientific theory. And if there ever was a melancholy spectacle, it is that of science prostituted to the base uses to which it has been put by the pro-slavery school of *savans.*

Contemptible though the calumnies are which the Southern aristocrats and their ethnologic prophets have heaped on the black bondsmen, these calumnies have not failed largely to impregnate Northern opinion; and probably there never was any subject coming within the range of common experience on which current opinion was so largely made up of the barest fallacies and falsehoods as that respecting the nature and capacities of the negro race. And hence it is that the reports of the experiment at Port Royal will come to many with all the force of a new revelation. It will be something new tot hem to learn that the freed blacks—and even their white teachers were surprised—are as industrious, and more so, and do as much work and more in the condition of freeman, and under a judicious system of day wages, than they formerly did under the stimulus of the lash; that they take readily and shrewdly to trade; that they have the stuff in them of good soldiers; that they show no inconsiderable intellectual aptitudes; and that, though their manhood is blotted and blurred by lifelong bondage, they yet respond to the same motives and aspirations which affect other men. These facts, now fully demonstrated, will be new only to the people of the North—they have always been perfectly well understood at the South. The experiment at Port Royal, which has developed them, is not only interesting in an abstract sense, but it has vast practical bearings, and the future of American slavery is largely bound up with the trial now being made in the Sea Island region of the South Carolina coast.

We do not entertain any very ideal notions of the negro race; but we trust we are equally free from that low, gross materialism that would shut down a brazen firmament around any, the most degraded, that share our common humanity, or that can look without hope and sympathy to their hard struggles toward light and life.

Responses of the Press to the order for Draft.

From the Chicago Tribune 5th.

The call from the war department rings like a clarion. This time there is no uncertain sound. The power of the Government is to be demonstrated by the celerity with which it will summon these immense levies of new troops; even as the loyalty of the people was attested in the rapidity with which new volunteer armies a year ago took the field. The one is a complement of the other, and both the joint elements of the stability of our Government, power to command, readiness to obey.

Six hundred thousand men! what joy it will carry through the lines of our army to know that in ten days time their shattered regiments are to be filled up, that our fighting force is to be more than ONE MILLION strong, with another million ready to follow, if need be. The war has begun in earnest, and henceforth the enemies of the country will not be spared nor sheltered. *Here* they must aid the Government, *there* they must yield or be crushed. There is to be no more playing war, and from this clash of arms will come forth Peace under Liberty.

From South Carolina.

HILTON HEAD, S. C., July 26.—A correspondent of the New York *Tribune* writing from the above place says all remains quiet. General Wright and command will in all probability go to Fortress Monroe. The negro regiment is not at all popular here. The colored men—as well behaved fellows as could be wished—were jeered at, insulted, and sometimes struck while on their way to their daily labor at the wharf, until General Hunter directed that no details from the First South Carolina Volunteers should be made for that purpose, but that gangs of men from the regiments who had abused them should take their place. *Now* there is a howl raised about "a nigger being of more account than a white man." Gen. Hunter is a perfect trump.

Ex-Mayor Barker of Pittsburgh Killed.

A shocking accident occurred on the Pittsburgh, Fort Wayne and Chicago railroad Saturday evening, a short distance below Manchester, which resulted in the death of ex-Mayor Barker of Pittsburgh. John McDonald, a gardner, was also fatally injured, it is feared. Mayor Barker had been to Middletown addressing a war meeting, and was coming up the railroad track with others, when, confused by two passing trains he was knocked down by one of the locomatives and had his head entirely severed from his body. McDonald had a leg broken and was injured about the head.

MR. EDITOR:—Having been an attentive listener at the late meetings held at the capitol, I beg leave to make the following proposition: It is known to many of our citizens that I have been engaged in recruiting for a company, and it may not be out of place to say that I have spent both time and money. Many of us some months since said, that when Government actually needed us we would go. In my humble opinion, that time has now arrived. I propose to be one of twenty (to sign papers) to meet at the City Hall, on Wednesday, August 6th, and march to Fort Snelling and swear in as high privates. GENERAL ORDERS—NO. 26.

HEADQUARTERS ARMY OF THE OHIO, IN CAMP, NEAR FLORENCE, ALA., June 24, 1862.

There are [illegible] officers and soldiers absent from their duty with the various Divisions of this army. Some of them have gone off without any authority; others with the permission of officers not authorized to grant it. In general, sickness is given as the cause of absence, but in very many cases the cause has not entirely ceased to exist, and men remain away, drawing the same pay as their comrades who are faithfully performing their duty. To correct this abuse it is ordered—

1. All officers and soldiers who are absent without proper authority from these Headquarters, the period for which has not transpired, will, on or before the 10th

Extract from Third Annual Report of the Superintendent of the Insurance Department of the State of New York. WM. BARNES,
Superintendent.

There are now ninety-five joint stock fire insurance companies incorporated by the State of New York, engaged in the transaction of business; of these companies fourteen only received premiums during the last year, amounting to over one hundred thousand dollars; four only received premiums above the sum of two hundred thousand dollars, and the premium income of one only exceeds three hundred thousand dollars. The premium receipts of this Company, the HOME, with a capital of $1,000,000, were $878,963.35. The premium income of thirty of the smaller companies was $881,358.87 only, with capitals, however, amounting in the aggregate to the sum of $4,900,-000.

The state of things should be improved; the premium income of the mass of our fire insurance companies is by far too small for their capitals, and inadequate to the proper support of a separate and independent corporation. The experience of the HOME, PHOENIX, (of Brooklyn) and some other companies, has demonstrated that, with proper skill, tact and sagacity, business can be increased and managed to an indefinite extent, with entire safety, and even additional security to the company. We have now the machinery and organization in working order for nearly one hundred joint stock fire insurance companies, in the course of a few years their business can be safely doubled, and even quadrupled, without doubling or quadrupling the yearly expenses. Any considerable expansion of business must of course be mainly effected through the instrumentality of reliable, safe, and well managed agencies. The premium income of the HOME amounts to nearly one-eighth part that of the ninety-five companies combined, so that eight corporations like the HOME could conduct the entire business of all these companies. If each company transacted the same amount of business as the HOME the aggregate premium income would reach the enormous amount of over seventy-eight millions of dollars per year. Our companies are not too numerous for the great future of this country, if managed on the progressive scale demanded by the spirit of the American people.

The annual statement of this our foremost local fire and inland company, made up to the first of January last, shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, President, A. F. Wilmarth, Vice President, and John Meiree, Secretary, those well accredited officers very justly say: "The well-known reputation of the HOME for fair and honorable dealing, together with its capital of one million dollars, and surplus of over half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our State, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the first of January last summed up to $1,521,265.08, against an actual liability of only $55,989.43; and, moreover, it is worth nothing that the assets are all of the very first class. The balance in bank in cash was $124,434.44, very nearly enough to set up an ordinary company; bonds and mortgages $910,220.54, secured on real estate worth $1,535,000, and then government and other stocks, equivalent to cash and convertible into cash any day, $220,626. Any one not satisfied with the security of the HOME as an insurance institution, must be hard to please.

In 1861 the HOME wrote $1065,715.18, taking $839.95 premium, and paid losses $253,775, including some losses for the year 1860. A dividend of ten per cent. was paid on the million capital; and after reserving an ample reinsurance fund, the company closes with a "profit surplus" of $160,611 clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

MILLS,

SITUATED ON PHALON'S CREEK, WHERE THE STILLWATER ROAD CROSSES.

This Mill is just completed, and is in good running order. Our machinery embraces all the latest improvements, and was got up in the East, without regard to expense. It has two run of Burrs, which will be kept running night and day, so that farmers coming from a distance can be accommodated without much delay.
The need of a first class Mill of this kind has long been felt by the citizens of St. Paul and vicinity. We have secured the services of James Craigie, who has made milling the business of his life, and in whom we can place entire confidence.
All kinds of grain will be weighed when brought to the Mill, and also when taken away, if desired. We feel confident in saying to the public that we can make as good Flour and as great a yield to the bushel as any Mill in Minnesota, and respectfully solicit a fair trial.
Also a new Mill for grinding corn in the ear.
☞ All work done at this Mill is warranted.

LA CROSSE AND ST. PAUL

PACKET COMPANY.

SUMMER ARRANGEMENT

During the summer of 1862, till the close of navigation, the LaCrosse and St. Paul Packet Company, having completely equipped their Line and made large additions to their business facilities, will offer to shippers and passengers on the river greater inducements and conveniences, and QUICKER TIME, than was ever offered by any company on the river.

All the boats on the Chippewa, Minnesota, St. Croix and the upper Mississippi rivers, and the different lines of stages north of LaCrosse, will, the coming season run to connect with the Davidson boats and the LaCrosse and Milwaukee Railroad.

The LaCrosse and St. Paul Packet Company will run a

PASSENGER AND FREIGHT LINE.

The former will number two first class boats—the nicest and fastest on the river. They will be the McCLELLAN and NORTHERN BELLE.—The first will be the Lightning Line, making the run from La Crosse to St. Paul in ELEVEN HOURS, and returning will leave here in the morning, and arrive at La Crosse in twelve hours time to connect with the evening train, by which our passengers will make close connection and reach Milwaukee in time for cars, or boats on the Lake in TWENTY HOURS FROM ST. PAUL, and reach Chicago next morning, by Minnesota Junction or Milwaukee. In just TWENTY-FOUR HOURS FROM LEAVING ST. PAUL, and in time for close connection East! This will be by twelve hours the quickest time between these three cities ever made! Nothing but passengers, the mails, express matter, and express goods will be carried on these boats, which will be furnished in the best of style. Passengers will then have daylight to view the grand beauties of the river, and good sleeping cars from La Crosse to Chicago—a great item. Arrangements have also been perfected so that all the boats on the upper rivers and all the stage lines will run in close connection.

The other line will number three regular boats; the Keokuk, G. H. Wilson and Wenona, one of which will leave La Crosse daily on the arrival of the morning train from the East, connecting at all points North, and will also make close conn

THE CITY.

Hon. H. M. Rice arrived yesterday on the War Eagle.

Liberal.—Mr. Long, of the Winslow House, yesterday contributed $50 toward a bounty fund for Lieut. Gilfillan's company in the Seventh Regiment.

A Grand Patriotic Donation.—Major W. J. Cullen gives ten dollars each to the first ten men that will enlist in the Minnesota Grenadiers, 6th Regiment.
E. E. HUGHSON.

There will be preaching at Fletcher's Hall, (Congregational Church) Minneapolis, Sabbath morning, at half past ten o'clock, by Rev. O. A. Burgess, from Illinois.

"Watchman, what of the Night!"—Rev. Mr. Hawley will preach Sabbath morning next at the Plymouth Church, on the Nation's Duty, and Prospect, in the present Crisis. Citizens and strangers are invited.

Bounty $70.—Lieut. Gilfillan is offering an extra bounty of $30 to recruits for his company, which, with the Government bounty, makes a bounty of $70 per man.

So is Major Dayton of the Minnesota Grenadiers, Sixth Regiment.

Work for our Tailors.—Quartermaster Saunders received a dispatch yesterday inquiring whether the clothing for the new regiments recently levied could be made here if the cloth was furnished. The reply was that it could be—therefore we may expect soon to see every man and woman tailor, and every sewing machine employed in town.

Bounty.—A notice in our columns from Mr. William R. Carver, of the firm of Cooley, Tower & Co., on Jackson street, contains a most liberal bounty to the heads of five families who will enlist in either of the companies going to the war from this town.

Rev. Dr. Van Ingen, Chaplain of one of the New York regiments, returned to St. Paul yesterday morning. He requests us to say to persons having business with him, that he will be found at the Mission House to-day. He returns on Monday.

Rush Medical College.—We direct attention to the advertisement of the above named Institution located at Chicago, to be found in another column. Its 20th regular session will commence on the 1st of October, and continue sixteen weeks. Arrangements are being perfected which will make its clinical advantages superior to any former session. The City Hospital and College Dispensary are both under the medical charge of the Institution.

Shoes at a Sacrifice.—Eg. Hughson is selling out his large stock of boots and shoes at a tremendous sacrifice. Having enlisted for the war, he *must* close up his business in the next ten days, and therefore offers his entire stock at prices that under other circumstances would be considered ruinous. Call on him by all means, and you will get great bargains.

Remarkable Cure.—A lad from Hudson, Wisconsin, who has been blind for the last two years, called on us yesterday to testify to his almost miraculous cure by Dr. Underwood of this city. Up to ten days ago he was so blind as only to be able to distinguish light from darkness, but under a few days treatment by the Doctor he appears to be perfectly cured.

River Items.—The War Eagle, Wenona, Clara Hine and Antelope are the arrivals since our last report.

The Northern Belle is the down boat this morning from Hastings for La Crosse in connection with the Wenona, and the Northern Light is the down boat this evening for Dunleith.

Henry Esch, a veteran soldier recently in the Prussian service, has been authorized by the Adjutant General to recruit for the Seventh Regiment in the counties of Wabashaw and Olmsted. He will visit every town in those counties for the purpose of expediting enlistments. Persons wishing to go in that regiment will find this a desirable opportunity as he offers liberal bounties.

Young Men's Guards.—At the meeting the other night, an amendment to the constitution was adopted, containing in substance, a pledge of honor to be mustered into the service or the United States, all as *privates*, when forty-one names were enrolled to have commissioned and non-commissioned officers designated by the company, and all to allot their pay to a company fund, to be equally divided among officers and privates.

Armory Hall will be opened during this day and evening for drilling and receiving recruits.

Drafting.—The subject of the coming draft is the all-absorbing topic of conversation on the streets. An idea is getting quite prevalent, based partially on official declarations, that there will be no substitutes allowed for a drafted man. Whether this is so or not, it seems sufficiently probable to excite discussion. Again, after the 15th, no able-bodied man can leave the State without rendering himself liable to arrest as a deserter; and it will be the duty of all Mayors, Sheriffs, Marshals, Chiefs of Police, Magistrates, &c., to make such arrests, in case of an attempt being made thus to evade the conscription. These points, though not clearly settled in the public mind, must have a powerful tendency to stimulate voluntary enlistments, when men have the opportunity left of choosing what company they wish to serve in.

Hutchinson Family.—The other branch of this world-renowned family, that is to say John W. Hutchinson and Company, are in the State, and will sing in Shakopee on the 13th, St. Paul 14th, Minneapolis 15th, St. Cloud 16th and Monticello on the 18th of the present month. This is the same company that sung among the camps near Washington.

Mr. W. V. Turnstall lectured in Henderson on Monday evening, on "Secession," showing himself, as our correspondent relates, well posted up in the subject. Though a Southerner by birth and long residence, he is a warm-hearted Union man. He is expected to lecture in this city shortly.

The Emmett Guards.—Judge R. F. Crowell of this city, and George McKenzie of Stillwater have started out to raise company for the Seventh Regiment. A bounty of a lot in Superior City has generously been donated to every recruit of this company by Capt. Abram Emmett, a soldier of the war of 1812. Recruits will be received at Judge Crowell's office and at the Minnesota House. Mr. McKenzie will recruit at Stillwater.

Anoka Awake.—Judge Cooper addressed a war meeting at Anoka Thursday evening. Fourteen hundred dollars bounty was subscribed, and thirteen recruits enlisted, and twenty more pledged to join.

War Meeting in Wright County.—A call has been made for a war meeting at Monticello next Tuesday at ten o'clock, to encourage volunteering. It is thought that Wright county, which has done so nobly for all the earlier regiments, will raise a full company with the help of her patriotic neighbor, Sherburne county, which has offered the most liberal bounty yet made by any county.

Let the meeting be well attended. Speakers are expected from abroad.

The war spirit continues with unabated excitement. Two meetings were held last evening to encourage enlistments in the regiments about being formed. The Young Men's meeting at Armory Hall was well attended, and a number of names were enrolled. The Irish meeting at Market Hall was crowded. Patriotic speeches were made by Messrs. O'Conner, McDonald, Shanley, Pendergast, Sullivan, Flood and Col. Robertson, and the muster roll was being numerously signed when the meeting adjourned.

The muster roll of the Young Men's Guard had reached thirty last night.

State of Minnesota—Supreme Court.

John M. Gaetner, appelant, vs. Jacob G. Guenther, respondent.

In an action between adverse claimants brought under the provisions of the act prescribing rules and regulations for the execution of the trust arising under the act of Congress, relating to the entry of town sites, the Supreme Court is required upon appeal, to review and pass upon questions of fact as well as of law, and must examine the evidence and determine for themselves what facts are established.

The defendant in such an action cannot deny the title of the plaintiff, except upon the terms of setting up a valid title in himself.

When the occupants of a town site have made proper application to have the lands entered for their use and benefit, and have shown by proofs adjudged to be sufficient that they have performed the conditions necessary to entitle them to have the lands so entered, their right to the land is perfected; and no person can thereafter by mere settlement and improvement, acquire a right under the law to any portion of said town site, as against said occupants.

Where upon an appeal from the decision of the register and receiver, and of the commissioner of the General Land Office, the Secretary of the Interior decided that the application to enter a town site should have been allowed; and directed the local office to permit the entry to be made, in accordance with such application and decision, the local or other land officers cannot, by requiring or permitting the lands to be entered upon a new application, or upon new or additional proofs, or by a person or officer other than the one who made the application upon which such decision was rendered, impair the rights of the occupants to the full benefit of the decision made in their favor.

If after the judge of the proper county has made an application to enter a town site, his term of office expires before a final decision allowing such entry, and his successor is permitted to make the entry in accordance with such application and decision, the lands will be held by the latter upon the same trust as though they had been entered by the officer who made the original application.

The decision of the Secretary of the Interior, of Dec. 18, 1857, in favor of the entry of the town site of Mankato, was rendered upon the application of Judge Chatfield and upon proofs thereon submitted by the occupants on the 21st of March, 1856, and the entry thereof on the 6th of March, 1858, though made by Judge Flandrau, was for the purpose of carrying into effect the decision in favor of Judge Chatfield's application, and was allowed and approved upon the proofs previously, on the 21st of March, 1856, submitted, and not upon proofs offered, at the instance of the register and receiver, at the time of such entry.

Peter Voss, Appellant, vs Frederick Freudenrich et al, Respondent.

A complaint setting forth that the plaintiff had executed, acknowledged and delivered to the obligee a bond conditioned for the conveyance of certain real estate therein specified, upon being paid a certain amount of money; that said bond had been duly recorded; that default had been made by the obligee in making payment according to the terms of the contract, and tendering the deed in court and asking that the defendant be required to pay the balance due and accept the deed at or before a time certain to be fixed by the court, or in default thereof, that the bond be delivered up to be cancelled, and the defendant thereafter be barred of all right title and interest in and to the premises, states a good cause of action.

An answer to such complaint, admitting the default, and stating that the property at the time of the purchase was worth the agreed price, but had since greatly depreciated in value; that the defendant was desirous of redeeming the property and paying the amount due, but that by reason of the great depreciation of the value of said property, and the great difficulty that exists in raising moneys and securities in this State, and by reason of the stringency of the times since the payment became due, he could not at this time, nor within a short time raise sufficient moneys to pay off the balance due; and that if an early day is fixed for the foreclosure of his equity of redemption in said property, it will be impossible for him to make such redemption, and he will wholly lose the property, constitutes no defense to the action.

In considering the relief to which the plaintiff is entitled, regard may properly be had to the amount agreed to be paid by the defendant for the land which he contracted to purchase, the amount which he has actually paid, and the time which has elapsed since forfeiture. When the amount of the purchase money is considerable, and the defendant has paid the larger portion of the same, it is equitable that he should have more time granted to save an entire [loss] of the land or sum paid, than where he has advanced but a small part of the agreed price.

A. McELRATH, Deputy Clerk.

General Headquarters, State of Minnesota.

Adjutant General's Office, St. Paul, Minn., August 8th, 1862.

[General orders no. twenty-one.]

Patriotic citizens of Irish birth, from different parts of the State, having represented that citizens of that class would immediately volunteer en masse, in case an opportunity was given them to form a separate organization, and the nation needing at this time the services of all its citizens: It is hereby ordered that J. C. McDonald, of Shakopee, Scott County, be and he is hereby authorized to recruit for a new regiment of Infantry, composed of citizens of Irish birth or descent and to be designated as the 8th Minnesota Regiment.

The said Regiment must be filled on or before the 18th inst., unless upon the request of the State Government, further time be obtained from the War Department.

To encourage enlistments in said Regiment, furloughs will be granted until the 17th inst., or for such longer period as the War Department may permit.

Should the Regiment be organized within the time above specified or within the additional time granted by the War Department, the choice of the line and field officers of the Regiment and of the chaplain of the same will be left exclusively with the Regiment.

A call for an 8th Regiment to be composed as aforesaid will be made as soon as five persons shall have reported with not less than fifteen recruits each for said Regiment at Fort Snelling, the place of general rendezvous, and all inducements offered to the 6th and 7th Regiments will be extended to this organization.

By order of the Commander-in-Chief.

Pursuant to instructions from the War Department, the township assessors of the several townships, and the assessors of the several wards of the several cities, in preparing a list of persons between the ages of eighteen and forty-five years, liable to do militia duty, will not only take the names of such persons, but also state their ages and occupation, whether native or foreign born citizens, and if the latter, whether naturalized or whether they have simply declared their intention to become citizens. They will also state, under the head of general remarks, any apparent defect of the person enrolled, such as deafness, blindness, loss of speech, etc.

Such assessors as may have already, either partly or entirely completed their lists, will correct the same according to these instructions, and will receive a reasonable compensation from the U. S. for extra duties imposed upon them under this order.

County Auditors will see that the assessors prepare their militia lists without delay, and will, if any assessor or assessors in their respective counties fail to prepare said lists, immediately inform the office of the name of such assessor or assessors.

They have the REVERSIBLE FEED MOTION, which enables the operator to have the work carry either way, or to change the direction, and fasten the end of seams, which, together with making a long and a short stitch, is done simply by turning a thumb screw.

Their motions are all positive. There are no springs to get out of order. They are so simple that the most inexperienced can work them perfectly and with ease. They are NOISELESS, and can be used where quiet is necessary.

They are the FASTEST SEWERS in the WORLD, making five stitches to each revolution. They oil no dresses. Their stitch is the wonder of all, because of its combined ELASTICITY, STRENGTH and BEAUTY.

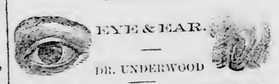
REMOVED.



DR. UNDERWOOD

Of Chicago, Ill., the eminent and skilful operator on the Eye and Ear, whose name and fame is so extensively known throughout the United States, for his science, skill and success in performing formidable operations, and in removing difficult and dangerous diseases from those delicate organs, has arrived in St. Paul and may be consulted in INGERSOLL'S BLOCK for a short time only.

Dr. U., who is a regular Physician and Surgeon of the old school, has had an extensive experience in both hospital and private practice of twenty-eight years, and will be found competent to perform any operation necessary to restore to perfect sight or hearing, or by other mild and gentle means to remove any disease from those delicate organs within the reach of science and human skill.

CHRONIC DISEASES, of every grade and character, whether requiring medical or surgical treatment, POSITIVELY and PERMANENTLY CURED, when not clearly beyond the reach of science and human skill.

Dr. Underwood treats all diseases on regular and scientific principles as recognized by the medical profession both in Europe and America, and hence does not use or deal in those pretended new and never failing remedies—specifics, inhaling vapors, and clairvoyant prescriptions—which are so ostentatiously paraded before the public by those impudent traveling quacks and money-fleecing empirics, nine-tenths of whom never were inside of a medical college. Patients afflicted or laboring under diseases of long standing, can consult Dr. U. with the most confident hope and expectation of being perfectly cured, or receiving with unerring certainty all the relief that the highest skill, the most judicious and scientific treatment can possibly bestow.

The Republicans of the First Congressional District of the State of Minnesota, *and all others* who are in favor of the vigorous prosecution of the war, and of upholding the Executive in all acts looking to the immediate suppression of the rebellion, are requested to meet in Delegate Convention, at Owatonna, in Steele county, on Wednesday, the 20th day of August next, at 12 o'clock M., for the purpose of nominating a Candidate for Representative in Congress from said First District.

THE NEWS.

There are rumors of fighting at Gordonsville, but nothing certain.

Important movements are taking place on the South side of the James River, but not disclosed.

The rebel War Department threatens to hang Pope—catching comes before hanging.

Louis Napoleon is impatient for intervention, or else the London *Times* lies—probably the latter.

MARTIAL LAW.

By the order of the Secretary of War published this morning, the whole country is practically placed under martial law. This does not startle the people. They welcome it—anything, everything that adds to the efficiency of the means for prosecuting the war to a speedy and successful issue.

No people on earth were ever more thoroughly devoted to their Government. Let the Government equally confide in the people.

EXCHANGE OF THE MINNESOTA THIRD.

We publish elsewhere a petition from the first Sergeants, representing the Third regiment, to Gov. Ramsey, asking to be sent home until exchanged.

The following dispatch of Adjutant-Gen. Malmros indicates the action taken in the matter:

(COPY OF DISPATCH TO SECRETARY OF WAR.)

ST. PAUL, Minn., Aug. 9, 1862.

To the Secretary of War, Washington:

I would urge upon you the propriety of exchanging, as soon as possible, the Third Minnesota regiment, now under parole at Jefferson Barracks, St. Louis. The regiment is thoroughly drilled, well seasoned, anxious to redeem its honor, and worth two or three new regiments. Can it not be exchanged at once and put into the field? Answer.

(Signed,) OSCAR MALMROS,
Adjutant-General.

MASS MEETING AT INGERSOLL'S HALL, MONDAY NIGHT AT EIGHT O'CLOCK.

There will be a mass meeting of the citizens of St. Paul and Ramsey county, at Ingersoll's Hall, on Monday evening, August 11th, at 8 o'clock, for the purpose of adopting measures to raise a fund for the support of the families of volunteers.

There will be stirring speeches, among others from Rev. Mr. Tunstall, of Louisiana

Let there be a grand rally.

Quota of Drafted Men and Volunteers to be furnished by each County.

The War Department has fixed the quota of Minnesota under the last call for a draft of 300,000 militia, at 2,680 men, and an equal number under the call for 300,000 volunteers, or 5,360 men in all, as the quota of this State under both requisitions.

The Commissioner of Statistics has furnished us with the following table, showing the quota of each county under each of the above calls, on the basis of the census of 1860.

The number of men given are to be drafted from the militia of each county, to serve nine months, and the county must also furnish an equal number of volunteers to serve three years or during the war, and failing in this, the number wanting to complete the quota of volunteers will also be drafted:

THE PIONEER'S POSITION

IT SUPPORTS GOVERNOR DONNELLY.

Our inquiry on behalf of the public, as to which of the Congressional candidates—Governor Donnelly or Major Cullen—the *Pioneer* would eventually support, is answered by that journal, first, by a long ratiocination, which it supposes would inevitably have answered the question, and secondly, as if conscious that its logical formula was defective and uncertain, it proceeds to state that its influence will be given to Governor Donnelly the only loyal candidate.

All this is done with a degree of acerbity quite uncalled for by the character and tone of our enquiry.

We certainly endeavored to make the inquiry courteously, and justified it by citing the fact that the *Pioneer* had praised one platform and the other candidate—preserving unbroken silence in regard to the candidate who stood on the platform it commended. Now, the *Pioneer* thinks that its support of a candidate necessarily follows approval of his platform, and is outraged that we should conceive the possibility of anything different. Its memory is very bad, if it needs to be reminded of illustrious examples of journals spitting upon platforms—to use the expressive term of the New York *Tribune* in the Scott canvass in 1852—yet supporting the candidate. Strangely, the *Pioneer* refers to a most striking example in its own history. It claims to have supported Mr. Lincoln towards the close of the canvass of 1860; and did it not do so still adhering warmly to the non-intervention platform of Douglas?

We have no disposition to disenss any issues upon the *Pioneer's* past consistency, and would respectfully suggest to that journal the expediency, for its own sake, of not raising any. We have welcomed its support of a loyal platform, and now most cordially welcome its declaration in favor of Governor Donnelly, the loyal candidate on that platform. It has been the habit of that paper, in accordance the universal custom, to place the name of the candidate it supports at the head of its columns. Having now announced its preference, we shall expect to see it place Governor Donnelly's name there.

MAJOR CULLEN'S CHALLENGE.

In our paper a day or two ago we published as a good joke a report of a conversation, in which Major Cullen proposed to Governor Donnelly that they both give up canvassing for Congress, and enter the army: and Governor D. replied that he would willingly enter into an agreement that whichever one of them was defeated should at once enlist. We gave it as a piece of street gossip and harmless badinage which might amuse our readers. Major Cullen, more sensative than wise, took offense thereat, and sent us a communication not respectful in its tone and language. No man has a right to ask a journal to publish anything insulting to its editors, and such we regarded the manuscript submitted to us. We indicated a willingness to publish it, if modified in this particular, which would not have affected its point or force in any other respect.

Something similar to this communication appears in yesterday's *Pioneer*, and in it, Major Cullen reiterates his former challenge, and apparently with actuals erinousness proposes to Governor Donnelly that they both enlist at once in the same company.

The absurdity of this thing is refreshing. We did not think Major Cullen could get off anything so utterly ridiculous.

What has become of that boast made by the Major, when he accepted the nomination for Dr. Massey's Convention, that he "would either go to Congress or go back to the blacksmith shop," implying that he would spend all he had to succeed?

What will become of the large sums which it is said he has already squandered and those which it is said he intends to squander?

Why this driving around, sweltering in the hot sun, day after day, electioneering, if the sole purpose of the Major's patriotic heart is to get into the army?

The way is clear; recruiting offices are numerous; a man can be mustered in *without being a candidate for Congress*. The Major has taken a long way around to go a short distance. It is said that an imbecile Chinaman once burned his house for the purpose of roasting a pig for dinner; but an instance was never before heard of where a sane individual received the nomination of a convention for Congress for the purpose of entering as a recruit in the volunteer service.

The whole thing is a piece of bald-faced buncombe, transparently absurd.

Congressmen are a part of the machinery of government. When a Convention, representing a respectable portion of the people, nominate a gentleman, they have a right to expect that he will act in good faith and abide the decision of the people at the polls. Should he for any reason feel that he can not do so, he should at once resign, and allow a new convention to be called to nominate a new candidate. The idea of two candidates going into the ranks with no certainty whatever that the successful one would be discharged, when elected, would be an act of bad faith to those who nominated them, and might work serious injury to the interests of the people of the District, who might thereby be left without a representative at a critical period.

Such a proposition might do to amuse the boys of the town, who would, no doubt, be immensely tickled to see two fat gentlemen walking off, musket on shoulder, to the wars, but it is certainly beneath the dignity of a man who aspires to the honors of a position in Congress. The proposition made by Gov. Donnelly, was much more reasonable and fair, that is to say, that the *defeated* candidate, whoever he might might be, should enter the ranks, and leave the successful one to take his seat in the House of Representatives. Thus both would serve the the nation,—one in the field, the other in the Legislative Hall, and no man doubts that good men to-day are as much needed in Congress as in the army.

THE PRESIDENT'S DECISION AGAINST ARMING NEGROES.

We utterly fail to appriciate the force of the President's objections to accept the help in this war of loyal men, on account of color. We have been, and are, without qualification, in favor of using every loyal arm, white or black, bond or free, that can help crush the rebellion. Farther, we are confident that the President will in the end adopt the policy. We deeply regret that he awaits a more urgent necessity for its adoption.

THE TESTIMONY OF A POLITICAL OPPONENT.

The Mankato *Record* thus magnanimously notices our nominee:

The Republicans in the Northern district of this State have nominated Lieut. Governor Donnelly, for Congress. This is an excellent selection, and the Northern district is certain of a good representative, in the success of either of the candidates.

CHAPLAIN FISKE'S SERMON.

The Chicago *Tribune* publishes Chaplain Fiske's sermon. We are glad to notice that that part of the discourse which admonishes us not to "shrink from the wails of suffering infancy, age, and womanhood," is suppressed in the *Tribune*.

Petition of the Third Minnesota Regiment.

To Alexander Ramsey, Governor of Minnesota:

The non-commissioned officers and privates of the Third regiment, Minnesota volunteers, taken prisoners of war at Murfreesboro, Tennesee, July 13th, and now on parole at Benton Barracks, an unhealthy locality, many of us unfit for duty, a burden to the government, away from our families, shut up where disease is preying upon both body and mind, unite in petitioning you, the highly respected Governor of our State, to use the utmost of your influence in securing for us the privilege we should have of returning to our homes and families, many of which are greatly in want of our labors for support, till we are exchanged; when, with the wants of our familes supplied, and our health regained, we will be ready at a moments notice to fly to arms, eager to retrieve the Murfreesboro disaster, fight for the laws and the constitution under the old flag, and show our country that the Minnesota Third is not unworthy of the proud name she has heretofore borne.

BENTON BARRACKS, St. Louis, Mo., August 4, 1862.

We hereby certify that the above petition expresses our wishes and the wishes of our companies.

NEGROES IN THE WAR.

We would direct attention to the letter of Gen. Hunter, which we publish on the subject of using negroes in the war.

The New York *Tribune* referring to the letter says: Gen. Hunter, be it observed, is an extensive slaveholder, was born and reared in a Slave State, and knows Slavery and slaves more thoroughly than almost any man who talks about them. He is by education and choice a soldier of the Republic, and probably never voted in his life, nor took any active part in politics. What he says, therefore, has a weight and authority which the opinions of few men are entitled to. He is for proclaiming Emancipation and arming the loyal slaves of Rebels, because he believes that the surest, shortest and indeed only way to save the country from dissolution and ruin. We beg those who think Emancipation a dictate of fanaticism to read Gen. Hunter's letter and ask themselves what *motive* this old soldier can have for misrepresentation. *He* is no extemporized soldier, looking for a Presidential nomination or seat in Congress. He is neither a political nor a civil engineer, but simply a patriot whose profession is war, and who does not understand making war so as not to hurt your enemy. Do ask patriots everywhere to read his letter.

There will be preaching at Fletcher's Hall, (Congregational Church) Minneapolis, Sabbath morning, at half past ten o'clock, by Rev. O. A. Burgess, from Illinois.

"WATCHMAN, WHAT OF THE NIGHT?"—Rev. Mr. Hawley will preach Sabbath morning next at the Plymouth Church, on the Nation's Duty, and Prospect, in the present Crisis. Citizens and strangers are invited.

NEW COMPANY—Henry Vitt and Fred Emmert are recruiting a company for the Seventh Regiment.

LIBERAL—Wm. Lee, Dry Goods Merchent, on Third Street yesterday donated $225 to the family of a citizen who has volunteered for the war.

SIMEON P. FOLSOM, one of the oldest residents of this city was yesterday sworn in as a private in Lieut. Gilfillan's company, Seventh Regiment.

GOV. RAMSEY returned from his recent tour to the camps of our different regiments, and to Washington last night on the Wenona.

CAPT. GRANT'S company now numbers seventy men. He will be able to muster in his men in a day or two, and will probably be the first in the Sixth regiment.

HON. J. G. NICOLAY, From Washington, the Private Secretary of the President, arrived in town yesterday morning, and is stopping at the International. We believe he is on a pleasure trip.

SUBSTITUTES.—After a diligent research, we can find no law allowing substitutes. It has heretofore been a mere matter of sufferance, and is not likely to be tolerated in this emergency. The reason is obvious, for the substitutes may be drafted the next time.

SUBSCRIPTION PAPER LOST.—A bounty subscription paper, for Lieut. Gilfillan's company, was accidentally lost yesterday. The finder will confer a favor by leaving it at Lieut. Gilfillan's recruiting office.

REV. J. G. RHEELD'FFER will give free tuition in the regular classes of the St. Paul Female Seminary, for one year, to four pupils, daughters of as many men who will volunteer in the 6th or 7th regiments now forming. The regular tuition fee is $10.

SHOES FOR NOTHING—Since Eg. Hughson has enlisted he has commenced to give away, almost, his entire and well selected stock of boots and shoes. His store is constantly thronged with people who are walking off with the best bargains ever made. As he has but a few days in which to close up his business, customers can drive their own bargains.

JO NEER, city wood inspector, proposes to give twenty per cent. of the revenues of his office to the support of the families of those who may enlist in this city for the war. As he has to make monthly returns of the amount of his fees to the City Council, the sum is easily found out, good for Jo.

REV. Mr. W. V. Tunstall late of Louisiana, is now in this city, and will address the people Monday evening at the mass meeting upon the rebellion

Mr. Tunstall has been highly commended by the Press in the cities and towns where he has spoken.

Mr. Tunstall will speak also at St. Anthony and Minneapolis som time this week.

THE Young Men's war meeting last evening, was the most spirited of the series. Addresses were made by Hon. H. M. Rice, Dr. Van Ingen, Rev. Mr. Noble and Mr. Turnstall, a Union refugee from the South, and others. Mr. Rice offered to contribute $500 to the fund for the support of the families of volunteers. We understand enough names were enrolled to allow the company to be organized.

THE Committee appointed at the meeting held at the Market Hall, on Friday evening for the purpose of soliciting a fund from the merchants and business men of the City for the families of Volunteers, would state that they have received in cash the sum of one hundred and ninety dollars, from the following named gentlemen: Wm. Dawson of the firm of Holland Dawson & Berry one hundred dollars. Col. D. A. Robertson fifty two dollars and fifty cents. Robert A. Smith twenty-five dollars. John Carrier grocer on Fourth street ten dollars, Mr. Ramsden on Wabashaw street five dollars. If the rest of the business men will act as liberal according to their means, those Companies proposed to be raised in Ramsey Co. for the eight regiment will speedily fill up. T. Howard,

Chairman Com.

CHRIST CHURCH—Services as usual at half past ten o'clock—Rev. Dr. Van Ingen, late Rector of the Parish will be present and preach.

The Collection will be appropriated to pay the Assessment on the Parish for printing the Bishop's Charge delivered at the late Dioscesan Convention and the Journal of the Convention.

Sunday School at 8 o'clock Children will be catechized by Rev. Mr. Chapin.

Rumors of Fighting at Gordonsville.

Important Movement South oi James River.

NEW YORK, August 9.

Burnside's army is in camp at Fredericksburg ready for a movement.

The *Times* letter of the 6th from Pope's army reports McDowell's command at Culpepper and Banks at Woodville. Banks will probably be beyond Culpepper by the 7th.

A dispatch from Woodville of the 7th, reports Sigel's corps moving from there.

There were rumors in Washington yesterday of heavy fighting at Gordonsville, but not fully credited, though not improbable.

The *Times* letter from the army of the Potomac of the 7th, says important movements are progressing on the southside of the James's river but are of such a character as not to admit of disclosure at present.

The rebel ram at Savannah is, according to a Hilton Head letter, the British steamer Fingal covered with Railroad iron, armed with 14 guns, commanded by James Pembroke Jones, late executive officer of the Merrimac.

Two Rebel Rams Ready at Charleston.

NEW YORK, August 9.

A Hilton Head letter says we have reliable information that two rams in Charleston harbor are nearly, if not quite ready for service and will be used mainly to protect the harbor and convey vessels out and in through the blockade—small however, though formidable, and can hardly be used to advantage or with safety at any great distance from shore.

They have conical revolving turrets, an improvement on the Monitor, and these turrets are cased with railroad iron.

Particulars of the Loss of the Steamer Golden Gate.

SAN FRANCISCO, August 6.

The steamer Golden Gate, Hudson, commander, was burned at sea. She sailed hence for Panama 21st, having 95 cabin passengers, 147 second cabin and steerage, 95 crew, with 100,000 in treasure, of which Kirby, Byrne & Co., had 10,000; Weaver, Loler & Co., 10,000. On the 27th ult., at 4 o'clock and forty-five minutes P.M., when 15 miles north of Manzilla, while the passengers were dining, the cry of fire was heard. The steamer was promptly headed for shore—at 3 1-2 miles distant. The flames were making fearful headway on the upper deck.

Soon after she struck the beach, and the passengers and crew who had not got into boats jumped overboard and endeavored to swim ashore. About 100, including five children, swam or were washed ashore alive. The ship burned to the water's edge, and soon disappeared.

Those on shore made their way to Manzilla on the 22d, just as the steamer St. Louis arrived up from Panama. Some others escaped to Manzilla in boats; one boat with 30 has not been heard from, and probably made to the shore south of Manzilla.

The St. Louis arrived here to-night, bringing 78 of the Golden Gate passengers, all that are known to be saved, and an portion of the crew.

IMPORTANT REBEL WAR ORDER.

RETALIATION DECLARED.

Gen. Pope and others Outlawed,

WASHINGTON, Aug. 8.

The Richmond *Despatch* of Monday 4th, says that a day of retribution is at hand, for the outrages which so long characterized the conduct of the enemy in their prosecution of the war.

ADJUTANT & INSPECTOR GEN'L'S OFFICE, RICHMOND, Aug., 1st.

GENERAL ORDER NO. 54.

First—That the following orders are published for the information and observance of all concerned. Whereas by general order dated 22d of July, 1862, issued by the Secretary of War of the United States, under the order of the President of the United States, the military commanders of that Government within the States of Virginia, South Carolina, Georgia, Florida, Alabama, Mississippi, Texas and Arkansas, are directed to seize and use any property, real or personal, belonging to the inhabitants of this Confederacy which may be necessary or convenient for their several commands, and no provision is made for any compensation to the owners of such private property, seized and appropriated by the military commanders of the enemy.

Third—Whereas by General Order No. 11, issued on the 23rd of July, 1862, by Major Gen. Pope, commanding the forces of the enemy in Northern Virginia, it is ordered that all commanders of any army corps, division brigades and detached commanders will proceed immediately to arrest all disloyal male citizens within their limits or within their reach in the rear of their respective commands, such as are willing to take the oath of allegiance to the United States, and will furnish sufficient security for its observance, shall be permitted to remain at their homes and pursue in good faith their accustomed avocations. Those who refuse shall be conducted South beyond the extreme pickets of this army, and be notified that if found again in the rear they will be considered as spies and subjected to the extreme rigor of military law. If any person having taken the oath as above specified be found to have violated it, he shall be shot and his property seized and appropriated to the public use.

Fourth—Whereas by an order issued on the 13th of July, 1862, by Brig. Gen. A. Steinweihr, Major Wm. Stedman a cavalry officer of his brigade has been ordered to arrest five of the most prominent citizens of Page county, Virginia, be held as hostages and to suffer death in the event of any of the soldiers of said Steinweihr being shot by bushwhackers by by which term is meant the citizens of the Confederacy who have taken up arms to defend their homes and families.

Fifth—Whereas it results from the above orders, that some of the military authorities of the United States are not content with the unjust and aggressive warfare hitherto waged with savage cruelty against an unoffending people, and exasperated by the failure of their efforts to subjugate them, have now determined to violate all the rules and usages of war and to convert hostilities hitherto waged against armed forces into a campaign of robbery and murder against unarmed citizens and peaceful tillers of the soil.

Sixth—Whereas this Government bound by the highest obligations of duty to its citizens is thus driven to the necessity of adopting such just measures of retribution as shall seem adequate to repress and punish these barbarities: and Whereas the orders above recited have only been published and made known to this Government since the signature of a cartel for the exchange of prisoners of war, which cartel in so far as it provides for an exchange of prisoners hereafter captured, would never have been signed or agreed to by the Government if the intention to change this war into a system of indiscriminate murder and robbery had been made known to it, and where a just regard to humanity forbids that the repression of crime which this Government is thus compelled to enforce, should be unnecessarily extended to retaliation on those enlisted in the army of the United States, who may be unwilling instruments of the savage cruelty of their commanders. So long as there is hope that the excesses of the army may be checked or prevented, retribution on the commissioned officers who have the power to avoid the guilty action by refusing service under a Government which seeks their aid and in the perpetuation of such infamous barbarities.

Seventh—Therefore it is ordered that Major General Pope, Brigadier General Steinwehr, and all commissioned officers serving under their respective commands, be and they are hereby expressly and specially declared to be not entitled to be considered as soldiers, and therefore not entitled to the benefit of the cartel for the parole of future prisoners of war.

Ordered further, that in the event of the capture of Major General Pope or Brigadier General Steinweihr, or any commissioned officer serving under them, the captive so taken shall be held in close confinement so long as the orders aforesaid shall continue in force and unrepealed by the competent military authority of the United States: and that in the event of the murder of any unarmed citizen or inhabitant of the Confederacy, by virtue of and under pretext of one of the orders before recorded, it shall be the duty of the commanding General of the forces of this Confederacy to cause immediately to be hung, out of the commissioned officers prisoners as aforesaid, a number equal to the number of our own citizens thus murdered by the enemy.

FOREIGN NEWS.

Important Statement Respecting Napoleon Initiating Intervention.

CAPE RACE, August 8.

The following is a duplicate of the news per city of Baltimore, which sailed on the 30th, but the Jura anticipated her arrival.

The Paris correspondent of the London *Times*, believes the American question occupies the most serious attention of Napoleon, and that a council of ministers had been held upon it. He would not be surprised if the matter were laid before the English government in a still more pressing manner, with a view to a speedy solution. He urges that the movement must be speedy too if our mission would be of effect, in view of the possible re-election of the present Congress. He says, I do not intend to say whether the movement will be followed by any immediate effect, or whether France will take the lead, with the expectation that England cannot do otherwise than follow, or whether both will at the same time, I only know that France is convinced that the present moment is the most opportune for united action.

He insinuates that Lincoln and some of his advisers would not object to some gentle pressure.

The *Times* editorially continues to point out the federal prospects as more gloomy, but the daily news combats such views, and speaks of Northern policy with continued confidence.

Most of the London journals allude to the financial crisis in America, and reiterate their strictures upon the false financial policy of the government. Even the *Star* charges the Washington Cabinet with most deplorable ignorance of true economy.

The *Times* argues that if the position had been reversed, the Americans would never have recognized the blockade as England has done, but would have broken it under a plea of self-preservation.

Some of the journals attack Arch-Bishop Hughes for certain revolutionary remarks which he made in a speech in the Dublin Parliament.

ITALY.—Garibaldi, in the course of his speech at Marsala, several times made use of the phrase "Rome or death!" to which the people responded, each time, "Yes, Rome or death."

He spoke in violent terms of Napoleon, and said: "We have given him Nice and Savoy, and he wishes for something more. Yes, I know he has one prince ready for Rome, another for Naples, and so on. I know it."

At the banquet at Palermo, in honor of Marquis Pallecracini, Garabaldi proposed a toast concluding with the words, "Rome or death: but at Rome Victor Emanuel."

TO THE ENGLISHMEN OF MINNESOTA.

FELLOW-COUNTRYMEN:—The Government of our adopted country is in disgrace: The hosts of treason have crimsoned our beautiful and happy land with their brothers' blood, and are now even marshalling their fiendish energy for a still more savage onslaught upon our freedom-loving States—our altars and our homes. A stern, prompt and bloody resistance can alone avert the threatened storm. Permit this diabolical rebellion to succeed, and farewell to Freedom and its hopes throughout the World. Let but one link be broken in our gobled chain of Union, and who may answer for the rest? States rent by intestine broils, will degenerate into petty despotisms; until some giant intellect—some Napoleon—stimulated by an unbridled ambition, and taking advantage of the times, will grasp the reins of power, and treading with iron heel upon the liberties of his country, elevate himself to royalty and a throne. Is it for this you have cast of the fetters of monarchical institutions, and torn yourselves from the graves of your fathers, and from all the associations and cherished ties of your native land? It is, unless with one grand and Heaven-inspired impulse, such as animated your heroic ancestors when they wrung their Magna Charta from the tyrant John, you throw yourselves into the struggle for National existence. Better to die, a thousand times better! upon the bed of glory, fighting to sustain the freest and the purest form of government on earth, than survive its dissolution. Founded by the heroes and statesmen of the Revolution, after years of toil and suffering upon the ashes of despotism, they bequeathed it as a sacred legacy to their posterity; oh! let us not, as we reverence their memories and hallow their martyrdom at the shrine a Liberty, entail upon our children, but the miserable record of their fathers' shame! The Union must be saved at any cost. The President of the United States—the second Father of his Country—is earnestly appealing to his children, adopted as well as native-born, to die, if needs be for its salvation, if they would not stand upon its ruins. Englishmen of America, although you have no National regiments or brigades, as have the Germans, the Irish, and the Scotch, (I would to God you had,) to stimulate a generous rivalry, and herald to the world your fame, you have nevertheless nobly and patriotically answered to the first call for volunteers, as the hundreds of bloody graves on Southern soil can testify. Will you not respond to this still more urgent cry of "Save us or we perish?" The shouts and echoes of "We will," are already heard at Washington, cheering and encouraging the anxious hearts of Abraham Lincoln and his Cabinet. Come, then, from your work-shops and your farms; come with your lives in your hands, ready and willing to sacrifice them on the altar of your country's necessity! Come with all your hereditary courage, as tested for a thousand years, and at the cannon's mouth, and in the very jaws of death, side by side, and shoulder to shoulder with the native-born sons of America, swear never to sheath your swords until the wrongs of *their* fathers in the days of the Revolution have been atoned for with *your* blood, and the remembrance obliterated in a Nation's gratitude forever!

State News.

From the Anoka Republican.

HO, FOR THE WAR.—Our friend, John S. Cady, Esq., has gone to Fort Snelling to enlist, and also to secure authority whereby others may enlist with him. He expects to get orders to recruit in a portion of Wright county, in Sherburne, Benton, Mille Lac, Isanti and Anoka, and hopes to raise a full company. We cannot donbt that he will. He is just the man for the undertaking, and will succeed where many would fail. Mr. Cady leaves a lucrative situation to serve his country, and will march to take his place in the ranks of the Sixth Regiment alone, if he cannot get others to go with him.

RETURNED.—Thomas G. Jones, Esq., returned from Washington last evening. We are informed that he has received the appointment of United States Collector for the 2d Congressional District. It is a lucrative position, and we are pleased to be able to congratulate friend Jones in securing it. He is a gentleman and a scholar, and without doubt will make a good officer.

HENRY HUBBARD, a member of the First Regiment, who was slightly wounded in the shoulder at the battle of Bull Run, and released on parole, received notice this week to report for duty at Saint Louis, and immediately started for that city.

SHEEP.—Daniel Robbins lately purchased over 800 sheep, which are on the way to this place from Michigan. Caleb Woodbury, Dr. Perram, and H. F. Blodgett, also have large flocks on the road. They sent through by railroad and steamboat, twelve fine Spanish merino bucks, which arrived this week. These parties have kept sheep for the past two years, therefore we may safely infer that it is a paying business, or they would not be increasing their flocks.

THE PRAIRIE MOTOR.—Under the above caption, the *Nebraska City News*, of July 19th, gives a glowing account of successful experimental running of Gen. Joseph R. Brown's "steam wagon." Its evolutions up heavy grades, over the "greasy soil" of Nebraska, *after a rain*, are at length described, as well as the detail of the construction of the machine. We sincerely wish the highest success for the General's enterprise.—*Journal*.

Gen. Duffield on the Murfreesboro Surrender.

In a private letter written soon after the surrender, Gen. Duffield says the blame of the bad disposition of the forces at Murfreesboro rests upon Col. Lester. He writes:

"I am a prisoner in bed as well as a prisoner of war. I reached here at noon of the 12th inst., coming down with Brigadier Gen. T. L. Crittenden, the newly appointed commander of the post, my brigade being ordered to concentrate at McMinnville, a portion moving from this point, and the other following the line of the railroad from Tullahoma. Found things very much changed at Murfreesboro, Col. Lester, who succeeded me in command of the brigade, having changed entirely the position of our camps, and detached four companies of the 9th Michigan and ordered them to Tullahoma. The remaining five companies, one forming the provost guard in town, were camped about three-quarters of a mile east of Murfreesboro, while the Third Minnesota with two sections of Hewitt's battery, were camped two miles west of Murfreesboro, on the bank of Stone's river, thus separating the command into two portions, three miles apart."

From Memphis and the South.

Special dispatch to the Chicago Tribune.

MEMPHIS, Aug. 3, via CAIRO Aug. 5.—The fortifications are progressing. Every one says negroes work remarkably well and certainly have succeeded in performing an immense amount of work in a short period of time. They seem happy and cheerful. About one thousand colored men passed through Main street yesterday morning followed by train wagons, singing their favorite "Walk Around." They went to repair a bridge at Wolf river. I understand they returned to the fort at night singing. A negro arrived here yesterday from the interior of Mississippi. He says Bragg has caught the colored men concocting a scheme to raise and emancipate themselves and join the federals, and took a number, among them the son of our informant, and drove them into a correll or sort of a pen, piled dry twigs about them, and proceeded to burn them alive. The negro appears sincere and truthful, and says he was compelled to witness the dying agonies of his son. The same reports are received I understand from Texas. This punishment was intended to frighten the blacks into adherence to their master's cause and keep them out of the federal trenches.

The following southern news is from the Grenada *Appeal* of the 31st:

MOBILE, July 31.—A special dispatch to the *Advertiser & Register* dated Tupelo, July 30th, states that information has been received at head quarters stating that Col. Armstrong, commander of the cavalry of the army of the West, had taken Courtland, Alabama, capturing one hundred and fifty prisoners and a train of cars. Our loss was two killed and eight wounded. The citizens of Courtland were frantic with joy. Reliable information states that 15,000 federals passed through Tuscumbia last week, destined for Chattanooga.

CHARLESTON, July 29.—The British steamer Tubal Cain, probably is captured by the federals. She is an iron screw steamer of five hundred tons burthen with a cargo of general merchandise and a few cases of arms.

CHATTANOOGA, July 29.—Morgan's whole command returned safely to Tennessee. A part arrived at Knoxville yesterday, having taken one thousand prisoners.

Humphrey Marshall is marching upon northeastern Kentucky.

Buell's forces are marching upon Sequatchie Valley toward Pikeville.

Slavery in the War—Letter from Gen. Hunter.

We have been favored by a friend with a copy of Gen. Hunter's reply to the inquiries of the President of the National Freedman's Association:

HEADQUARTERS DEP'T OF THE SOUTH, Hilton Head, Port Royal, S. C., July 17, 1862.

Rev. Stephen H. Tyng, Pres't of the National Freedman's Relief Assoc'n, N. York city.

SIR: I have the honor to acknowledge the receipt of your communication dated June 2, 1862, expressing to me the approval of my course in regard to the freed slaves of this Department by the important and benevolent association of which you are President.

Satisfied of having attempted, in the absence of instructions, to do my duty in the matter according to the best lights of my judgment and a long experience, every assurance of sympathy from men whose characters I esteem is gratifying, and enables me to wait with more patience for those inevitable days which are to give a policy on the slavery question to our Government.

It is my only fear that the lesson may not be understood and acted upon until read in characters of blood at the fireside of every northern family. To attain wisdom we must suffer; but that wisdom on the Slavery question must finally be obtained, is my sustaining faith.

Our people are not dull of comprehension in regard to matters about which free play is given to their common sense. When a fire is spreading though a block of houses, they do not hesitate to batter down an intermediate house to save the remainder of the block. When the plague occupies an infected district, the district is quarantined, and every resource of science and industry put forth to rid the locality of its presence. The soldiers of health are by no means ordered to mount guard over each smitten house and see that the vested interests of pestilence are protected. "Break open doors, if they be not opened," is the order on these occasions. "Let in fresh air and sunlight: let purity replace corruption."

But in presence of one great evil, which has so long brooded over our country, the intelligence of a large portion of our people would seem paralyzed and helpless. Their moral nerves, lie torpid under its benumbing shadow. Its breath has been the pestilence of the political atmosphere in which our statesmen have nurtured; and never, I fear until its beak is dripping with the best blood of the country, and its talons tangled in her vitals, will the free masses of the loyal States be fully aroused to the necessity of abating the abomination at whatever cost and by whatever agencies.

This is written, not politically, but according to my profession in the military sense. Looking forward, there looms up a possibility (only too possible) of a peace which shall be nothing but an armistice, with every advantage secured to the Rebellion. Nothing can give us permanent peace but a successful prosecution of the war, with every weapon and energy at our command, to us logical and legitimate conclusion. The fomenting cause of the Rebellion must be abated; the ax must be laid to the root of the upas tree which has rained down such bitter fruit upon our country, before anything like a permanent peace can be justly hoped.

Already I see sighs in many influential quarters, heretofore opposed to my views in favor of arming the blacks, of a change of sentiment. For recent disasters before Richmond have served to illuminate many minds.

To speak of using the negroes merely for throwing up intrenchments is a step in the right direction, though far short of what must be the end. It has the advantage, however, of making the further and final steps necessary: for men working in face of the enemy must have arms with which to protect themselves if suddenly attacked.

On the whole, there is much reason to be satisfied with the progress made by public sentiment, considering how deeply-rooted were the prejudices to be overcome, the general failure of the nation to realize at first the proportions of the war, and the impunity still extended to those Northern traitors who are the plunderers of the Government by means of fraudulent army and navy contracts, on the one hand, while using every energy of tongue and pen to excite discontent without our Government and sympathy with the more candid and courageous traitors of the South who are in arms against us.

In conclusion, it may be not inappropriate to say that in transmitting the approval of the National Freedman's Relief Association of my course, you were—doubtless unconsciously—indorsing views which your own earnest eloquence had no slight share in maturing. Though without the pleasure of your personal acquaintance, I was, during a year, a member of your congregation, and take this opportunity of gratefully acknowledging my indebtedness to your teachings.

Your letter would have been earlier answered, had not pressing duties too fully occupied my time.

Believe me, Sir, very truly, your obliged and obedient servant, D. HUNTER.

P. S.—None of the carefully fostered delusions by which slavery has sustained itself at the North, is more absurd than the bugbear of "a general migration of negroes to the North," as a necessary sequence of emancipation. So far is this from being the fact, that although it is well known that I give passes North to all negroes asking them, not more than a dozen have applied to me for such passes since my arrival here, their local attachments being apparently much stronger than with the white race. My experience leads me to believe that the exact reverse of the received opinion on this subject would form the rule, and that nearly if not quite all the negroes of the North would migrate South whenever they shall be at liberty to do so without fear of the auction block. D. H.

The Murfreesboro Surrender.

A correspondent of the Hastings *Conserver* whose initials are J. M. B., gives a very full account of the surrender, captivity and release of the Third Minnesota. We make the following extract:

"Many cases of coolness and bravery might be mentioned, but they will care little for that since we were all disgracefully surrendered at the very moment we should have stood firm. Whether Colonel Lester, the man we all loved so dearly, and in whom we had the greatest confidence, is a coward or not, time and proper investigation must determine. I, for one, am not prepared to believe him such. Capt. Clay trembled in his shoes and plead with tears for surrender. Capts. Preston, Gurnee, Webster, and Lieut. VanStrom voted to surrender. Capt. Hewitt said his ammunition would last but an hour, but if they choose to fight he was with them. Col. Lester looked pale and his voice seemed weak and husky from the beginning, but he directed the movements with coolness and good judgment. Lieut. Col. Griggs was everywhere that duty called him, and proved himself the stuff of which heroes are made."

How King David Used a Slave of the Enemy as a Scout.

There is another book of wars which our generals would do well to study along with Hardee's Tactics. Some of them, who have so nearly apotheosized the slave that they dare not use the sacred thing in warfare, might be relieved in their consciences by an example from Holy Writ. The Amalekites had invaded Judah, burned the city of Ziklag, and carried the women and children away captive, among them David's two wives. The King inquired of the Lord and gained permission to pursue the invaders with his army. While on the march he found an Egyptian slave, who had lain three days and three nights on the field, having been left sick by his master, one of the retreating Amalekites. But so far from turning this deserted slave out of the lines and proclaiming an "Order No. 3," David gave him bread and water, and figs and rasins, to revive his famished spirit, and then questioned him: Can't thou bring me down to this company?" And he said, "Swear unto me by God, that thou will neither kill me, *nor deliver me into the hands of my master*, and I will bring thee down to this company." David took the oath; and the slave led him down to the camp of the enemy who were eating and drinking, and dancing over their victory and their spoils. And David smote them from morning till night, and not one escaped except four hundred who fled on camels. The captives and all the spoils were regained and the flocks and herds of the enemy were driven off. All of this will be found in the thirtieth chapter of first Samuel, from which let us learn that the slaves will not join our side in the great civil war until we swear unto them that we will not return them to their masters.

Miscellany.

"NO PEACE FOR THE WICKED."—The Mayor of Philadelphia has ordered concert saloons, recently opened in Philadelphia, by expatriated N. York proprietors, to be closed forthwith. The "pretty waiter girls" will not be tolerated in the Quaker City.

"NOT DEAD YET."—Two rather singular cases of remarkable escape from living burial are related as having occurred subsequent to the battle of Fair Oaks. The body of a Colonel was found on the field and brought in. Arrangements were made for embalming it. The process includes the use of galvanism. The shock was given. To the astonishment of all the Colonel rose and walked forth. The other case was also that of a Colonel, who was found dead on the field. In deference to his rank he was brought to the hospital, and laid among the dead. His friends prepared to give him a decent burial, and were about to carry the body out, when the Colonel rolled over, and in tones more like those of a man drunk than dead, called out: "Ben, John, were is my whisky flask?"—*Tribune Correspondent*.

WEALTH OF OHIO.—The Cincinnati *Gazette* says that the surplus produce of Ohio for this year will exceed the interest on one thousand millions of dollars, and will exceed the interest on the National Debt made by the war, in the year from its commencement. What a noble illustration of the resources of a State in which the laboring class are not depressed by caste, and where industry is not regarded as degrading.—*Nashville Union*.

Persons unacquainted with the Melodeon and its history, will bear in mind that we are the pioneers and leading manufacturers, not only in the United States, but in the world. We commenced the manufacture of Melodeons in the fall of the year 1852, and since that time have finished and sold TWENTY-SEVEN THOUSAND. These instruments are now in use not only in the United States and Canada, but also in Europe, Asia, Africa, South America and the West Indies, and from all these quarters we have the most flattering testimonials of the high estimation in which they are held.

AT ALL INDUSTRIAL EXHIBITIONS THEY HAVE INVARIABLY BEEN AWARDED THE HIGHEST PREMIUM WHENEVER EXHIBITED IN COMPETITION WITH OTHERS.

We shall take pleasure in forwarding by mail (at our own expense) our Illustrated Catalogue, in which every instrument we manufacture is fully described and illustrated by elegant engravings.

All Melodeons of our manufacture, either sold by us or dealers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of five years from date of sale, we hold ourselves ready and willing to make the same free of charge, provided the injury is not caused by accident or design.

Agents for the sale of our Melodeons may be found in all the principal towns of the United States and Canada.

GENERAL ORDERS—NO. 26.

HEADQUARTERS ARMY OF THE OHIO, IN CAMP, NEAR FLORENCE, ALA., June 24, 1862.

There are 11,660 officers and soldiers absent from their duty with the various Divisions of this army. Some of them have gone off without any authority; others with the permission of officers not authorized to grant it. In general, sickness is given as the cause of absence, but in very many cases the cause has notoriously ceased to exist, and men remain away, drawing the same pay as their comrades who are faithfully performing their duty. To correct this abuse it is ordered—

1. All officers and soldiers who are absent without direct authority from these Headquarters, the period for which has not transpired, will, on or before the 10th of July, proximo, join their companies or regiments wherever they may be. If ignorant of their locality, they will report to the commanding officer at Louisville or Nashville, by whom they will be directed to their regiments, or put on such light duty as they may be able to perform, if they are not entirely fit for active service; and these will be promptly reported to their regimental commanders by the officer so assigning them.

The cases of those who fail to join as above required, will be disposed of as follows:

2. If any absent officer or soldier,

This Society was organized in the year 1859, with a cash capital of $100,000 deposited irrevocably with the insurance Department of the State of New York, in United states bonds, on which it allows but seven per cent. per annum to the stockholders, and the entire profits of the business is shared by the policy holders. The nett profits in two years amounts to $129,000, which shows an unparalleled success in the history of life insurances. Its operations are managed by a Board of Directors composed of the the ablest business men of the country, and its business is conducted entirely on the cash plan. Dividends to the policy holders will be made every five years, and no Company in the country offers equal advantages to its dealers.

INSURANCE COMPANY,

NEW YORK.

Extract from Third Annual Report of the Superintendent of the Insurance Department of the State of New York. WM. BARNES,
Superintendent.

There are now ninety-five joint stock fire insurance companies incorporated by the State of New York, engaged in the transaction of business; of these companies, fourteen only received premiums during the last year, amounting to over one hundred thousand dollars; four only received premiums above the sum of two hundred thousand dollars, and the premium income of one only exceeded three hundred thousand dollars. The premium receipts of this Company, the HOME, with a capital of $1,000,000, were $829,993.33. The premium income of thirty of the smaller companies was $881,375.85 only, with capitals, however, amounting in the aggregate to the sum of $4,950,000.

The state of things should be improved; the premium income of the mass of our fire insurance companies is by far too small for their capitals, and inadequate to the proper support of a separate and independent corporation. The experience of the HOME, PHOENIX, (of Brooklyn) and some other companies, has demonstrated that, with proper skill, tact and sagacity, business can be increased and managed to an indefinite extent, with entire safety, and even additional security to the company. We have now the machinery and organization in working order for nearly one hundred joint stock fire insurance companies. In the course of a few years their business can be safely doubled, and even quadrupled, without doubling or quadrupling the yearly expenses. Any considerable expansion of business must of course be mainly effected through the instrumentality of reliable, safe, and well managed agencies. The premium income of the HOME amounts to nearly one-eighth part that of the ninety-five companies combined, so that eight corporations like the HOME could conduct the entire business of all these companies. If each company transacted the same amount of business as the HOME, the aggregate premium income would reach the enormous amount of over seventy-eight millions of dollars per year. Our companies are not too numerous for the great future of this country, if managed on the progressive scale demanded by the spirit of the American people.

The annual statement of this our foremost local fire and inland company, made up to the first of January last, shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, President, A. F. Wilmarth, Vice President, and John Meiggs, Secretary, those well accredited officers very justly say: "The well-known reputation of the HOME for fair and honorable dealing, together with its capital of one million dollars, and surplus of over half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our State, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the first of January last summed up to $1,521,268.08, against an actual liability of only $55,080.43; and, moreover, it is worth noting that the assets are all of the very first class. The balance in bank in cash was $124,434.14, very nearly enough to set up an ordinary company; bonds and mortgages $900,249.54, secured on real estate worth $1,715,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,636. Any one not satisfied with the security of the HOME as an insurance institution, must be hard to please.

In 1861 the HOME wrote $10,715,148, taking $829,993 premium, and paid losses $555,779, including some losses for the year 1860. A dividend of ten per cent. was paid on the million capital; and after reserving an ample reinsurance fund, the company shows a "nett surplus" of $165,641 clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

MILLS,

SITUATED ON PHALON'S CREEK, WHERE THE STILLWATER ROAD CROSSES.

This Mill is just completed, and is in good running order. Our machinery embraces all the latest improvements, and was got up in the East, without regard to expense. It has two run of Burrs, which will be kept running night and day, so that farmers coming from a distance can be accommodated without much delay.

The need of a first class Mill of this kind has long been felt by the citizens of St. Paul and vicinity. We have secured the services of James Craigie, who has made milling the business of his life, and in whom we can place entire confidence.

All kinds of grain will be weighed when brought to the Mill, and also when taken away, if desired. We feel confident in saying to the public that we can make as good Flour and as great a yield to the bushel as any Mill in Minnesota, and respectfully solicit a fair trial.

Also a new Mill for grinding corn in the ear.

☞ All work done at this Mill is warranted.

1862. 1862.

LA CROSSE AND ST. PAUL

PACKET COMPANY.

SUMMER ARRANGEMENT

During the summer of 1862, till the close of navigation, the LaCrosse and St. Paul Packet Company, having completely equipped their Line and made large additions to their business facilities, will offer to shippers and passengers on the river greater inducements and conveniences, and QUICKER TIME, than was ever offered by any company on the river.

All the boats on the Chippewa, Minnesota, St. Croix and the upper Mississippi rivers, and the different lines of stages north of LaCrosse, will, the coming season run to connect with the Davidson boats and the LaCrosse and Milwaukee Railroad.

The LaCrosse and St. Paul Packet Company will run a

PASSENGER AND FREIGHT LINE.

The former will number two first class boats—the nicest and fastest on the river. They will be the McCLELLAN and NORTHERN BELLE.—The first will be the Lightning Line, making the run from La Crosse to St. Paul in EIGHTEEN HOURS, and returning will leave here in the morning, and arrive at La Crosse in twelve hours time to connect with the evening train, by which our passengers will make close connection and reach Milwaukee in time for cars, or boats on the Lake in TWENTY HOURS FROM ST. PAUL, and reach Chicago next morning, by Minnesota Junction or Milwaukee, in just TWENTY-FOUR HOURS FROM LEAVING ST. PAUL, and in time for close connection East! This will be by twelve hours the quickest time between these three cities ever made! Nothing but passengers, the mails, express matter, and express goods will be carried on these boats, which will be furnished in the best of style. Passengers will then have daylight to view the grand beauties of the river, and good sleeping cars from La Crosse to Chicago—a great item. Arrangements have also been perfected so that all the boats on the upper rivers and all the stage lines will run in close connection.

The other line will number three regular boats; the Keokuk, G. H. Wilson and Wenona, one of which will leave La Crosse daily on the arrival of the morning train from the East, connecting at all points North, and will also make close connections. The Favorite will run as a tri-weekly packet between St. Paul and Mankato, on

News Summary.

—The Army Register of the Northwest states the number of volunteers from Illinois, Indiana, Wisconsin, Michigan, Missouri, Iowa, Minnesota, Kansas, Nebraska, and Colorado, at 237,531. Of these Illinois furnished 69,319, and Indiana 49,095.

—Gen. Richardson, of Michigan, familiarly known as "Fighting Dick," dismissed from the service, had recently been promoted to a Major Generalship. His dismissal, we learn from private sources, is attributable to his absence from duty without leave. It is a matter of regret that the country should be deprived, at this exigency, of the services of so able an officer.

—Gerrit Smith has presented his check for *twenty-five thousand dollars* to the new regiment now being raised in the Twenty-third Senate district of New York.

—It is stated that Mr. Fay, ex-Minister to Switzerland, has declared since his return here, that the honest execution of the emancipation feature of the Confiscation bill, would render foreign intervention an impossibility.

—The Chicago *Journal* says: "St Paul, Minn., had a big war meeting last Wednesday evening, at which Dr. Tiffany and Mr. Fowler, of Chicago, made addresses, and a resolution passed, calling on the President to institute a draft within thirty days. The President has made better time than they hoped for. Now, Minnesota, you may add more laurels to your brow by sending your hardy sons to fight the battles of freedom, instanter.

—In the regular rebel army there is no rank above that of General, and first on the roll stands the name of Samuel Cooper, a graduate of West Point. Beauregard stands fourth in rank.

—A Boston merchant having been applied to for aid in repairing a church, very much disgusted the applicants by telling them there were thousands of God Almighty's noblest temples—Man—on James river, sadly out of repair, and every dollar of his money should go to that work.

—The corporation and individual subscriptions in the loyal States, for the benefit of the newly enlisted soldiers and their families, already amount to over five millions of dollars.

—Rebel sympathizers are called "copper-heads" in Maine; the state of public feeling is not very pleasent to them, and a large number of them recently left for Canada on the mid-night train.

—All recruits who enlist in the old regiments will be discharged when the regiments are mustered out of service.—Some regiments have now less than two years to serve.

Important From the South.

WASHINGTON, August 6.—The Richmond *Enquirer* has the following telegrams:

SAVANNAH, Ga., July 30—Five gunboats opened on our batteries at Genesis point yesterday morning. An engagement ensued, lasting several hours resulting in the repulse of the gunboats. It is thought one of them was considerably damaged. The quarters of the fort were damaged by shells. Nobody hurt on our side.

LYNCHBURG, Va. July 30.—A special dispatch to the *Republican*, dated Narrows of New River, July 28th, says: The gallant Major Bailey, commanding four companies, of cavalry, in all about 150 men, sent to the rear of the enemy by Col. McCausland, stormed Summersville on Friday at daylight, and killed and captured the entire garrison, including the Lieut. Col. Commanding, named Starr, three other commissioned officers, and sixty-two non-commissioned officers and privates. Not being able to bring away the stores, Major Bailey burnt them.

Disastrous Fire in New York.

NEW YORK, Aug. 6.—The Rainbow Hotel, 131 William street, was destroyed by fire this morning; No. 129 Beekman street, occupied by McSpeddon and Baker; 127, by Baker, Hall and Sands as a paper warehouse, and 165 William street, by white & Co. and Herman & Co, were also destroyed. PRIVATE BOUNTY.

Traitor hands are clutching at the Nation's vitals, the shadows lie deep and dark upon our loved country, and all the air is heavy with the wail of broken hearts and desolated homes,—in such an hour, how fitting that every patriot recognize the duties and obligations of the crisis.

Prevented, by the inexcusable nature of confidential business engagements, from offering my life upon the altar of my bleeding country, I hereby agree to pay FIVE DOLLARS per month each, for the support of five families, represented in the person of Husband, Father or Guardian, in any of the companies now forming in St. Paul, for service in the armies of the Union, payments to date from the mustering in of the several applicants (upon the certificate of proper official character), and continue during the ensuing six months, if in actual service.

May God nerve the avenging arms, that soon the shadows may be lifted from our stricken land, and our full hearts thrill and pulses tingle with the inspiration of victory, final and complete.

WILLIAM R. CARVER.

The application of the above bounties is confined to those who shall enlist and report themselves after the publication of this notice. a9-1w

ANOTHER GREAT BATTLE.

Gen. Banks' division of Pope's army has encountered the enemy under Stonewall Jackson and Gen. Ewell. The battle was fought Saturday afternoon, closing with the day, and appears to have been a drawn battle.

The location of the battle is between Culpepper Court House and the Rapidan river, about thirty-six miles beyond Manassas, or sixty-two miles from Washington.

The forces actually engaged are not stated. The whole force of the enemy is stated at forty to sixty thousand. Banks could not have had half that number. The losses are stated at from two to three thousand on each side. Gen. Banks bore himself gallantly, and handled his troops well.

Gen. Pope arrived with reinforcements from McDowell's corps at the close of the battle. The armies lay Sunday morning, too much exhausted to renew the fight. There must be a renewal of the fight, or other battles immediately.

Gen. Sprague was despatched from Washington Sunday morning with orders to Burnside at Fredericksburg, either to hurry forward to reinforce Pope, or to move forward toward Richmond.

INSTRUCTIONS RECEIVED.

Full instructions in regard to drafting were received by the Governor from the War Department last evening.

We will publish them to-morrow. We learn they are not inconsistent with the order in regard to county and township quotas, which we publish this morning.

LIBERAL PRIVATE BOUNTY.

WISE LIBERATION

By the card of Post Master Nichols, in another column, it will be seen that he accepts a liberal offer, and certainly one of the best, as regards discrimination, of the many patriotic offers that have been made in this time of the country.

It is the families of men who go to the war that need assistance, and for them the volunteers fix the aid.

NOBLE OLD HENNEPIN.

The company recruited by Messrs. Merriam, Grant and Partridge is the first so far as we have knowledge, to be filled for the Sixth regiment. It has organized by choice of the following officers:

O. C. Merriam, Captain.
Wm. Grant, First Lieutenant.
H. Partridge, Second Lieutenant.

George A. Camp has started in to raise a company, and in one day—yesterday—got twenty-eight men. He has the energy and influence to carry the number up to a full company in a few days.

Mark T. Berry, another good man, well and favorably known by the hardy lumbermen of the Falls, has been authorized to recruit in Hennepin and the counties above.

By these certain signs there will be no need of a draft among the patriotic people of Hennepin county.

From the Second Regiment.

We are permitted to make the following extracts from a private letter of Capt. Woodbury, of Co. K, written from Tuscumbia, Ala., July 23d:

We start from Huntsville to-morrow. Lieut. McClenaghan will be retained in Minnesota on recruiting service, and Lieut. Colonel Sargeant-Major Wilson of St. Paul, together with several other sergeants will be sent on recruiting service.

The secessionists are growing more bitter every day, and the old fogy theory of buying them with kindness is about played out. We are keeping guard ing their property, and then away fighting in the rebel army. Such a state of things cannot but make our men discouraged, and we are never sure to control them if such things are to be the order of the day.

Sick and Wounded Minnesotians.

The following sick and wounded arrived at Cincinnati on the 6th, on the steamer Lancaster No. 2, which left Pittsburg Landing on the 2d.

The health of the sick perceptibly improved on the passage.

J. Bichael, 2d Battery; J. Horey, do; J. S. Barnes, 5th Regiment; M. E. Cole, 4th Regiment; John Jones, do; Wm. F. Jones, do; Jame Dempsey, 5th Regiment; James Grater, do; S. Turnbull, do; — Kansel, do; Wm. A. Keys, 2d Regiment.

UNDER WHICH KING!

Major Cullen is before the people as a candidate for Congress. He is placed there, not as an independent candidate, for he has never pretended to be such, but as the nominee of a Convention assembled at Saint Paul, July 2d, 1862. He represents that Convention or he represents nothing; and of course in representing it, he represents the *principles adopted by that Convention.*

The common voice of the people has proclaimed these principles to be treasonable and abominable. Universal execration has followed them. Major Cullen still stands upon the platform containing them, is still a candidate of that Convention, but seeks to obtain popular favor by expressing sentiments *directly contrary to those contained in his platform.*

Is such a course fair, manly, or honest?

Has Major Cullen any right, by seeming to float with the popular current, to turn his back on the sentiment of those who nominated him, and at the same time expect from those who nominated him, support? Has he any right to practice mountebank tricks by furiously declaiming one set of doctrines, at public meetings, while representing as a candidate an entirely different set?

His organ, the St. Paul *Journal*, and the organ of the party that nominated him, in its issue of the 24th July, refers to this matter as follows:

"The Democracy met in council to nominate and put candidates before the people for seats in the House of Representatives and to declare its views upon the engrossing topics of the hour. This was done. At that time Major Cullen was nominated for Congress *after the Democratic line* was believed *unanimously adopted a platform as their rule of faith for the canvass before us.* Messrs. Chatfield and Cullen *accepted their nominations* AFTER THE ADOPTION OF THAT PLATFORM AND UPON IT. Neither can repudiate the platform without repudiating their nominations and withdrawing their names from the ticket decided to represent their platform. We are satisfied that *the honor and manliness of neither would permit a thought of one without the other*, and that in other degrees of declining, which would be but a sequence of common sense and decency it *unfaithful to the platform.*"

However widely we may differ from the Editor of the St. Paul *Journal* on almost every subject, we must say that his course is high toned and manly compared with that of the nominee of the Second District. Dr. Massey is willing to abide by his principles in the midst of unpopularity and execration: his nominee seems anxious to deceive loyal people into supporting him, while at the same time he strives to retain his hold upon the faction that nominated him.

Charity might suggest that possibly the defeat of McClellan's army and the present condition of the nation may have elevated Major Cullen to a higher plane of patriotism than he occupied when that platform was adopted. But it must be remembered that when Dr. Massey's Convention met, it was well known that McClellan had been repulsed and had fallen back, and that the nation was consequently in a worse condition than it has been in since the breaking out of the war. It was at this chosen hour of disaster and national humiliation that the fulminations of treason were uttered and Major Cullen nominated. If he has since been converted to patriotism, it has been by the outbursting of public sentiment, and not by any natural impulse of his own towards the right.

It will also be remembered that when Major Cullen commenced this canvass he crept lower of strength was declared: in his appeals to our naturalized citizens against the heavy taxation this war was to bring on them; thus seeking, by addressing the basest motives of the citizens to array them against the war and give so much aid and comfort to the South.

Now, amid shirt-tearing paroxysms of patriotism, he declares that he is willing to *give all he is worth* to subdue the rebellion!

Who can believe in a conversion so extravagant and sweeping? Who can believe in a man who turns a somersault from Dr. Massey's platform into the middle of such declarations? The credulity of human nature is not equal to such a demand.

The platform on which Major Cullen stands charges the Republican administration with:

"Initiating in Congress measures of confiscation and emancipation of extreme severity, which most necessarily have the effect to drive Southern Union men into the ranks of the rebels," &c., &c.

Major Cullen, in his speech in St. Cloud, told his hearers that he was willing to employ all the negroes in the South to subdue this rebellion, and he *"would even employ all the negroes in Africa!"*

The Harlequin who turns himself inside out, is nothing to this man who, representing one set of principles, seeks popularity by announcing another. Yesterday he would not come within forty rods of the sentiment of the loyal people of the country; to-day he rushes one hundred miles beyond it.

Such mountebank tricks should be followed by shouts of derisive laughter.

If Major Cullen is thoroughly loyal, let him come out, decline the nomination of the disloyal faction he now represents, and either withdraw altogether from the course, or run on his own individual and extraordinary merits. If, on the contrary, he still believes in the principles he believed in on the 2nd of July, let him have the common manliness and decency to "stand up to the rack fodder or no fodder," and ride the issue.

Unless he represents the principles of that Convention of July 2d he represents nothing, and has no more right to claim the attention of the public than the Wizard Oil Man, or any other distinguished public personage.

THE GOVERNOR'S ORDER UPON DRAFTING.

We call attention to Governor Ramsey's Order providing for a division of the volunteer and militia force raised and now to be raised from this State among the several counties and townships of the State in proportion to population. This is most just and equitable, and cannot but meet with universal approval.

It is too evident to need argument, that where a county has already contributed its full quota of all the calls of the President, it shall not be required to provide an additional quota for some other county that has not done so.

The burdens of the war should fall equally upon all localities.

For instance, it is claimed that Steele county has furnished already two hundred recruits, being about twenty more than her entire quota of 1,000,000 men. Some townships are said to scarcely contain a man between the prescribed ages, fit for military duty. Who will say that such a county should be drained further to make up the quota of some laggard or spiritless county?

The same argument applies to townships. In Washington county the township of Afton is said to have furnished one half of its adult male population;—from the township of Oakland, about equally populous, on the contrary, it is asserted that but two or three have volunteered. Who will say that Afton must now be forced to make up the quota of Oakland?

Instances of the same kind can be multiplied: but they are not needed. There is such an evident justice about this order as to need no argument to justify it.

It will be easy for the people of any township to calculate the proportion which their population holds to the population of the whole State, and to ascertain approximately the quota of their township of the whole force raised and now to be raised in the State. Let them then ascertain by the enquiries of the assessors the number that have been already furnished of that quota and the balance is what they now have to furnish by volunteering or draft.

Citizens will do well to provide assessors with lists of names of those who have already entered the service, with the names of their companies and regiments. It is important that each township should have full credit for such of its citizens as may already enlisted.

SIBLEY CO. WAR MEETING.

Held at Henderson on the 9th inst., at 5 o'clock P. M. On motion, C. Renz was elected Chairman, and William Hartman Secretary.

The following resolutions were adopted:

Resolved, That it is the duty of the people of these United states to exert themselves to the most in maintaining the integrity and authority of this Government.

Resolved, That in our opinion, it is the duty of the Government to seize every means that nature lends, and the laws of war justify, in putting down this rebellion, and maintaining its integrity and honor.

Resolved, That inasmuch as the present aspect of the rebellion indicates a prolongation of the war, we unanimously endorse the call of the Government for 300,000 men, and we are willing to do all in our power to raise them.

Resolved, That there is no difference of opinion, among the people on the subject of the prosecution of war for the maintenance of the honor and integrity of this Government.

Resolved, That the Commissioners of this County be instructed to order a bounty of $25 to each man volunteering from this county, and that no of $5 per month to his family, provided that each volunteer shall allot out of his pay $5 per month to his family during his time of service, and in case of his death said sum shall continue until a pension shall be obtained by the family of such volunteer—he shall be, at the time of his death, entitled to a pension. The manner in which said sum shall be raised and paid shall be determined by the County Commissioners at their next meeting.

The resolutions were adopted with great applause.

A committee of five were appointed to circulate a private subscription paper, for private subscriptions for the benefit of the families of volunteers, and report on Monday evening next.

A committee of ten were appointed to go among the people to solicit enlistments.

Patriotic speeches were made by Hon. Mr. Severance in English, and Hon. Mr. Buck in German.

Ladies to the Rescue!

For the Press.

Within a very short time some five thousand soldiers are to leave Minnesota, to fight and if need be, to lay down their lives for the preservation of our country and the maintainance of our government.

There are many ways in which the ladies can do much to increase the comforts and alleviate the sufferings of these noble men, as they march forth to the field and lie sick in hospitals. You, ladies know best what they will need. Will you not then act, and promptly?

Many of you find both time and money to give parties, to go on pic-nics, and for the enjoyment of pleasures of all kinds. Will you not contribute of each, to the brave band of Patriots about to depart from our midst?

—The following is the order of Gov. Sprague of Rhode Island, for the enlistment of a colored regiment:

PROVIDENCE, August 8, 1862.

GENERAL ORDERS, No. 36.—The 6th Regiment, ordered by the Secretary of War under date of October 23, 1861, and orders issued therefor from this Department, No. 63, Dec. 23, 1861, will consist entirely of colored citizens. Enlistments will commence immediately. Camp will be established under direction of Gen. Robbins, who is directed to organize the regiment.

The Quartermaster-General will furnish rations and equipments on requisition.

Our colored fellow-citizens are reminded that the regiment from this State in the Revolution, consisting entirely of colored persons, was pronounced by Washington equal, if not superior, to any in the service. They constituted a part of the quota from this State, and it is expected they will respond with zeal and spirit to this call.

The Commander-in-Chief will lead them into the field, and will share with them, in common with the patriotic soldiers of the army of the Republic, their trials and dangers, and will participate in the glories of their successes.

By order of the Commander-in-Chief.

General Banks Encounters Stonewall Jackson and Ewell.

A Fierce and Bloody Battle!

Night Closes the Carnage!

THE BATTLE DRAWN!

Loss 2,000 or 3,000---About Equal on both Sides.

BOTH ARMIES REINFORCED!

Gallant Conduct of Gen. Banks.

HEADQUARTERS OF ARMY, 6 MILES Beyond Culpepper, Va., August 10.

(*Tribune dispatch.*)—A battle was fought yesterday between Banks and Stonewall Jackson. Gen. Bayard, of McDowell's corps, with a cavalry brigade, had been engaged the day before in the advance near Rapidan river, skirmishing and manœuvering, and taking prisoners, and ending with a slight loss, baffling the efforts of a large force to surround and cut them off.

Yesterday morning he was engaged for some hours before Banks came up with four regiments, the 1st Pennsylvania, 1st Maine, 1st Rhode Island, delayed and embarrassed the enemy's advance.

The rebels under Jakson and Ewell had crossed the Rapidan in force, and their advance guard, 5,000 strong, was attacked by Banks yesterday afternoon about six miles south of Culpepper Court House.

The fight was almost wholly with artillery at first, but the infantry became engaged about 6 o'clock and a determined and most bloody contest ensued. Banks' right wing under General Williams' suffered severely.

The rebel position was in the woods where the troops which attacked them were obliged to cross open ground. It was not until about 6 o'clock that it became evident that the rebels were attacking in force. Previous to that, there had been rather desultory cannonading. The whole rebel force suddenly attacked in overwhelming numbers at all points and nearly all their regiments had full ranks.

At half past seven o'clock, Gen. Pope arrived on the field from Culpepper, accompanied by McDowell and part of McDowell's corps. The battle was substantially over and Banks holding the same ground he occupied at the beginning.

After the arrival of Gen. Pope, there was an artillery contest that lasted at intervals till near 12 o'clock. The night was unusually clear and moon full.

The rebels planted a battery against McDowell's centre, where Gen. Pope and Gen. Banks were bringing most of them under fire. The Generals and staff were so near the rebel lines that a sudden charge of rebel cavalry was made from the woods a quarter of a mile off with a view to capture them. The attempt was repelled by a vigorous fire from McDowell's troops, and the Generals and the staffs left the ground under a fierce fire from the rebels and their troops. The fire of rebel batteries was afterwards silenced. Pope arriving, he sent fresh troops to the front to take the place of Banks' exhausted columns. The enemy did not renew the attack except by artillery.

Banks was on the field through the action, and constantly under fire. His handling of his troops and personal gallantry are highly praised by his officers. The bravery and good conduct of troops were conspicuous during a large portion of the fight. When overpowered by numbers some regiments retreated in disorder. Col. Knight of the 46th Pennsylvania is dangeriously wounded. Lieut. Col. Selfrig is severely wounded.

Gen. Banks is rather severly hurt by an accident. A cavalry trooper ran against him, striking him heavily on the side. The 2d Massachusetts was in the hardest of the fight and suffered severely. The 5th Connecticut, 27th Indiana and 46th Pennsylvania are badly cut up. Rebel Gen. Wilder was wounded.

Losses are very heavy on both sides—not less than 2,000 or 3,000 killed, wounded and missing on each side. Some prisoners are taken by both. Jackson and Ewell were both present in battle. Reinforcements under Gen. A. P. Hill to amount of 18,000 men reached rebels last night at about the same time that ours arrived. Skirmishing in front is going on this morning, but troops on both sides are so much exhausted by fatigue and intense heat that no serious encounter is expected to-day. No details have been officially received.

It is represented that Gens. Prince, Auger and Geary were wounded.

NEW YORK, August 11.

The *Herald's* account of the fight says General Geary's brigade of Auger's division had advanced and maintained it admirably. Geary's brigade consisted of the 5th, 7th and 29th Ohio, 28th Pennsylvania, and Snapp's battery.

No sooner had their troops taken their places than the rebels opened a musketry fire upon them from two sides and in front, aided by batteries before mentioned. The batteries in the mountains also kept up a most destructive fire, but our troops never faltered. The fight became general at half past five P. M., and continued until darkness ended the carnage. I have witnessed many battles during this war but none where the tenacious obstinacy of American character was so fully displayed.

Our troops fought like veterans. No sooner did a volley of musketry or a discharge of artillery mow down the ranks of a regiment, than gaps were closed up and a new front presented. Regiment vied with regiment and brigade with brigade, in deeds of valor and few instances indeed were there where even individuals faltered. The 8th and 12th regulars led by Capt. Pitcher, did excellent service. Capt. P. was wounded in knee by a musket shot but kept the field until the end.

When the firing of musketry ceased at dark, the artillery on the mountain kept up a random firing till near midnight.

At dark our troops withdrew to a small copse of wood where they were joined soon after by corps of McDowell and Sigel who formed their rear.

At 9 P. M. the hungry and weary troops of Banks were relieved and fell back a half mile, resting on their arms. We took several rebel prisoners.

It is certain that rebel Gen. Wilder is killed. Gen Jackson is wounded slightly in hand. Gen. Saxton is mortally wounded.

Rebel force was from 40 to 50,000. Gen. Auger's wound is not dangerous. Gen. Geary is seriously wounded in arm. Gen. Banks had a horse killed under him.

Culpepper is one vast hospital, though most of the wounded will be sent to Washington for treatment.

Two pieces of artillery and a large number of small arms were captured from the enemy.

The *Times* Washington dispatch contains the following:

Governor Sprague was roused this morning at daylight, and started immediately for Gen. Burnside's army.

It has been believed for some time that Generals Burnside and Pope were in some way to co-operate in the present movements, and the sudden sending for Governor Sprague is interpreted as indicating speedy activity.

Matters are not stagnating at Fredericksburg, by any means. It is now considered certain that there has been heavy fighting at Gordonsville, on Saturday afternoon and perhaps to-day. Two trains of cars left Alexandria this morning for wounded. Advices from other quarters indicate that our movement had not been confided to Pope's army alone. Gen. Pope is understood to be too busy to send reports.

FROM WASHINGTON.

Wounded from the Late Battle.

WASHINGTON, Aug. 11.

Among the passengers by the steamer Northern Light to-day, was Dr. J. S. Mackay, chief of the Diplomatic Bureau of the Department of State, who goes out as bearer of important dispatches to our legation in the South American Republic.

During last night trains arrived from Culpepper, bringing a number of officers wounded in the late route and skirmishes in that vicinity. They are mostly wounded in the arms and legs, although one or two are more seriously injured in other parts of the body, one of them having received no less than four bullets in his legs. Vehicles were in attendance on the arrival of the trains, and the sufferers were speedily removed, many of them to public hospitals.

The following circular has been issued to-day:

WAR DEPARTMENT, WASHINGTON, August 11, 1862.

To Military Commandants, Provost Marshals, U. S. Marshals and Police Officers:

You will receive herewith an order of the War Department to prevent the evasion of military duty and for the suppression of disloyal parties, dated the 8th of August, 1862. This order to be efficient is necessarily very comprehensive in its terms, and its proper execution requires the exercise of sound judgment and discretion by the officers to whom its enforcement is entrusted, and to guide you in its execution, the following instructions are to be observed:

First—The order comprises classes of persons, namely, those who are about leaving the United States to evade military duty, and those who fear the same purpose leave their own State, leaving the United States until military draft is perfected, is absolutely prohibited, but it was not the intention of the order to interfere with the transit of any person from State to State, but those who desire to evade military duty. The order will authorize the detention of any person leaving his own State, county or military district.

Second—Any person detained may be relieved on giving bonds to the United States with sufficient security in the sum of $1000 conditional for the performance of military duty if he should be drafted or the production of the proper substitute.

Third—Immediately a report is to be made to this office of all persons detained, with the cause of their detention. Further—you will exercise the powers of arrest and detention with caution and forbearance, so as to avoid giving annoyance or trouble to any persons excepting those who are seeking to evade the performance of their duty to their country.

Fourth—The Governors of their respective States are authorized to give passes or permits to their citizens desiring to leave their State without intent to evade military duty.

By order of the Secretary of War.

Signed, L. C. TURNER, Judge Advocate.

The Fight at Kirkville!

The Rebels Overtaken again and Routed!

HUDSON, Mo., August 10.

Col. McNiel again overtook Porter's guerrillas yesterday, at Storeken, in the western part of Macon county, and after a sharp fight routed them, killing and wounding a large number and capturing many horses. The rebels were scattered in all directions. Some of the prisoners captured had taken the oath and given bonds.

HUDSON, Mo., August 9.

Additional particulars of the fight between Col. McNeil's command and Porter's guerrillas, at Kirkville, some days since, have been received here. One hundred and twenty-eight dead rebels were found on the field and buried. Their entire loss could not have been less than three hundred.

It is estimated on reliable authority that fully two thousand of Porter's gang have deserted and are scattered, several hundreds of them being prisoners. The balance of this force, which was originally three thousand, are rapidly retiring, pursued by Col. McNeil's troops in four columns. The Federal loss was eight killed and twenty-five wounded.

Deserters from Fort Morgan.

NEW YORK, August 10.

Port Royal dates of 28th, says that the gunboat Unadilla had captured the British steamer Madonna, while trying to run the blockade. She had been previously struck while trying to run by Fort Pulaski. She has a heavy cargo.

A letter dated off Mobile 31st, reports six men deserted from Fort Morgan, reaching the Frigate Susquehanna with considerable risk. They had all their arms and accoutrements and agreed to shoot each other rather than be captured by the rebels.

They report the garrison of Fort Morgan from 600 to 800, many of whom are foreigners and but little resistance will be made by two-thirds of the garrison to our forces.

WE are pleased to learn of the continued good success of the Mutual Life Insurance Company of Wisconsin, throughout the northwest. This, in fact, is the only Life Insurance Company, whose interests are identified with the northwest, and whose patrons are not liable to be affected by the high rates of exchange, that often rule in favor of eastern cities. This Company selects its risks with the greatest care, and confines its business to WISCONSIN, MINNESOTA, and NORTHERN IOWA, the healthiest section of our Union, and as a consequence the ratio of loss, to amount insured, is very small, amounting last year, to only a little over one-fourth of one per cent. It stands among the first companies in the country, in point of security for its policy holders, and first in promptness to pay losses. This Company grants WAR PERMITS to all its members, and to all who may insure, and afterwards enlist, or be drafted, into the service of the United States. For particulars enquire of O. CURTIS,

General Agent for Minnesota, corner of Third and Minnesota-sts., near Thompsons Bank.

HE SAVED HIS CASSIMERE!—A FACT!

BY OSSIAN E. DODGE.

EDITORS OF THE PRESS: Being in one of your Gentlemen's Furnishing Stores a few days since, and hearing the merchant praising the texture and durability of the "Harris Cassimeres,"—I was reminded of a war item that is good enough to keep stirring:—and at the solicitation of a few of your subscribers I give it to you in manuscript.

Edward Harris, Esq.,—the manufacturer of the "Harris Cassimeres,"—resides, and has his manufactory in Woonsocket, Rhode Island,—where he gives to over six hundred hands steady employment the year round:—uses over seven hundred and fifty thousand pounds of wool annually—(some of the best of which is bought in Minnesota,) makes over three hundred varieties of patterns and styles of the "Harris Cassimeres," and has the past year—during the war times, run his extensive mill at an expense of over three thousand dollars a day. So much for introduction.

Mr. Harris is a plain, benevolent looking man, and would sooner be taken for a venerable Elder among the Baptists,—or a leading exhorter among the meek and lowly Methodists than what he is,—a sharp, active, shrewd, *live* financier and millionaire.

In the spring of 1860, Mr. Harris stepped into his wholesale house in New York—morning—and just as he crossed the thros' old, he saw to his astonishment, one of the Southern shiver-lry kick over a pile of the finest and most fancy grades of the "Harris Cassimeres" and exclaim with an oath—

"Blast em! I wish they were all in hell!"

"Why so, my young friend?" inquired Mr. Harris, stepping up to the excited Southerner and speaking in tones of reverential kindness.

"Because I've just found out that this infernal Harris who manufacturers these goods is a stinking Abolitionist, and that he is the man who made a present to John Brown of five hundred dollars when we had the hoary old sinner in jail!"

"And for this, you certainly don't wish that these fine cassimeres were all sent to hell!"

"Yes I do—*every one of 'em!*"

"Well now, my young friend. If you were to meet Mr. Harris and make his acquaintance, I doubt not that you would like him—notwithstanding his abolitionism!"

"*Like* him! I'd sooner like the *devil!*"

"And do all Southern merchants feel that way?"

"If they don't, they soon will!"

"They of course acknowledge that the 'Harris Cassimeres' are unequalled for texture or durability by the French or English manufacture?"

"Yes; we willingly acknowledge their *superiority*, but since I have found out who Harris is, I wish his goods were all in hell!"

"You certainly cannot be in earnest my dear sir!"

"Yes I am—*in bloody earnest!*"

"Then I'll tell you how to secure your wish!"

How?

"*Buy them!*"—and before the astonished slaveholder could recover from the shock given him, Mr. Harris stepped back into the office and gave directions that no more goods be sold to go South of Mason and Dixon's line, unless they were *paid for in advance.*

"Some old missionary, ain't he?" inquired the Southerner of a clerk standing near—pointing to the receding form of the New England millionaire.

"That sir!" exclaimed the clerk—with a merry twinkle in his blue eyes—"is Mr. Edward Harris himself."

"Good heavens!" gasped the astonished man,—realizing in a breath that by his impetuosity he had imperiled his financial prospects,—"I must step in at once and apologize for the rudeness of my joke! T'was only a joke!"

Passing into the office with an awkward air of embarrassment, he advanced to Mr. Harris and exclaimed:

"I—I—beg pardon, Mr. Harris, for talking so plain to you—but, but the fact is sir I, I took you to be a *missionary* and thought I'd—I'd have a little joke; I was only in fun sir! I was only in fun; and to prove it I will now give you an order for two hundred assorted pieces of Harris cassimeres—on *only six months time!*"

"Don't let the incident trouble you in the least," remarked Mr. Harris: "I am only a plain, hard-working man, and have worked my way up from a boy among the hard-fisted, greasy mechanics of New England. I make no pretensions to aristocracy or noble blood, and always treat as an equal the poorest lad in my employ, if he is *honest and industrious.* Your explanation is quite unnecessary, and I shall be happy to fill your order. But the goods must be *paid for before leaving the building*, as we are giving no more credit to slaveholders. Present appearances indicate that we shall soon have trouble with the South. And if Southern *political brokers* fail in their speculations I do not intend that any of their notes in my possession shall increase their embarrassments."

The Southern merchant was astonished! He was grieved! He was indignant! He swore—*a little!* But it didn't do any good. Hr. Harris' honest, good-natured countenance only beamed with serenity, benevolence and Yankee firmness. He was ready to serve his excited customer, but he must receive bankable *funds*, instead of Southern *no'es.*

As the goods were in great demand in the Southern market, and *must be had*, a cash purchase to the amount of one thousand dollars was made, and the goods shipped for Cottondom; but the indignant Southerner swore in oaths loud, long, ringing and fearful, that *he* would never wear the cussed stuff—no, indeed, *not a bit of it!*

And now comes the nub of the joke.

The merchant was captured as a *spy* a few months ago, in Washington, and was sent under guard to *Fort Hotel de Warren*, in Boston harbor.

While passing through Boston, it was his luck to meet Mr. Harris at the depot, and 'twas his mortification to have it noticed that his pants were made from one of the identical pieces of Harris' cassimeres which he had so lustily wished in hell.

Seeing that Mr. Harris noticed and recognized the goods, he exclaimed with a sardonic sneer, "Harris, you praying old hypocrite, I curse you for a prophet! You said that if I wanted your cursed old cassimeres in hell, I'd better buy 'em! I did buy 'em, and I reckon they have gone there. At any rate, my store was burned to the ground, and what wasn't destroyed by fire was stolen by thieves. Again I curse you for a prophet!"

With no desire to aggravate the sufferings of the infatuated rebel, Mr. Harris turned upon his heel and left him in sorrow. The next week, however, he forwarded as a present to the rebel, enough yards of his best cassimere for an entire suit of clothes, with the brotherly remark that although his old customer erred in politics and christianity, he would find that the Yankee abolitionists were *brothers to all*, white and black, in prosperity or adversity.

The rebel received the goods—as they were sent, in a spirit of kindness—and sent back the following reply:

FRIEND HARRIS: Your brotherly present was this day received and I return thanks. If I am ever permitted to again return to my southern home, I shall try to disabuse my friends of the belief that New Englanders are all fanatics, who labor only for civil war and bloodshed. You have my gratitude and respect.

I have the honor to be your o'bt serv't.

The affair has created no little excitement among the financial circles of Boston, and it is hoped that at the close of the war (which is shortly expected) that this little incident may be used as an opening financial wedge to reorganize a friendly feeling with the South.

The whole affair presents considerations worthy of remembrance.

1st.—Had the Southerner been aware of the presence of Mr. Harris, he would not have damned his goods.

2d.—If he had not damned them, Mr. Harris would have continued to give credit to the South; and would consequently have lost by the rebellion over a million of dollars, as it was, he lost but a few hundred.

3d.—By showing a spirit of brotherly kindness, Mr. Harris changed the rebel prisoner's insulting hatred to an expression of respect and gratitude.

4th.—It proves the truth of the adage that "though fiction be *strange*—truth is *stranger still.*"

The Assassination of General Robert L. McCook.

RETALIATION BY HIS MEN.

GUERILLA WORK IN TENNESSEE.

Special dispatch to the Cincinnati Gazette.

NASHVILLE, August 7.—The remains of General Robert L. McCook arrived by the Murfreesboro train, and are lying a the St. Cloud Hotel. He was murdered near Selma, Alabama. He was sick, and was riding in an ambulance in advance o his brigade with a small escort. He inquired at a house for a good place to camp. The inmates gave directions which he followed, and was surrounded by a guerrilla band, one of whom reached a pistol into the ambulance and shot him in the side. The guerrillas then captured several of his escort and escaped. Those of the escort who were not taken, gave the alarm to the brigade as soon as possible, which came up and burned the house. The inmates had fled. It is reported that some persons were hung in the neighborhood by our soldiers.

The guerrillas fired on a train going south on the Decatur road to-day between Spring Hill and Columbia, and wounded several persons. It is supposed there were two or three hundred guerrillas. They had placed cr..sties on the rails, but the engineer ran on pushing the obstructions off.

SKETCH OF THE DECEASED.

Gen. Robert L. McCook was of the celebrated "fighting family at McCook," the several sons of Judge McCook, of Ohio, all of them in the Federal service. He was a native of Jefferson county, Ohio, and at the time of his death was in his thirty-fifth year. He did not have a military education, but he had what West Point is not sure to furnish, military genius and determination in the cause. He left a good law practice at the outbreak of the rebellion, and was soon at the head of the 9th regiment, the first German regiment of Cincinnati. He set himself at work energetically to qualify himself and his regiment for the field.

The first service of the regiment was in the Western Virginia campaign. Last Fall it was transferred to Kentucky. Col. McCook's gallantry at the battle of Mill Spring was rewarded by a brigadiership.

WASHINGTON, Aug. 7.—The editors of the Harrisburg (Pa.) *Patriot*, were confined in the old Capitol prison to-day, on the charge of retarding enlistments by issuing bogus placards, stating that negro regiments were to be mustered in with white ones. The authorities are determined to punish all attempts to injure recruiting.

Rear Admiral Foote has taken his position here at the head of the Bureau of Enlistment and Recruiting in the Navy Department.

The new currency stamps are about to be issued. Orders for $100,000 worth came in to-day.

The rebels have made a new objection to the rules agreed on for the exchange of prisoners, and a conference is now going on to settle it. Three thousand rebel prisoners are now in James river awaiting the result.

Ex-Senator Nicholson, of Tennesse, has been arrested on charges of treason.

Military Changes and Rumors.

NEW YORK, August 8.—Special to the New York *Tribune* from Washington says Richard Busteed of New York is appointed Brigadier-General of volunteers to report to Governor Morgan.

The arrival of Cassius M. Clay is now hourly expected by the government. His friends claim that he and Gen. Fremont are to have full military control of the territory west of the Mississippi.

Dismissed the Service.

WASHINGTON, Aug. 8.—By direction of the President, Lieutenant Alonzo Miller, 51st Ohio, and 2d Lieutenant W. C. Hutchins, 17th Wisconsin, are dismissed the service of the United States.

Drafting.

In case a draft is resorted to by the Government, the fines and penalties for the non-appearance, on muster call, of the drafted man—the law making him a *deserter* if he does not appear—hold him to a very rigid account. There is no escape from a draft; its requirements must be complied with, or the penalties, which are very severe, must be met.

To avoid these unpleasant results and to fill up the army, which needs recruits, very liberal bounties are offered to volunteers. But the men who do not volunteer will loose these bounties.

THE Albany *Argus* says of the Government:

If it should sound its negro whistle, five slaves would rally to the Stars and Bars to one that would gather to the Stars and Stripes. The men who own them would control them; but we who stand at a distance and offer them questionable boons of liberty and *deportation*, of enfranchisement and *expatriation*—we, who while inviting them to our flag, would *repel them from our soil.*

We should think so. But offer them freedom on their own native soil—that which their labor has redeemed from the wilderness and made fruitful and hospitable to man—and the case would be bravely altered.—*New York Tribune.*

—A VENERABLE conservative statesman, fresh from his labors in Congress, recently met in our city the representative of the most extensive and powerful empire on earth, and spoke to him exultingly of the influence and measurable success of the numerically small party in moderating and guiding the National councils in this stormy crisis. "My friend" gravely, responded the embassador "the outcrated got to deceive yourself. Your country is in revolution, and no revolution ever ends in the success of the middle party. For yours, but one of two results is possible.—Disunion or Abolitionism." *New York Tribune.*

THE GREAT WAR MEETING AT THE CAPITOL.

PRESIDENT LINCOLN'S REMARKS.

HE TAKES THE RESPONSIBILITY.

Washington dispatch to the N. Y. World.

WASHINGTON, August 6.

The immense meeting at the east front of the capitol this afternoon was preceded by the ringing of bells, the firing of cannon, and music from the Marine band. The portico and platform were occupied by many ladies, and military, civil and naval officers of distinction.

No ruler of a nation was ever received with more enthusiasm that President Lincoln when he took the platform this afternoon. Thousands looked to him as an oracle. They were burning for one determined sentence, one significant word, one glowing pledge of leadership. All felt that at this juncture such an utterance would ring through the land and be worth ten thousand times ten thousand men. An honest disappointment then fell like rain upon the people when Mr. Lincoln, after taking the responsibility of General McClellan's campaign, positively refused to utter one syllable more. The historic words remained unspoken. Congressmen, governors, and the general throng feared and manifested a genuine regret nor was the sentiment confined to any party or clique.

THE PRESIDENT'S SPEECH.

Three cheers were given for the President, and, after the band had played "Hail to the Chief," the President, in response to impatient calls, advanced to the front of the platform and spoke as follows:

FELLOW CITIZENS: I believe there is no precedent for my appearing before you on this occasion [applause], but it is also true that there is a precedent for you being here yourselves [applause and laughter]; and I offer, in justification of myself and of you, that, upon examination, I have found nothing in the Constitution against it. [Renewed applause.] I, however, have an impression that there are younger gentlemen who will entertain you better [Voices—"No, no: none can do better than yourself; go on."] and better address your understanding, than I will or could, and therefore I propose but to detain you a moment longer. [Voices—"Go on! Tar and feather the Rebels!"] I am very little inclined on any occasion to say anything unless I hope to produce some good by it. [Voices—"You can do that; go on."] The only thing I can think of just now, not likely to be better said by some one else, is a matter in which we have heard some other persons blamed for what I did myself. [Voices—"What is it?"] There has been a very wide-spread attempt to save a quarrel between Gen. McClellan and the Secretary of War. Now, I occupy a position that enables me to believe, at least, that these two gentlemen are not nearly so deep in the quarrel as some presuming to be their friends. [Cries of "Good."] Gen. McClellan's attitude is such that, in the very selfishness of his nature, he cannot but wish to be successful, and I hope he will; and the Secretary of War is precisely in the same situation. If the military commander in the field cannot be successful, not only the Secretary of War, but myself, for the time being, the master of them both, cannot be but failures. [Laughter and applause.] I know Gen. McClellan wishes to be successful, and I know he does not wish it any more than the Secretary of War for him, and both of them together no more than I wish it. [Applause and cries of "Good."] Sometimes we have a dispute how many men Gen. McClellan has had, and those who would disparage him say he has had a very large number, and those who would disparage the Secretary of War insist that Gen. McClellan has had a very small number. The basis for this is, there is always a wide difference, and on this occasion perhaps a wider one, between the grand total on Gen. McClellan's rolls and the men actually fit for duty, and those who would disparage him talk of the grand total on paper, and those who would disparage the Secretary of War talk of those at present fit for duty. Gen. McClellan has sometimes asked for things that the Secretary of War did not give him. Gen. McClellan is not to blame for asking for what he wanted and needed, and the Secretary of War is not to blame for not giving when he had none to give. [Applause, laughter, and cries of "Good."] And I say here, so far as I know, the Secretary of War has withheld no one thing at any time in my power to give him. [Wild applause, and a voice, "Give him enough now!"] I have no accusation against him. I believe he is a brave and able man, [applause,] and I stand here, as justice requires me to do, to take upon myself what has been charged upon the Secretary of War as withholding from him. I have taked longer than I expected to, [cries of "No, no, go on,"] and now I avail myself of my privilege of saying no more.

FLORENCE SEWING MACHINE AGENCY.

One door East of Davenport's Bookstore, on third street.

The "FLORENCE" SEWING MACHINE make FOUR DIFFERENT stitches on one and the same machine. They the LOCK, DOUBLE-LOCK, KNOT AND DOUBLE-KNOT, all of which make the seam alike on both sides of the fabric. Either or all can be produced while the Machine is in motion.

They have the REVERSIBLE FEED MOTION, which enables the operator to have the work carried either way, or to change the direction, and fasten the end of seams, which, together with making a long and a short stitch, is done simply by turning a thumb screw.

Their motions are all positive. There are no springs to get out of order. They are so simple that the most inexperienced can work them perfectly and with ease. They are NOISELESS, and can be used where quiet is necessary.

They are the FASTEST SEWERS in the WORLD, making 1000 stitches to each revolution. They all use dressers. Their stitch is the wonder of all, because of its combined ELASTICITY, STRENGTH and BEAUTY.

Prices—No. 1, $45.00; No. 2, $57.00; No. 3, $75.00; No. 4, $75.00; No. 5, $77.00; No. 6, $85.00; No. 7 cabinet opener, $90.00; No. 7 Cabinet Cased, $95.00. Mahogany $97.00. Rosewood $105.00. Fasteners and all necessary tools included in the above prices.

On hand different kinds of lower priced Machines. Call and see the "Florence Machines."

PRIVATE BOUNTY.

Traitor hands are clutching at the Nation's vitals, the shadows lie deep and dark upon our loved country, and all the air is heavy with the wail of broken hearts and desolated homes,—in such an hour, how fitting that every patriot recognize the duties and obligations of the crisis.

Prevented, by the inexcusable nature of confidential business engagements, from offering my life upon the altar of my bleeding country, I hereby agree to pay FIVE DOLLARS per month each, for the support of five families, represented in the person of Husband, Father or Guardian, in any of the companies now forming in St. Paul, for service in the armies of the Union, payments to date from the mustering in of the several applicants (upon the certificate of proper official character), and continue during the ensuing six months, if in actual service.

May God nerve the avenging arms, that soon the shadows may be lift ed from our stricken land, and our full hearts thrill and pulses tingle with the inspiration of victory, real and complete.

WILLIAM R. CARVER.

The application of the above beneficies is confined to those who shall enlist and report themselves after the publication of this notice. au5-w

HOME

INSURANCE COMPANY,

NEW YORK.

Extract from Third Annual Report of the Superintendent of the Insurance Department of the State of New York. WM. BARNES, Superintendent.

There are now ninety-five joint stock fire insurance companies incorporated by the State of New York, engaged in the transaction of business; of these companies, fourteen only received premiums during the last year, amounting to over one hundred thousand dollars; four only received premiums above the sum of two hundred thousand dollars, and the premium income of one only exceeded three hundred thousand dollars. The premium receipts of this Company, the HOME, with a capital of $1,000,000, were $829,983.33. The premium income of thirty of the smaller companies was $8,578,865 only, with capitals, however, amounting in the aggregate to the sum of $4,999,999.

The state of things should be improved; the premium income of the mass of our fire insurance companies is by far too small for their capitals, and inadequate to the proper support of a separate and independent corporation. The experience of the HOME, PHOENIX, (of Brooklyn) and some other companies, has demonstrated that, with proper skill, tact and sagacity, business can be increased and managed to an indefinite extent, with entire safety, and even additional security to the company. We have now the machinery and organization in working order for nearly one hundred joint stock fire insurance companies. In the course of a few years their business can be safely doubled, and even quadrupled, without doubling or quadrupling the yearly expenses. Any considerable expansion of business must of course be mainly effected through the instrumentality of reliable, safe, and well managed agencies. The premium income of the HOME amounts to nearly one-eighth part that of the ninety-five companies combined, so that eight corporations like the HOME could conduct the entire business of all these companies. If each company transacted the same amount of business as the HOME, the aggregate premium income would reach the enormous amount of over seventy-eight millions of dollars per year. Our companies are not too numerous for the great future of this country if managed on the progressive scale demanded by the spirit of the American people.

The annual statement of this our foremost local fire and inland company, made up to the first of January last, shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, President, A. F. Wilmarth, Vice President, and John Metjee, Secretary, those well accredited officers very justly say: "The well-known reputation of the HOME for fair and honorable dealing, together with its capital of one million dollars, and surplus of over half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our State, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the first of January last summed up to $1,521,258.08, against an actual liability of only $55,080.43; and, moreover, it is worth noting that the assets are all of the very first class. The balance in bank in cash was $124,331.14, very nearly enough to set up an ordinary company; bond and mortgages $9,029.53, secured on real estate worth $ 15,000, and then government and other stocks, equivalent to cash and convertible into cash any day, $329,936. Any one not satisfied with the security of the HOME as an insurance institution, must be hard to please.

In 1861 the HOME wrote $1,065,715.48, taking $239,993 premium, and paid losses $335,775, including some losses for the year 1860. A dividend of ten per cent. was paid on the million capital; and after reserving an ample reinsurance fund, the company shows a "nett surplus" of $160,644 clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

LA CROSSE AND ST. PAUL

PACKET COMPANY.

SUMMER ARRANGEMENT

During the summer of 1862, till the close of navigation, the LaCrosse and St. Paul Packet Company, having completely equipped their Line and made large additions to their business facilities, will offer to shippers and passengers on the river greater inducements and conveniences, and QUICKER TIME, than was ever offered by any company on the river.

All the boats on the Chippewa, Minnesota, St. Croix and the upper Mississippi rivers, and the different lines of stages north of LaCrosse, will, the coming season run to connect with the Davidson boats and the LaCrosse and Milwaukee Railroad.

The LaCrosse and St. Paul Packet Company will run a

PASSENGER AND FREIGHT LINE.

The former will number two first class boats—the nicest and fastest on the river. They will be the McCLELLAN and NORTHERN BELLE.—The first will be the Lightning Line, making the run from La Crosse to St. Paul in EIGHTEEN HOURS, and returning will leave here in the morning, and arrive at La Crosse in twelve hours time to connect with the evening train, by which our passengers will make close connection and reach Milwaukee in time for cars, or boats on the Lake in TWENTY HOURS FROM ST. PAUL, and reach Chicago next morning, by Minnesota Junction or Milwaukee, in just TWENTY-FOUR HOURS FROM LEAVING ST. PAUL, and in time for close connection East! This will be by twelve hours the quickest time between these three cities ever made! Nothing but passengers, the mails, express matter, and express goods will be carried on these boats, which will be furnished in the best of style. Passengers will then have daylight to view the grand beauties of the river

THE CITY.

Hon. M. S. Wilkinson arrived in town yesterday morning, and is stopping with Col. Thompson.

Messrs. Fairchild & Pease sell a large amount of household goods at public auction, this morning, at ten o'clock, in front of their rooms.

Fifth Regiment.—Colonel Hubbard writes that the health of the regiment has greatly improved. The number of men now fit for duty is greater than it has been for several months before.

War Speeches.—Rev. Mr. Tunstal will speak as follows: At Minneapolis, this (Tuesday) evening; St. Anthony, Wednesday evening; and at Stillwater on Thursday evening.

Newspaper Change.—The St. Croix *Monitor* published by D. A. Caneday Esq., succeeds the Taylor Falls *Reporter* published by F. H. Pratt, Esq. With regret at parting with the *Reporter* we welcome, its successor.

Correction.—In our notice of the meeting of the Young Men at Armory Hall, on Saturday evening, we accidentally omitted the name of Major Cullen in the list of orators.

William Grant was on Saturday commissioned as First Lieutenant in the "Hickory Guards," of Hennepin county, for the 6th regiment. Henry A. Partridge was commissioned as Second Lieutenant. The company now numbers forty-four men.

Attention Firemen.—The members of Hope Engine Co. No. 1, are requested to attend a Regular Monthly meeting, to be held this evening.

By order of the Foreman.

Edwin L. Fryer, Sec.

Seventh Regiment.—Lieuts. Mars' of Fillmore county, Buck of Sibley county, and Olstrom of Goodhue county were in town yesterday, and duly commissioned and mustered into service. They will immediately return to their respective counties and commence to muster in the men.

The Young Men met and had a parade through the streets yesterday. There were thirty-eight men in the ranks. We are confident, from what we saw of these, that they will render a good account of themselves. They now have forty-six men enrolled, and will meet this morning at eight o'clock, at their armory, to be sworn in.

Provision for Families.—At a meeting of the Commissioners of Ramsey county held August 11th, 1862, the following resolution was adopted:

Resolved, That a sum not exceeding five dollars a month be appropriated for the county of Ramsey, for the relief of the families of such persons as are mustered into the service of the United States from said County, and are not otherwise provided for, to be continued during their term of service. F. M. METCALF, Co. Auditor.

Excitement at Hughson's.—Since Eg. Hughson has commenced giving away their stock of boots and shoes, his store has been the scene of great excitement. He has employed three additional clerks to wait on the ladies, so anxious are they to secure good bargains. He has a small stock yet, which he will probably get rid of to-day, and then hurrah for the army! The Grenadier Guards will then be filled up speedily. Success to you, Hughson: you're a good egg.

Ingersoll's Hall was crowded to overflowing with the business men and citizens of the city, last evening, to devise ways and means for the encouragement of enlistments and to provide for the families of volunteers. Mayor Prince was the Chairman, and C. D. Gilfillan Secretary. A few speeches were made and much enthusiasm prevailed. A committee was appointed for the purpose of raising money, consisting of three from each ward and three from the townships; and another committee of six—J. C. Burbank, W. H. Forbes, Wm. Dawson, Peter Burkly, Horace Thompson and E. Rice—to attend to the distribution of it. Nearly $5,000 was raised at the meeting. The different committees will canvass their respective wards to-day for further subscriptions, and report the same at an adjourned meeting this evening, at the Hall.

Young Men's Guards.—While passing down street, Saturday evening, a business man called out—Hallo! do you belong to the Kid Glove Company? said the party addressed—No Kid Gloves but those Mother Nature gave. He was one of the Young Men's Guard.

Ever since the organization of the Company it has been the desire of many to have a uniform, but the great chance in their First Court Martial. At our next meeting we can fill the Company to a regiment—voting in Council a new one on the subject of uniform and equipments. Our new Co. [illegible] pledges were manifested this evening to a Company fund, to be equally distributed among the officers and privates exceeding all bounty money in this State. No one shall enlist for aught, while here or in camp. Our Treasurer has received $225.00 cash. Edward Rice gives his horse and carriage, to be sold for cash. Many of our company can count their money by thousands, who never wore Kid Gloves in their life. Any man who will enlist with us and fight with us, is a gentleman good for us to camp with. Come, boys, let us all fight.

One of the Young Men's Guard.

G. A. Hazeltine, Secy.

Ten Kendall.—We rejoice to learn that Corporal J. J. Kendall of Co. H, Minnesota First, who was supposed to have been killed at Savage station, has been heard from. He was wounded in the left hand and taken prisoner to Richmond, Corp. K. was employed in this office up to the time of the breaking out of the war, when he was one of the first to enlist. He was beloved by all the craft, who will hear of his safety with unfeigned self-faction.

Steamboats.—The Northern Belle is the boat down to LaCrosse this morning, and the Key City this evening goes to Dunleith.

The Canada from St. Louis came in and left yesterday.

The Albany went up the river last evening.

The Clara Hine and Antelope made their regular trips.

James Maloney has been authorized to recruit a company for the 8th regiment Dakota county, and will visit, for that purpose, the several towns.

The parting of the Baptist Sunday School with its beloved Superintendent, Geo. W. Prescott, and the teachers who have entered into the service of their country in the Young Men's Guards, was affecting in the extreme.

Addresses were made by the Rev. Mr. Butterfield of Iowa, Rev. Mr. Pope, Deacons Cavender and Rogers.

This school has given its Superintendent and three teachers, taking from the Church one deacon, one trustee and four members.

Mr. Prescott's resignation was not accepted, and Dr. Davoll formerly of Brooklyn, New York was chosen to supply his place during his absence.

Teachers' Association.—The Minnesota Teachers' State Association will meet in St. Paul on the 37th and 38th inst.

It is always customary, on such occasions, for the citizens to entertain the delegates to the Convention *free gratis*.

We trust that the citizens of St. Paul will not allow themselves to be excelled, on this occasion, by other portions of the State, in manifesting their hospitality.

Open your doors and give the childrens' teachers such a hearty welcome that they will forget the fatigue of the past year's toil, and go forth from the Association with renewed zeal in their calling.

Messrs. Gates and Hazeltine will canvass the city to see who will entertain teachers during the Association, which lasts only two days.

Davidson's line of hacks and Burbank's stages will return delegates from the Convention free.

The "Second Ward."—The "Bloody Second" of our city is doing nobly in calling forth her able men for the new levies. Ex-Alderman Connor has enrolled himself for the war; so has Alderman Grant and Valentine—the leaving Alderman Murray "solitary and alone." There is a loud call for Murray. William P., come forth!

The City Under Martial Law.—Upon the promulgation through the press of Sunday morning of the recent order of the Secretary of War in reference to persons leaving the county or State for the purpose of avoiding the forthcoming draft, Sheriff and Mayor, acting as Provost Marshals, issued stringent orders to their under officers to prevent any one leaving the city in a suspicious manner.

These orders were obeyed in some cases only too literally, for people who live out of town were arrested in going home from church, and the Mayor was compelled to come to the Jail and let them out. However, the moral effect of the thing was excellent, and those who have been and are still disposed to skulk away and avoid a draft, now see that they must stay and face the music.

Those who run away to escape serving their country are jumping out of the frying pan into the fire. If you stay at home you may escape, for the draft don't strike every body at the same time; but if you sneak away you are sure to be accursed, for no man can travel hereafter who cannot give a satisfactory account of himself. The whole country is under martial law, and the guilty coward will find it out to his sad cost.

—The total number of rebel prisoners in our hands at the present time is twenty thousand five hundred, an aggregate which vastly exceeds the number of ours held by the Southern authorities.

—Mr. Charles F. Browne (Artemus Ward) has accepted an engagement to lecture forty nights in California, commencing in December.

—The Rev. Washington Raley, an eminent clergyman of the Methodist Protestant Church, died in Washington, on Thursday night. He was for several years the President of the Maryland Annual Conference.

—White whortle-berries are the latest freak of nature in the fruit line. They have been raised at Burlington, Connecticut, are somewhat larger than the common black whortle-berry, but rather inferior in flavor.

—The draft will comprise every man not exempt by the narrow rules laid down. "Permanent residence" is all that is specified as requisite in the Drafting Act, which will be a sufficient answer to the many questions propounded now-a-days as to whether incomplete naturalization will give exemption. It will not. Every man who is drawn must go himself "or send a man," and there will be a demand for substitutes.

—Theodore S. Fay, the former United States Minister to Switzerland, has arrived and had a long audience with the President. Mr. Fay represented our cause as suffering severely in Europe on account of the poorly defined policy of the Government: but the moment we were willing to fight the issue on the broad basis of human liberty the legions of central Europe will give their sympathy to the cause of the Union. The President seemed to be deeply interested when Mr. Fay told him that the longer the present struggle was prolonged for dominion and power, and not for universal liberty, the weaker in the hearts of the free Swiss would be the sympathy for the Union.

—Henry W. Depuy, late Pawnee Indian Agent, who was arrested by the United States Marshal for embezzling feeble money, has been honorably acquitted.

Talk of Buying Votes.

From the State News.

We hear, occasionally, of the wonderful exploits expected to be performed in the way of gaining votes through the influence or liberality of Cullen's Gold. We are told that he will "spend it freely," and literally try to *buy* himself into Congress. Whatever may be his transparent want of qualifications, it is fondly hoped by some of his friends that he can *purchase* votes enough to secure his election.

What a brazen insult to the intelligence and patriotism of the voters of the Second Congressional District, to indulge in such speculations of success! We can tell these bidders for votes, that Cullen may rattle his "yellow boys" all over the District and he will only excite a deeper disgust and be the more soundly beaten. The people understand very well that he belongs to the old Mocasin stripe of politicians, and that by nature and habit, and association, he is totally unfit to send to Congress. He stands squarely on that monstrous platform adopted at St. Paul on the 2d of July, he approved of it without the slightest remonstrance on the day of his nomination, and he will find it operating like a millstone around his neck before the canvass is over.

THE WAR IN ARKANSAS.

Bragg reported Marching on Nashville

Special dispatch to the Chicago Tribune.

Memphis, August 6, via Cairo, August 8.—The steamers Champion and V. F. Wilson arrived from Helena this morning, leaving there at 8 P. M. yesterday, but bring no important news, having on board as passengers a number of sick and wounded from Gen. Curtis' army.

Col. Fitch's detachment sent out to intercept a body of Texan rangers, attacking Col. Daniels' wagon trains on Sunday at Lamquille Crossing, had not returned up to last evening.

It is the opinion of gentlemen here from Arkansas, well acquainted with the country, that between Colonel Daniels' 1st Wisconsin cavalry, and Colonel Fitch's brigade, the Texans can hardly fail being captured or badly cut up.

A messenger was to have arrived from General Veach's detachment, out in search of General Bragg, in this neighborhood, last evening, but not yet reported.

At last accounts Jeff Thompson's force was in full retreat. Firing was heard in the direction of his retreat yesterday, and the arrival of a messenger is awaited with great interest.

Colonel Hovey's 33d Illinois regiment, doing garrison duty at Old Town, twenty three miles below Helena, have captured five hundred bales of cotton and other property, including one United States wagon lost by Gen. Curtis at the battle of Pea Ridge.

Last Friday a skirmish took place between our cavalry and a confederate cavalry force twenty-nine miles below Helena. It was rather a brisk affair. We lost one killed and only one wounded. The confederates lost several killed and wounded.

All indications look toward lively times in Arkansas every day.

There is a manifest decrease here in the amount of cotton arriving at this point. The war spirit is fast absorbing every other feeling and interest. The people here appear to have but one object to accomplish, and that is the subjugation of traitors.

By passengers just from Memphis, I learn that Bragg is marching on Nashville, and that the apparent move on Buell was but a feint.

The Secesh are exulting over the supposed impossibility of reinforcing Nelson before Bragg can strike his blow. A secesh prisoner was shot in Memphis on Wednesday evening, at five o'clock. All is quiet up the Ohio.

Special dispatch to the Chicago Tribune.

Cairo, August 7.—The ram Mingo arrived from Helena to-day. She brings about fifty contrabands and mails to the following effect:

A skirmish occurred last Saturday between a reconnoitering party of Sixty-first Ohio and about five hundred of Hindman's men. The report is that our men were surprised and badly cut to pieces. Only about twenty are said to have escaped.

The public interest is excited in regard to Gen. Pillow's escape. In a recent communication, which readers interesting the fact that Gen. Curtis has found all the charges in question, numbering 275. Pillow has three quotations to be Federal, on which all movable property has been confiscated.

The attempt to run off the slaves of Phillips county, Arkansas, was thwarted by Gen. Curtis' unexpected arrival, who freed at Helena about 2,000 slaves, chiefly those who worked on Forts Pillow and Donelson, and helped to blockade the march of the army of the southwest.

From Washington.

Special dispatch to the Chicago Tribune.

Washington, August 7.—Judge McCook had left for the West to-day before the dispatch arrived announcing the murder of his son, General Robert McCook.

The secrecy of Burnside's movements continues to excite great astonishment. His destination had been known here in well-informed circles for a week, but not on the streets and nothing official yet appears in the newspapers. It is enough to say that Burnside has reached his destination, and is ready for service whenever called.

The new postage stamps for circulation will be ready next week—ample sheets are here now. They are so arranged that photographing or any other means of counterfeiting are nearly impossible.

Maj. Gen. Cassius M. Clay is expected within a day or two to report himself for orders. There has been some talk of sending him to Cincinnati, but some Kentuckians object on the ground that his early radicalism has excited prejudice that would bring immense influence against him.

There has been a renewal of the chronic talk about the safety of Washington within a few days. Military authorities, however, are satisfied that with Pope in front, and McClellan ready to come in on the rear, and Burnside to operate against them, the rebels would have a hard advance of it.

Cairo, August 8.—The Curtis army seems to be in the midst of rebel guerrillas. No less than five different skirmishes are reported here this morning between them and our forces.

Col. Hovey's regiment is twenty-three miles below Helena. They have captured fifty bales of cotton and one United States wagon that was taken at Pea Ridge.

In a skirmish six miles below they lost one killed and one wounded. Several rebels were killed.

The skirmish on Saturday at the mouth of St. Francis river was one of importance. Two regiments of federals, who were escorting sixty wagons and about 200 negroes to a near post, were suddenly attacked, overhauled and dispersed. Many were taken prisoners, and the wagons all lost. On the same day a party of federals escorting twenty wagons were attacked, seventeen of them killed, and the wagons taken. They were on their way from Jacksonport. The wagons were loaded with provisions.

On Sunday ninety federals, fifteen miles above Helena and eight miles back from the river, were surrounded by rebels and completely surprised. The report is that all the party were either killed, wounded or captured, except two. About forty wounded were taken to Helena on Thursday.

Memphis, August 5, via Cairo, August 8.—The steamer J. C. Swon, arrived from Helena yesterday, with 100 negroes, confiscated at that place by Gen. Curtis. They will work on fortifications.

—The drafting of the militia of this country for active service is not a new measure in the history of the country. It was resorted to both in the Revolution and in the war of 1812, and each time successfully, as it will be now.

DRAFT.

Hark! Hark! Hark!
Fiercely the bullets are rattling!
Hark! Hark! Hark!
Bravely our brothers are battling!
Freely the foe *they* have dared!
Why should the laggard be spared?
All in our glory have shared!
Draft! Draft! Draft!

Draft! Draft! Draft!
What though our traitors are mumbling!
Draft! Draft! Draft!
What though our croakers are grumbling!
Still, from the peace gathered hoard!
Freely let bounty be poured:
But, in this age of the sword,
Draft! Draft! Draft!

Draft! Draft! Draft!
Precious the time we are losing!
Draft! Draft! Draft!
War will not wait on youth's choosing!
Women will harrow the plain!
Children will garner the grain!
Age wield the mattock again!
Is not the price worth the pain?
DRAFT! DRAFT! DRAFT!

The Country Responding---What the States are Doing.

Washington, August 8.—From intelligence received at the war department, it has been ascertained that 39,000 Western troops of the new levy will be ready to go into the field this week. This report delights the President as much as it will loyal people who are anxiously waiting his efforts to hurry up the end of the rebellion.

MICHIGAN.

Detroit, August 8.—Michigan has nearly filled her quota under the first call for 300,000 men, and will furnish her quota under the last call without resorting to draft, if a short extension of time is allowed. Eight regiments of infantry and one of cavalry in this State will be ready for the field as soon as equipments are received.

INDIANA.

Indianapolis, Aug. 7.—All of the regiments now authorized, are full to overflowing except two, and they will be full this week. Secretary Stanton, on being notified of this answered by telegraph, "Well done for Indiana!" Volunteer companies for three years will be received up to the fifteenth instant. Captain Benjamin Harrison has been promoted to the Colonelcy of the 70th regiment. Recruiting has never been so brisk since the fall of Fort Sumter as at the present time. The 70th regiment, authorized this morning, has already recruited over three hundred men.

OHIO.

Columbus, O., August 7.—Most favorable reports continue to reach here from all the military districts. Several recruiting agents for the old regiments were sent out to-day.

The 93d Ohio regiment, Col. Charley Anderson, brother to "Sumter" Anderson is now full, 1,000 men having been recruited in fifteen days, in Montgomery, Butler and Preble counties.

PENNSYLVANIA.

Harrisburg, August 8.—Volunteers are coming in by thousands. There will be by Saturday next a sufficient number to fill up the fifteen regiments, which, with the regiments from Philadelphia, will make up the quota of volunteers. Seventeen regiments, completely organized, armed and equipped, will start for the seat of war early next week.

—Intelligence of the arrest of Ex-Senator Nicholson, by General Negley, in Tennessee, has been received. The charge is that of uttering treasonable sentiments.

—Another parley is going on between the Government and the rebels, in regard to an exchange of prisoners. It seems that the rebels have made new objections, and the consequence is, three thousand of their men are in James river, awaiting the result of the conference. The rebels are determined to keep Corcoran.

THE BATTLE OF CULPEPPER.

We have farther particulars of this hard-fought battle, which will be read in our telegraphic columns. At latest accounts the enemy had retreated across the Rapidan river, with Pope's artillery and cavalry in pursuit.

FOR THE WAR.

The order for the Ninth Regiment, published this morning, requires quick work to secure its organization as a volunteer regiment. I can do something for it by enlisting myself, and working from this time to the 18th, to carry it up to such a number as will insure it an existence.

That I have resolved to do, and to-day enter the service. I open an office at the PRESS Counting Room, for the present, to recruit a company for the Ninth Regiment, and shall be glad to receive all, who feel as I do, that the call of our country is IMPERATIVE!

I shall be glad to receive recruits from distant counties—particularly above St Anthony—where few companies are now being recruited; and in cases where persons can not report in person before the 18th and be sworn in, I should be glad to have their names and pledges, indicating the time that they can come forward.

It is hoped that if a number are sworn in, sufficient to indicate the certainty of filling a company in a short time, and reliable assurances of additional recruits are given, that some extension of time will be granted.

WM. R. MARSHALL.

HO! FOR THE NINTH REGIMENT!

It will be seen by an order of the Adjutant General, published this morning, that the NINTH REGIMENT of Minnesota Volunteers is called for. It is hoped before the expiration of the time limited for volunteer organizations—the 18th inst.—that the Ninth Regiment can be carried to such a point as will enable it to claim exemption from the last clause of the order of the War Department, which we publish, that "from and after the 15th day of August no *new* regiments of volunteers will be organized by the present bounties." Two companies are being recruited in Saint Paul, one each at St. Anthony, Stillwater and Wabasbaw county, and there will be several companies left over from the Sixth and Seventh regiments, that will go into the Ninth.

MEETING LAST NIGHT.

The meeting of citizens last night at Ingersoll's Hall was crowded again, to hear the report of the committee appointed the evening previous to collect subscriptions and pay bounties. The subscriptions were numerous, and about $4,000 raised, which with the $5,000 subscribed the night before, makes up a bounty fund of $9,000. Hon. M. S. Wilkinson made a very able speech which was enthusiastically received. The list of subscribers is very large, and the late hour at which the meeting adjourned precludes the possibility of our publishing it this morning. We shall, however, give the whole list of collections in our Thursday's issue up to Wednesday evening.

BISHOP GRACE.

We have received a private letter from Col. D. A. Robertson, which will appear with the Colonel's consent, in our next, giving the views of the Right Rev. Bishop Grace on the duties of citizens in the war. The Bishop is unequivocally in favor of upholding the Government and prosecuting the war to a successful issue. He says, that whenever he has been spoken to on the subject he has encouraged his people to volunteer in defense of the country. We trust this statement of the position of the Bishop will have the effect to encourage enlistments. There has been a general impression that the Bishop was quite lukewarm if not positively opposed to the war. It will be gratifying to all classes to learn that such impression was erroneous, and that the Bishop is thoroughly loyal.

Hurrah for Anoka—Her Quota in the Field. Who next!

Glorious tidings from Rum River—from the counties of Anoka, Sherburne and Itasca. Two thousand men and women were in council at Anoka on Monday night, addressed by J. W. Taylor, T. J. Jones, J. Benson, T. M. Stowell, J. A. Jenks, and others. The roll of the legion of honor was opened, and, before midnight was full to overflowing. Anoka answers to both calls, and a company organized on the spot, has probably arrived at Fort Snelling—company A of the 7th Regiment. Hon. Jared Benson is "one of 'em." What county next seizes the flaming torch of the nation, and hurries it along?

GENERAL ORDERS.

We publish, this morning, general orders for carrying into effect the late calls for six hundred thousand men. We publish both the original instructions of the War Department and the order, in pursuance thereof, of the Governor of the State.

THE CITY.

CAPT. GRANT'S Company started for the Fort yesterday. They left singing "John Brown's soul is marching on."

BAXTER'S CALL.—Bob. Baxter has commenced recruiting for a company. His office is on Jackson street, opposite Illingworth's. Bob. will raise a good company if he has only half a chance.

H. P. GRANT was duly elected Captain at the muster of the Union Guard at the Fort yesterday afternoon.

WINNEBAGOES.—Little Hill, one of the big men of the Winnebagoes, accompanied by his staff, is in town on business connected with the welfare of his people.

ANOTHER WAR MEETING IN ST. ANTHONY.—There will be a grand rally at Stanchfield's Hall, St. Anthony, this evening—Wednesday—when speeches will be made on the war by Governor A. Ramsey and Colonel Robertson. The ladies are expected to be present.

LOCAL ITEMS are now exceedingly plenty but they are all of the same sort. There is nothing talked about, written about, thought about or dreamed about, except in the military line. It is the all-absorbing and never-ending topic. The crops are nowhere, the weather has n't been thought of for a week, and we doubt whether there is a man in town that can tell the price of wheat.

PATRIOTIC.—Mr. S. Lee Davis informs us that Mr. A. S. Elfelt had bound himself to pay to the family of one of the recent recruits the sum of two dollars and fifty cents per week for the period of one year.

WHO'LL BUY THE HORSE?—The fine mare presented by Edmund Rice to the Young Men's Guard will be sold this morning at ten o'clock, at auction, for the benefit of the company. The animal may be seen before the sale by inquiring of H. L. Carver or E. C. Norwood.

A PATRIOTIC FAMILY.—Wm. Irvine yesterday enlisted in Captain Grant's company for the Sixth regiment. This is the third one of the brothers of that name who are now in the army, and all enlisted as privates. Javan B. Irvine enlisted in the First regiment and was subsequently promoted to a First Lieutenant in the regular army. B. F. Irvine enlisted in the Second regiment and is now Orderly Sergeant of Company D.

RECOLLECT, that the John Hutchinson and company will sing at Ingersoll Hall on Thursday evening of this week. This is the same company who were recently among the camps in and about Washington. John Hutchinson is one of the original Hutchinson Family, and the only one remaining now in the concert business except Asa, who was recently here.

EG. HUGHSON has been so crowded with customers, especially the ladies, within the last few days, that it is impossible to wait upon them. We looked into his store yesterday, when the people were helping themselves to his stock as fast as they wanted it, and carrying it away. He is only anxious to get rid of his goods, so as to go to the war. He don't care for money.

At a meeting of the Executive Committee of the St. Paul and Pacific Railroad Company held this day, it was

Resolved, That the employees of this company who enlist for the War, under the late calls of the President of the United States, shall be entitled to resume their positions, upon their return therefrom, being honorably discharged from the service.

EDMUND RICE, WILLIAM LEE, JAMES E. THOMPSON, E. A. C. HATCH, Executive Committee.

St. Paul, August 12th, 1862.

RICE COUNTY RESPONDS.—We learn that Senator Cook, one on the Lieutenants designated for the Seventh regiment was filled his company already. He left this city with his commission last Friday morning and commenced swearing in men, and on the road from there to Faribault he swore in enough to fill his company to the minimum. Good for Rice county, and bully for Mike Cook. We shall designate you as Company D.

POLICE.—The police court did a good thing for the city yesterday in the way of imposing and collecting fines. Jim Cheever and —— Burch were convicted of kicking up a riot at the Lovejoy House. They attacked the institution with grape and small shot, and carried the place by storm—for all of which they were fined $20 each and costs, which they paid. There were two or three other cases of disorderly conduct, and small fines imposed, so that this city received about $50.

A MERCHANT'S REPUTATION.—The success of a merchant is in keeping on sale what the public want, and in selling at fair prices. No grocery merchant can hope to succeed who does not keep the good will of the best housekeepers by selling what all such will have—D. B. DeLand & Co.'s celebrated Chemical Saleratus—the only pure article to be had for making light and healthy cakes, bread and biscuits. This article is made by a process known only to the manufacturers, at their celebrated Chemical Works in Fairport, Monroe county, New York. Every dealer who has not sold it should order at once from the proprietors.

For sale by all wholesale grocers in Chicago and Milwaukee. d&w1.

SPECIAL MEETING OF THE COUNCIL.—A special meeting of the City Council was held yesterday afternoon, to consider the propriety of the city authorities continuing its offer to aid the families of such of our fellow-citizens who may enlist in the cause of their country in this its hour of peril.

The following resolution, offered by Alderman Fitz, was adopted:

Resolved, That all persons, residents of this city at the time of their enlistment, who have enlisted or who may hereafter enlist in the service of their country, and who are not entitled to the aid offered by previous resolutions, be and they are hereby entitled to Five Dollars per month; this provision to apply to all who have allotted to aid in the support of their families the sum of Eight Dollars per month.

Alderman Finck offered a resolution that all relief granted to families of volunteers, be hereafter paid in cash, which was adopted.

Alderman Thompson offered a resolution to discontinue all work on the streets, and discharge the laborers on the same, as soon as present work is completed, which was adopted.

Alderman Thompson also offered a resolution to discontinue the use of gas in the streets, after the present contract has expired. Referred to the Committee on Gas.

Alderman Thompson offered the following resolution, which was adopted:

Resolved, That Aldermen Valentine and Grant, having volunteered and entered the army under the late call of the President, this Council will hold their seats for their return, and excuse them from attendance at their meetings.

ST. PAUL, August 12.

MEETING OF THE COMMITTEES.—Pursuant to a call the committee apointed by the mass meeting last evening met at the City Hall this morning at nine o'clock.

There were present Messrs. Paine, Murray, Strong, Metcalf, Daily, Williams, Moss, Bass, Thompson, Burbank, Forbes, Dawson, Berkey and Edmund Rice.

The meeting was organized by the election of Parker Paine, Esq., as chairman and of William Crooks as secretary.

The chairman stated in a few words the object of the meeting and after Mr. Murray had made many valuable suggestions the permanent committee consisting of Messrs. Burbank, Forbes, Dawson, Berkey, Thompson and Rice, retired for the purpose of adopting a plan whereby the best interests of our citizens and of our county might be subserved.

Pending the absence of the permanent committee Mr. Daily offered the following resolution:

Resolved, That each ward and precinct committee elect a chairman, whose duty it shall be to receive all moneys raised in each ward or precinct and to pay the same over to the treasurer of the permanent committee of six, and also to report to each committee what progress has been made in the accomplishment of the object sought.

On the question being put the resolution was adopted.

On motion of Mr. Moss the committee adjourned until 11 o'clock A. M.

Pursuant to adjournment the committee met at 11 o'clock.

The committee of six, through their chairman, J. C. Burbank, Esq., submitted the following proceedings of their body:

The permanent committee appointed at the war meeting held at Ingersoll's Hall on the evening of the 11th of August, 1862, to apportion bounties raised by private subscriptions to volunteers from Ramsey county, consisting of Messrs. J. C. Burbank, Wm. H. Forbes, Horace Thompson, Peter Berkey, Wm. Dawson and Edmund Rice, met at the Clerks' Office at the City Hall on the morning of the 12th inst., Mr. Burbank in the chair, and Mr. Rice Secretary.

On motion of Horace Thompson, Esq., it was

Resolved, That fifty dollars bounty be appropriated to each volunteer, being a resident of Ramsey county, who shall enlist on and after this day, the 12th, and before the 18th inst., in any of the companies now being or to be raised in said county or in any of the Minnesota regiments or detached companies already in the field. That all remaining funds that have been or may be received be distributed for the support of the families of such volunteers.

The committee reported their action to the committee of eighteen, and thereupon adjourned to meet at Ingersoll's Hall this evening.

J. C. BURBANK, Chairman.

EDMUND RICE, Secretary.

On motion of C. D. Strong, Esq., it was

Resolved, That the action of the permanent committee meets with the hearty approval of the committee of eighteen.

And the question being taken, the resolution was unanimously adopted.

On motion of Wm. H. Forbes, Esq., it was

Resolved, That a committee of three be appointed by the Chair to wait upon the honorable Senators Rice and Wilkinson, and his Excellency the Governor, and request their attendance at the adjourned war meeting to be held this evening.

The resolution was then unanimously adopted, when the Chair appointed the following gentlemen to act as such committee: Messrs. J. C. Burbank, Wm. H. Forbes, and Horace Thompson.

On motion of J. W. Bass, Esq., it was *Resolved*, That these committees do now adjourn, to meet at Ingersoll's Hall this evening, at half-past seven o'clock.

Which resolution was carried.

PARKER PAINE, Chairman.

WILLIAM CROOKS, Secretary.

YOUNG MEN'S GUARD, was organized yesterday, sworn in, and Charles J Stees commissioned 2d Lieutenant. They are open for recruits, and will pay the same bounties as other companies.

A GOOD CHANCE FOR BUSIESS MEN.—I wish to join the patriotic Germans that are enlisting in this city for the protection of their adopted country against its enemies.

I will sell my stock of groceries and provisions, and rent my store and take my place among my brave fellow citizens with the hosts of armed men.

In this way I can leave my large and dependent family with a brave heart and stout courage.

The store is large and commodious, situated in a good part of the city, with a well established list of customers, and offers superior inducements to any one desiring to engage in business. Americans help your German friends to go the war.

F. KNAUGHT.

TO BE A, OR NOT TO BE A, THAT'S THE QUESTION.—The race yesterday between Captain Grant's company in this city, and Mayor Merriman's company in Hennepin county, to be the first organized and recognized as Company A, of the Sixth regiment, was animating in the highest degree. On Monday evening, Merriman's company was full, but several of the members had not yet passed their medical examination, and Captain Grant's company lacked ten; but in the morning his company was rapidly filled and Merriman had his remaining men on hand to be inspected. One or two men were rejected on examination, but he went back and got others in their places, and both companies were full, and had all their men passed at the same time. Then came the race to the Fort and the preparation of the muster rolls, which was so near a drawn game that the commanders at the post could not tell which was in ahead, and therefore recorded them both at the same hour, and gave them certificates accordingly. Now who is to be A, is a question that will have to be decided by lot.

OUR CANDIDATE.

The Rochester City *Post* thus expresses itself in regard to Governor Donnelly's nomination:

We congratulate most heartily the Republicans of the Northern District of Minnesota on the nomination, for Representative in Congress, of Ignatius Donnelly, of Dakota. A more talented, loyal, energetic and hard-working man could not have been selected in the district, or one who possesses more universally the confidence and esteem of the whole people.

Governor Donnelly has for three years discharged the delicate and difficult duties of presiding officer of the State Senate, and during the whole of that time, so impartially and correctly have his decisions upon points of parliamentary law been rendered, that not once during his term of service has an appeal been taken from any of his decisions. He will therefore bear with him into Congress a knowledge of parliamentary law equal to that of the oldest member upon the floor of the House; and even the presiding officer of that body will have to look sharp after his honors when the Governor becomes a member of the House.

Added to his natural talents, which are of a high order, Governor Donnelly possesses the laudable ambition of excelling in whatever he undertakes, and of meriting, by his accomplishments, whatever honor the people see fit to bestow upon him. We repeat that the Republicans of the Northern District could by no possibility have selected a fitter man for their standred bearer than Hon. Ignatius Donnelly.

—There is a curious passage in number 43 of the *Federalist*, from the pen of James Madison: "I take no notice," he says, "of an unhappy species of population, (the slaves,) abounding in some of the States, who, during the calm of regular government, are sunk below the level of men, but who, in the tempestuous scenes of civil violence, may emerge into the human character and *give a superiority of strength to any party with which they may associate themselves.*"

LATEST NEWS.

BY TELEGRAPH TO ST. PAUL.

WINSLOW'S LINE.

The Battle of Culpepper Court House.

Further Particulars.

NEW YORK, August 16.

The *World* says firing was renewed this morning by daylight on our side, but was not responded to by the rebels.

Sigel has advanced and was this morning inspecting his position and preparing for the day's work. Nothing important has occurred.

The wounded are being rapidly taken away, but many were left on the field. Eight hundred were in hospitals, hotels and private houses being appropriated to that use. It is reported that the enemy are making a flank movement on us by way of Luray.

The wagons are all being packed and horses harnessed in.

Burnside is said to be on Jackson's right flank.

WASHINGTON, August 12.

Accounts from the Culpepper fight say great as was the fire to which our comparatively small number of men was exposed, the only wonder is that the entire command was not completely annihilated at the end of half an hour instead of our bringing off so large a proportion of our forces. The prisoners report that their own troops were mowed down by our fire like grass. They were reinforced three times by fresh troops and brigades, and when our troops retired they were too crippled to pursue in open ground.

The prisoners also report that the heavy guns used by the enemy were of recent English manufacture with English fixed ammunition. We lost but one gun which was left behind spiked, several of the horses having been killed. The gun was not lost.

While changing our position for the right, Colonel Chapman of the 5th Massachusetts was shot in the breast and is probably dead.

Lieutenant Colonel Stonewall fell with many wounds.

Major Blake also fell and is a prisoner if alive. Adjutant Smith wounded or dead. Major Savage of the 2d Massachusetts believed to be killed, as well as many of the Captains and Lieutenants belonging to the regiment. Dr. Leland was shot in the eye.

The casualties in other regiments are not heard of definitely. By to-morrow a list of the missing will be obtained.

Capt. George Jamnell, of Gen. Prince's staff, was shot in the breast and mortally wounded.

On Sunday night about 11 o'clock Gen. Pope and Gen. Banks were in conference in the rear of our advanced batteries. A body of rebel cavalry charged in the most daring manner through the woods on our front in group. The discharge of muskets and the whizzing of balls gave them timely notice of the approach of the rebels. They speedily mounted horses and a regiment of infantry fired, checking their charge and probably saving both commanders.

Gen. Buford with his cavalry command arrived at Culpepper yesterday from Madison.

Previous to his departure he made a reconnoissance to the Rapidan, where he found a force of the enemy on the south side but none north of the river. A telegraph dispatch dated to-day says all was quiet last night and this morning.

Col. Donnelly is alive, but in a sinking condition. Other wounded officers are generally doing well.

Morgan on his way to Kentucky Again.

NASHVILLE, Aug. 12.

A dispatch from Gen. Morgan from Cumberland Gap says Gen. DeCoucier's brigade and the 14th Kentucky on the 5th and 6th inst. had several engagements with Stevenson's division in force. The rebels outnumbered us four to one. Rebels lost 225 killed and wounded and Lieut. Col. Gordon of the 11th Tennessee prisoner. Our loss was three killed, 15 wounded and 50 prisoners.

Two companies of the 15th Ohio were surrounded by two rebel regiments, but cut their way out. We captured a large lot of forage, tobacco, horses and mules. John Morgan left Knoxville on the 2d with 2,000 cavalry, en route to Kingston. Kentucky is to be invaded.

LOUISVILLE, Aug. 12.

The Guerrillas Capture Independence.

LEXINGTON, August 12.

Independence was attacked yesterday by 1,500 rebels under Col. Hughes and Quantrell, and after four hours' severe fighting, the federals surrendered.

Rebel Ram Arkansas Reconnoitering.

Our Vessels Narrowly Escape.

CAIRO, August 12.

The Memphis Bulletin of the 10th, has the following:

On Wednesday the 6th, the rebel ram Arkansas came on a reconnoitering expedition up river as far as Islands 76 and 78, within 50 miles of Helena.

A few days since the Louisville, accompanied by transports White Cloud and Iatan, started with the 3d Wisconsin from Helena, to go up White river. The Louisville ran aground and the expedition was abandoned because of the insufficiency of water, and returned to Helena just in time to miss the Arkansas. Had it been a few hours later, a collision must have taken place.

Bulletin prints report that Breckinridge attacked and captured Baton Rouge last Wednesday. Considered not improbable.

Daring and Successful Expedition.

Perilous Situation of a Cavalry Brigade.

CULPEPPER, VA., August 11.

The cavalry brigade under General Buford made a descent on Madison Court House on Tuesday last. They found that the rebels had been there, but had left.

They made reconnoissances in every direction, and met the rebel pickets on every road.

On the 7th inst. our pickets on the road to Stannardsville had a skirmish, losing one killed and three wounded. On the 8th the 1st Maryland regiment had another skirmish on the Orange Court House road, in which they lost five killed, four wounded and about a dozen prisoners. They were then reinforced by the 1st Michigan, when the rebels were driven back to the Rapidan.

A strong reconnoisance was made, the same evening, to the Rapidan, on the Orange road, and a skirmish was going on without loss, when orders came from Gen. Buford to return to Madison Court House. The party got back at 6 o'clock on the morning of the 9th, and found everything prepared for a retreat towards Sperryville, as the rebels were approaching in every direction.

The escape of this brigade is considered almost miraculous, as they were surrounded on almost every side. Many gave it up as lost.

Gen. Buford deserves great praise for the very able manner in which he extricated his command from such a perilous situation.

ADJUTANT GENERAL'S OFFICE, ST. PAUL, Min., August 12th, 1862.

[GENERAL ORDERS NO. TWENTY-FIVE.]

1. In pursuance of General Orders from the War Department, No. 99, Fort Snelling is hereby designated as the place of general rendezvous for the drafted militia and volunteer regiments of the State of Minnesota, now being or to be organized.

2. Agents will be appointed by the Commander-in-Chief, one in each county, whose duty it will be to visit each township in their respective counties, and ascertain if the assessor thereof has performed his duties, in making the proper militia returns, as directed in orders numbered 22 and 23 from this office, and in case he has not, he, the said agent, shall at once proceed to perform said duties, and make proper return thereof. An order announcing the names of said agents will be made to-morrow.

3. Immediately upon the completion of the enrollment, the lists of enrolled persons must be filed in the offices of the Sheriffs of the counties in which such enrolled persons reside.

4. The Commander-in-Chief will appoint a commissioner for each county of the State, whose duty it shall be to superintend the drafting and hear and determine the excuses of persons claiming to be exempt from military duty.

5. The enrolling officer shall immediately upon the filing of the enrollment lists, notify the said commissioner that said lists have been so filed, and the commissioner shall thereupon give notice by handbills posted in three public places in each township of his county, of the time and place at which claims for exemption will be received and determined by him. And he shall fix the time, to be specified in the notice aforesaid, (within ten days of the filing of the enrolment,) at which the draft shall be made; and all persons claiming to be exempt from military duty shall, before the day fixed for the draft, make proof of such exemption before said commissioner, and, if found sufficient, his name shall be stricken from the list by a red line being drawn through it, leaving it still legible.

The Commissioner shall in like manner strike from the list the names of all persons now in the military service of the United States, all telegraph operators or constructors actually employed on the fifth day of August, eighteen hundred and sixty-two; engineers of locomotives on railroads, the Vice President of the United States, the officers, judicial and executive, of the United States; the members of both Houses of Congress and their respective officers; all Custom House officers and their clerks, all Post officers and stage drivers who are employed in the care and conveyance of the mails of the Post Office of the United States; all ferrymen who are employed at any ferry on the post roads, all pilots, all marines actually employed in the sea service of any citizen or merchant within the United States, all engineers and pilots of registered or licensed steamboats or steamships, together with the warden, deputy warden, clerks, inspectors, physician, assistant keepers and guards of the State Prison. The said exemption to be made by said Commissioner on sufficient evidence, or on his personal knowledge, that said person belong to any of the aforesaid classes, whether the exemption claimed by them or not—exemption will not be made for disability unless it be of such permanent character as to render the person unfit for a period of more than thirty days, to be certified by a surgeon appointed by the Governor in each county for that purpose.

6. At the time fixed as before provided, by the Commissioner for making the draft, the Sheriff of the county, or in his absence such person as the Commissioner may appoint, shall in the presence of said Commissioner, publicly place in a wheel or box of a like character to such as are used for drawing jurors, separate folded ballots, containing the names of all persons remaining on said enrollment lists not stricken off as before recorded—the names upon the enrollment list of each township in the county being however placed in the said wheel or box separately and drawn from separate by—and a proper person appointed by the said Commissioner and blindfolded, shall thereupon draw from said box or wheel, a number of ballots equal to the number of drafted men to be furnished by each of said township, the quota of each township to be ascertained by the County Auditor subject to an appeal by any citizen to the said Commissioner. The quota of each county, however, to be fixed by the Commissioner-in-Chief.

7. A printed or written notice of his enrollment and draft, and of the place of rendezvous of the drafted military force shall thereupon be served by a person to be appointed by the commissioner upon each person so drafted, either by delivering the same in person or by leaving it at his last and known place of residence.

8. Any person so drafted may offer a substitute at the time of the rendezvous of the drafted militia force; and such substitute, if he shall be an able-bodied man between the ages of eighteen and forty-five years, and shall consent in writing, and shall furnish the written consent of his parents or guardian (if a minor) to subject himself to all the duties and obligations to which his principal would have been subject had he personally served, he shall be accepted in lieu of such principal.

9. The persons thus drafted (and substitutes) shall assemble at the county seat of their respective counties, within five days after the time of drafting, whence transportation will be furnished them by the Governor to Fort Snelling.

10. As soon as the draft has been made, and the names marked on the enrollment list, the commissioner will send a copy of the draft to the commandant of the rendezvous and another copy of the same to the Adjutant General of the State, who will immediately organize the drafted men into companies and regiments of infantry, by assigning one hundred and one (101) men to each company and ten (10) companies to each regiment, and send a copy of the organization to the commandant of the rendezvous.

11. At the expiration of the time allowed for the drafted men to reach the rendezvous, the commandant shall proceed to complete the organization of the companies and regiments, by proclaiming the names of the regimental commissioned officers, who shall be designated by the Governor, the number and grade being the same as in the volunteer service. The line officers of each company shall be elected by the men thereof, under the directions of the commandant of the rendezvous, and reported forthwith to the Governor of the State, in order that they may be commissioned. And the non-commissioned officers may be appointed either before or after muster, as the Colonel of the Regiment may decide.

12. As soon as the officers of the companies and regiments are designated the muster-rolls shall be made out under the direction of the commandant of the rendezvous, and the troops inspected and mustered into the service of the United States by the mustering officers appointed for that purpose.

13. In case this State shall not by the 15th day of August, furnish its quota of the additional three hundred thousand volunteers called for by the President on the 2d of July, 1862, unless otherwise ordered, all incomplete regiments shall then be consolidated under the direction of the Governor: and an additional draft shall be made, as before provided, sufficient to fill such quota. The number to be drafted from each county, &c., to be fixed by the Governor.

14. Any county or township voluntarily furnishing its quota of the volunteers and drafted militia, as fixed by the Governor or the Auditor of the County, on or before the 15th day of August, or within such further time as shall be granted by the Secretary of War, shall be exempted from said draft.

15. From and after the 15th day of August no new regiments of volunteers will be organized by the present bounties. Advance pay will continue to be paid to those volunteering to go into the old regiments.

By order of the Commander-in-Chief.

OSCAR MALMROS, Adjutant-General.

DEATH OF LIEUT. R. A. JUDD.

LETTER OF CHAPLAIN FISKE.

CAMP CLEAR CREEK, August 2, 1862.

Editors of the Press:

It may seem late for the announcement of the death of Lieutenant Ransom A. Judd, of Company B. The disease, of which he was officially reported to have died, must account for this tardiness. The possible effect of an immediate public announcement of death from varioloid, both upon the army and the friends of soldiers in the State deterred me from making the announcement at that time. Now, however, it is entirely safe. There have not been any other cases of the disease in the whole regiment, brigade, division, army. There are few who believe that to have been his disease. The Sabbath before the march of the Regiment toward Holly Springs, he preached for me, and was then unwell. Toward the close of the week marching orders came. His Captain endeavored to induce him to remain behind. But the number of those who must be left was so great he could not be persuaded. The first day's march was fatal to him. Col. Sanborn, then commanding the Brigade, was detained in camp until 4 o'clock in the afternoon upon a Court Martial. The command, during his absence that day, was conducted without judgment. The sun was blazing down upon the troops with intensest heat. The dust was suffocating and the men were marched, steadily, almost without rest, under their very heavy load—knapsacks, haversacks, canteens, arms and 100 rounds of cartridges, over wretched, often corduroy roads, some miles beyond Rienzi. A long forced *killing* march, and that for the first day of an expedition expected to occupy some eight to ten days! Many of our men will never recover from its effects, and Lieut. Judd now sleeps in the grave yard of the little town through which he marched so wearily that day!

I suppose, and it is the conviction of Surgeon Cross and our officers universally, that he was sun-struck. Yet, though scarcely able to walk, he could only be induced to leave the ranks and ride in the ambulance by the positive *command* of his Captain, on the fourth day of the hardest march the regiment has ever undergone! Then came two days of hot, dusty, slow, tedious riding, in the midst of long trains and in the rear of long columns of men. Arriving at Rienzi he was transferred to a division ambulance in charge of Lieut. Wheeler, of Company F, now on Gen. Hamilton's staff, to be brought back to this camp. But he proved unable to ride and was taken to a hospital established in a church at Rienzi. When the Surgeon in charge became suspicious of varioloid, he was placed in a very comfortable tent, in a pleasant grove, at a little distance, and attended by one of the most careful and faithful of the men of his own company, and had every possible care and kindness at his hand and that of his Captain. Others of his company ... regiment were not allowed to ... on account of his ... visit him, and ... thanking ... opposal disease. I ... my way to the camp, little ... ing it was ten last interview with a friend I had learned to prize. We spoke of Jesus, and of life, and death, and sickness. He was cheerful, patient, quiet, trustful—then, as always, thoroughly Christian. He did not seem dangerously sick. The Surgeon thought it some slight attack, from which he would soon recover. On my return to the regiment I was prevented from visiting him, as others were. He died at three o'clock on the morning of the 9th of July. When told, at midnight, that he could not live till day, he said, pleasantly, "Do you think so?" "Well, I am ready to go: I am going *home*." Presently, turning to his nurse, he said: "Won't you go with me?" Thus he carried that Christian anxiety for souls which made him a minister, even to the gates of a soldier's grave. His last hour was one of unconsciousness and not of pain.

So died a good man, who won us all by his modest, quiet, generous, manly qualities; by the admirable simplicity, righteousness and purity of his character. His men loved him. They had in him, every one, a faithful, warm-hearted friend, as well as an officer to be thoroughly respected and strictly obeyed.

The officers respected, and, more than most, they loved him. He had not an enemy in all this camp. Yet he was not facile. Never was man more rigid in principle. No matter in what presence or under what influence, no man ever found in him any yielding to what he thought evil or of evil tendency. I do not suppose that all the surgeons' perscriptions in the world would have induced him to take a draught of intoxicating drink. What he was in this matter he was in all. Still, with this perfect strictness of principle ruling his words and conduct, all men were his friends.

He was a good soldier—true in every point. His soldierly ambition was to perform promptly, accurately, efficiently, every duty—to undergo without complaint or flinching every hardship—to be at his post, alert, and cheerful always. I do not think that there was ever complaint made of remissness or incompetency in Lieut. Judd by any private soldier, by any company or field officer, nor of any harshness, injustice or selfishness in any military transaction whatever. He merited and won from all approval and praise. I do not remember ever to have known a man, the chorus of whose praises, living or dead, was so swelled by the unanimous voice of all who knew him.

His Christian character was exemplary. His piety was deep, fervent, abiding. The camp did not stint it in its full exercise or hinder its growth. In the midst of the many discordant sounds of camp I ever heard him humming to himself as he was busy here and there, the words of what seemed his favorite hymn:

"In the Christian's home of glory,"

And the chorus:

"There is rest for the weary,
There is rest for you,
On the other side of Jordan,
In the sweet fields of Eden,
Where the tree of life is blooming
There is rest for you."

He was abundant in every good word and work. His loss is felt very deeply throughout the regiment. May this and such costly sacrifices upon our country's altar not be in vain.

I wish I could pay a fitter tribute to our departed friend. A good man, a true soldier, a warm patriot, a devoted christian, a faithful, genial companion, has gone to his glory—"The Christian's home of glory." His body rests and his grave is plainly marked in the Rienzi church yard. While we mourn his loss, let us emulate his patriotism and his virtues.

Yours very truly,
A. S. FISK.
Chaplain 7th Regiment.

P. S.—Since my quarterly report, there have died here in camp, Josiah T. Jones of Company A, Clement Longworth of Company D, and Corporal August Svanson of Company H.

Orders have just came (August 3d) to march to-morrow morning at 4 o'clock for Jacinto, breaking up this pleasant camp.

LINES.

Men of the Northland! where's the manly spirit
Of the true hearted and the unshackled gone?
Sons of old freemen! the we but inherit
Their names alone?

Is the old Pilgrim spirit quenched within us?
Stoops the strong manhood of our souls so low
That Mammon's lure or Party's wile can win us
To silence now?

Now, when our land to ruin's brink is verging,
In God's name let us speak while there is time;
Now, when the padlocks for our lips are forging,
Silence is crime!

What! shall we henceforth humbly ask as favors
Rights all our own? In madness shall we barter
For treacherous peace the Freedom Nature gave us,
God and our charter?

Here shall the statesman forge his human fetters,
Here the false jurist human rights deny,
And in the church the'r pr'ond and skilled abettors
Make truth a lie?

Torture the pages of the hallowed Bible,
To sanction crime, and robbery and blood!
And, in Oppression's hateful service, libel
Both man and God!

Shall our New England stand erect no longer,
But stoop in chains upon her downward way,
Thicker to gather on her limbs, and stronger
Day after day?

Oh, no; methinks from all her wild, green mountains—
From valleys where her slumbering fathers lie—
From her blue rivers and her welling fountains,
And clear, cold sky—

From her rough coast and Isles which hungry Ocean
Gnaws with his surges—from the fisher's skiff,
With white sail swaying to the billow's motion
Round rock and cliff—

From the free fireside of her unbought farmer—
From her free laboreral his loom and whee.—
From the brown smithshop where beneath the hammer
Rings the red steel—

From each and all, if God hath not forsaken
Our land, and left us to an evil choice,
Loud as the summer's thunderbolt shall waken
A people's voice!

Startling and stern! the Northern winds shall bear it
Over Potomac's to St. Mary's wave;
And buried Freedom shall wake to hear it
Within her grave,

Oh, let that voice go forth! the bondman sighing
By Santee's wave, in Mississippi's cane,
Shall feel the hope, within his bosom dying,
Revive again.

Let it go forth! The millions who are gazing
Sadly upon us from afar shall smile,
And unto God devout thanksgiving raising,
Bless us the while.

Oh for your ancient freedom, pure and holy,
For the deliverence of a groaning earth,
For the unarmed captive, bleeding, crushed and lowly,
Let it go forth!

Sons of the best of fathers! will ye falter
With all they left ye purified and at stake?
Hear once again on Freedom's hosts alter
The fire awake!

Prayer-strengthed for the trial, come together,
Put on the harness for the moral fight,
And with the blessing of your Heavenly Father,
MAINTAIN THE RIGHT!

J. G. WHITTIER.

What the West Has ...

The statistics we ... regiments of ... done. ... Stone's ... ment elsewhere of the ... the West—compiled from the ... ast to be issued to-day—possesses a peculiar interest, at this time when the effort is making to double the quota of these States. It appears that 237,551 men were originally enrolled in the regiments of the ten States west of Ohio, not including that State. Out of this number there has been an absolute loss of about 60,000 men (or one-fourth) by the casualties of war—deaths, discharges, etc. The portion which these States are required to furnish under the new call is 92,000. Add what the old regiments re-pire and the total amounts to 152,000. Startling as are the figures, the patriotism of the West is equal to anything. Already the lists are half filled. They will be full, doubtless within the specified time; thus saving to the volunteer his bounty, and to the Government the necessity of a draft. The new levy and the old make a total of 330,000 men.—*Chicago Tribune.*

Recruiting---Goodhue County.

The *Republican* of the 8th says:

Messrs. McLaren and Wilson are rapidly filling up their company, and those who wish to enlist and get the benefit of the bounty offered by the United States and Goodhue county, must do so immediately. This company is called the "Goodhue County Guards."

ANOTHER COMPANY.—W. C. Williston, Esq., of this city, is engaged in raising a company, to be called the Goodhue Tigers, and which will join some of the regiments to be raised in this State. We hope Goodhue county will be represented in every regiment that goes from this State, by at least one company, and as possible by more.

STILL ANOTHER.—Rev. Nicholas Ohlerton of this county is also commissioned as 2d Lieutenant for the 7th Regiment. He is to be assisted by Mr. Peterson of Stearns county, and they will endeavor to raise a company of Scandinavians.

Wright County.

A correspondent at Clear Water, writing on business, adds the following in regard to crops, &c:

"Crops look finely. Harvesting is nearly through. Wheat and oats yield better than last year.

Enlistments are not numerous in this county—our entire population is engaged in harvesting. After crops are secured, our quota will be forthcoming.

Gov. Donnelly will make us a very strong ticket up this way, and his name will insure the success of our local nominations."

—A noble collossal bust of the poet Schiller has been placed in the Central Park, New York, by the Schiller Committee, with the consent of the Park Commissioners. It is of bronze, and stands upon a stone pedestal twelve feet high. The site of this work was well chosen, near the Ramble, a spot beloved of loungers.

RUS. MUNGER, who has been lionizing and rusticating at the East for a few weeks past, returned yesterday morning.

Dabney, the Scout of the Rappahannock.

A correspondent of the *Evening Post*, who is with Gen. Pope's army, has the following notice of a negro scout, illustrative of the idea many military men hold that the negroes will fight well and faithfully:

"One man—the guide in the two exploits of our cavalry—deserves brief mention. He is certainly a marked man—loyal, true, and brave to a fault. Virginia may well be proud of him, and the rebels of this vicinity have tested their appreciation by subscribing and offering a reward for his head of fifteen hundred dollars. His skin is somewhat darker than ours; but the front rank of our brave soldiers has willingly given him place, and his services as scout and guide have been invaluable. He was a slave two months ago, at seventy-cents a day, he is worth to the Government a dozen of the best of us. I notice on his buttons the '*Ense petit placidam sub libertate quietem*' of Massachusetts. The old Bay State need not be ashamed to have her proud motto borne by Dabney, the dreaded scout of the Rappahannock."

Brig. Gen. Israel B. Richardson.

Of Michigan, who is reported dismissed from the army, was famous in army circles as "Fighting Dick." He was regarded absolutely insensible to fear, but did not rank high as Division General. He was not a Major-General, as reported by telegraph, but a brigadier, in command of the first division in Sumner's corps. It was he who fought and repelled the enemy at Fair Oaks, on the 1st of June, after one of the severest battles of the war. Shortly afterwards he wrote a letter severely criticising General Casey's management of his division in the defeat of the previous day, which appeared in a Boston newspaper. It excited bitter comment among regular army officers as contrary to regulations and "unbecoming as an officer and a gentleman." It was then supposed that he would be court-martialed, and officers of high rank did not scruple to assert that he ought to be dismissed. We suppose that was one of the charges against him. Acts of insubordination were also current in camp. The letter of Casey appeared to have been written to the editor of the paper in which it was published, but it was afterwards alleged that it was a private letter which was indiscreetly communicated to the paper. Gen. Richardson was a graduate of West Point and distinguished himself by gallantry in Mexico.—*Cin. Commercial, Aug. 7.*

—The store of Mr. Simon Willard & Son, of Boston, well known dealers in watches and chronometers, No. 9 Congress street, was broken into and robbed of a large number of valuable chronometers and gold watches on the morning of the 4th inst., valued at from $5,000 to $6,000. The rogues made an attempt to open a safe which contained a large amount of valuables, but were unsuccessful. The next night detective officer Leeds got upon the track of the robbers, and arrested them while getting aboard the express train at Farmingham, and recovered the property.

The nett profits in two years amounts to $129,000, which shows an unparalleled success in the history of Life Insurance. HOME

INSURANCE COMPANY,

NEW YORK.

Extract from Third Annual Report of the Superintendent of the Insurance Department of the State of New York. WM. BARNES, Superintendent.

There are now ninety-five joint stock fire insurance companies incorporated by the State of New York, engaged in the transaction of business; of these companies, fourteen only received premiums during the last year, amounting to over one hundred thousand dollars; four only received premiums above the sum of two hundred thousand dollars, and the premium income of one only exceeded three hundred thousand dollars. The premium receipts of this company, the HOME, with a capital of $1,000,000, were $829,963.53. The premium income of thirty of the smaller companies was $811,356.60 only, with capitals, however, amounting in the aggregate to the sum of $14,950,000.

The state of things should be improved; the premium income of the mass of our fire insurance companies is by far too small for their capitals, and cannot compare to the proper support of a separate and independent corporation. The experience of the HOME, PHOENIX, of Brooklyn) and some other companies, has demonstrated that, with proper skill, tact and sagacity, business can be increased and managed to an indefinite extent, with entire safety, and even additional security to the company. We have now the machinery and organization in working order for nearly one hundred joint stock fire insurance companies. In the course of a few years their business can be safely doubled, and even quadrupled, without doubling or quadrupling the yearly expenses. Any considerable expansion of business must of course be mainly effected through the instrumentality of reliable, safe, and well managed agencies. The premium income of the HOME amounts to nearly one-eighth part that of the ninety-five companies combined, so that eight corporations like the HOME could conduct the entire business of all these companies. If each company transacted the same amount of business as the HOME the aggregate premium income would reach the enormous amount of over seventy-eight millions of dollars per year. Our companies are not too numerous for the great future of this country, if managed on the progressive scale demanded by the spirit of the American people.

The annual statement of this our foremost local fire and inland company, made up to the first of January last, shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, President, A. F. Wilmarth, Vice President, and John McGee, Secretary, those well accredited officers very justly say: "The well-known reputation of of the HOME for fair and honorable dealing, together with its capital of one million dollars, and surplus of over half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our State, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the first of January last amounted up to $1,221,285.08, against an actual liability of only $35,080.43; and, moreover, it is worth noting that the assets are all of the very first class. The balance in bank in cash was $134,154.14, very nearly enough to set up an ordinary company; bonds and mortgages $910,219.55, secured on real estate worth $1,750,000, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,676. Any one not satisfied with the security of the HOME as an insurance institution, must be hard to please.

In 1861 the HOME wrote $106,715,148, taking $829,963 premium, and paid losses $353,775, including some losses for the year 1860. A dividend of ten per cent. was paid on the million capital; and after reserving an ample reinsurance fund, the company shows a "nett surplus" of $100,644 clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

WAR DEPARTMENT, }
WASHINGTON, Aug. 9, 1862. }

To Gov. Ramsey, St. Paul:

GENERAL ORDER NUMBER NINETY-NINE—REGULATIONS FOR THE ENROLLMENT AND DRAFT OF THREE HUNDRED THOUSAND MILITIA.

In pursuance of an order by the President of the United States, bearing date August fourth (4th) eighteen hundred and sixty-two, whereby it is provided that a draft of three hundred thousand militia be immeditately called into the service of the United States to serve for nine months unless sooner discharged, and that the Secretary of War shall assign the quotas to the States and establish regulations for the draft; also that if any State shall not by the fifteenth of August furnish its quota of the additional three hundred thousand volunteers authorized by law, the deficiency of volunteers in that State shall also be made up by special draft from the militia, and that the Secretary of War shall establish regulations for this purpose. It is ordered,

1st. The Governors of the respective States will proceed forthwith to furnish their respective quotas of three hundred thousand (300,000) militia called for by the order of the President, dated the fourth day of August, eighteen hundred and sixty-two, which quotas have been furnished to the Governors respectively by communication from this Department of this date according to the regulations hereinafter set forth.

2d. The Governors of the several States are hereby requested forthwith to designate rendezvous for the drafted militia of said State and to appoint commandants therefor and to notify the Secretary of War of the location of such rendezvous and the names of the commandants. It is important that the rendezvous should be few in number and located with a view to convenience and transportation.

3d. The Governors of the respective States will cause a enrollment to be made forthwith by the assessors of the several counties or by any other officers to be appointed by such Governors, of all able bodied male citizens between the ages of eighteen and forty-five within the respective counties, giving the name, age and occupation of each, together with remarks showing whether he is in the service of the United States and in what capacity and any other facts which may determine his exemption from military duty. All reasonable and proper expenses of such enrollment and of the draft hereinafter provided will be reimbursed by the United States upon vouchers showing the detailed statement of service performed and expenses incurred to be approved by such Governors.

4th. Where no provision is made by law in any State for carrying into effect the draft hereby ordered, or where such provisions are in any manner defective, such draft shall be conducted as follows:

1st.—Immediately upon the completion of the enrollment, the lists of enrolled persons shall be filed in the offices of the Sheriffs of the counties in which such enrolled persons reside.

2d.—The Governors of the several States shall appoint a commissioner for each county of their respective States, whose duty it shall be to superintend the drafting, and hear and determine the excuses of persons claiming to be exempt from military duty. Such commissioner shall receive a compensation of four (4) dollars per diem for each day he may be actually employed in the discharge of his duties as such commissioner.

3d.—The enrolling officer shall immediately upon the filing of the enrollment lists, notify said commissioner that said lists have been so filed, and the commissioner shall therefore give notice by hand bills posted in each township of his county, of the time and place at which claims of exemption will be received and determined by him, and shall fix the time to be specified in the order aforesaid within ten (10) days of the filing of the enrollment at which the draft shall be made; and all persons claiming to be exempt from military duty shall, before the day fixed for the draft, make proof of such exemption before said commissioner, and, if found sufficient, his name shall be stricken from the list by a red line drawn through it, leaving it still legible. The commissioner shall, in like manner, strike from the list the names of all persons now in the military service of the United States, all telegraph operators or constructors actually engaged on the fifth day of August, eighteen hundred and sixty-two; engineers of locomotives on railroads, the Vice President of the United States, the officers, judicial and executive, of the government of the United States; the members of both Houses of Congress and their respective officers, all Custom House officers and their clerks, all Post officers and stage drivers who are employed in the care and conveyance of the mails of the Post Office of the United States, all ferrymen who are employed at any ferry on the post roads, all pilots, all mariners actually employed in the sea service of any citizens or merchant within the United States, all engineers and pilots of registered or licensed steamboats and steamships; and all persons exempted by the laws of the respective States from military duty, on sufficient evidence, or on his personal knowledge that said persons belong to any of the aforesaid classes, whether the exemption is claimed by them or not—exemption will not be made for disability unless it be of such permanent character as to render the person unfit for service a period of more than thirty days, to be certified by a surgeon appointed by the Governor in each county for that purpose.

5th.—At the time fixed as before provided by the commissioner for making the draft, the sheriff of the county—or in his absence such person as the commissioner may appoint shall, in the presence of said commissioner, publicly place in a wheel or box of a like character to such as are used for drawing jurors, separate folded ballots containing the names of all persons remaining on said enrollment lists not stricken off as before provided, and a proper person appointed by the commissioners, and blindfolded, shall thereupon draw from said box and wheel, a number of ballots equal to the number of drafted men fixed by the Governor of such State at the proper quota of such county.

6th.—A printed or written notice of his enrollment and draft, and of the place of rendezvous of the drafted military force shall thereupon be served by a person to be appointed by the commissioner upon each person so drafted, either by delivering the same in person or by leaving it at his last and known place of residence.

7th.—Any person so drafted may offer a substitute at the time of the rendezvous of the drafted militia force, and such substitute if he shall be an able bodied man between the ages of eighteen and forty-five years, and shall consent in writing with the consent of his parents or guardian, to subject himself to all the duties and obligations to which his principal would have been subject had he personally served, shall be accepted in lieu of such principal.

8th.—The persons thus drafted shall assemble at the county seat of their respective counties, within five days after the time of drafting, whence transportation will be furnished them by the Governors of the several States to the place of rendezvous.

9th.—As soon as the draft has been made, and the names marked on the enrollment list, the commissioner will send a copy of the draft to the commandant of the rendezvous and another copy of the same to the Adjutant General of the State who will immediately organize the drafted men into companies and regiments of infantry, by assigning one hundred and one (101) men to each company and ten (10) companies to each regiment, and send a copy of the organization to the commandant of the rendezvous.

10th.—At the expiration of the time allowed for the drafted men to reach the rendezvous the commandant shall proceed to complete the organization of the companies and regiments, by proclaiming the name of regimental commissioned officers, which shall be designated in accordance with the laws of the respective States, the number and grade being the same as in the volunteer service, and in case the laws of any State shall provide for an election of officers, they shall be elected under the directions of one of the commandants of the rendezvous and reported forthwith to the Governors of such States, in order that they may be commissioned, and the non-commissioned officers may be appointed either before or after muster, as the Colonel of the regiment shall decide.

11th.—As soon as the officers of the companies and regiments are designated the muster rolls shall be made out under the direction of the commandant of the rendezvous, and the troops inspected and mustered into the service of the United States by the mustering officers appointed for that purpose.

12th.—In States where enlistments have been made by municipalities and towns instead of counties, the Governors of such States are authorized to apply the foregoing rules of draft to such municipalities and towns instead of counties.

13th.—Provost Marshals will be appointed by the War Department in the several States on the nomination of the Governors thereof, with such assistants as may be necessary to enforce the attendance of all drafted persons who shall fail to attend at such places of rendezvous.

Sixth.—In case any State shall not by the 15th day of August furnish its quota of the additional three hundred thousand volunteers called for by the President on the 2d day of July, eighteen sixty-two, unless otherwise ordered, all incomplete regiments shall then be consolidated under the direction of the Governors of the respective States; and if additional draft shall be made as before provided sufficient to fill up such quota. The number to be drafted from each county of the State to be fixed by the Governor thereof.

Seventh.—From and after the 15th day of August no new regiments of volunteers will be organized by the present bounties. Advance pay will continue to be paid to those volunteering to go into the old regiments.

By order of the Secretary of War.

BUSINESS LOCALS

WE are pleased to learn of the continued good success of the Mutual Life Insurance Company of Wisconsin, throughout the northwest. This, in fact, is the only Life Insurance Company, whose interests are identified with the northwest, and whose patrons are not liable to be affected by the high rates of exchange, that often rule in favor of eastern cities. The Company selects its risks with the greatest care, and confines its business to WISCONSIN, MINNESOTA, and NORTHERN IOWA, the healthiest section of our Union, and as a consequence the ratio of loss, to amount insured, is very small, amounting last year, to only a little over one-fourth of one per cent. It stands among the first companies in the country, in point of security for its policy holders, and first in promptness to pay losses. This Company grants WAR PERMITS to all its members, and to all who may insure, and of onwards enlist, or be drafted into the service of the United States. For particulars enquire of

Col. Forney on the Draft.

Colonel Forney writes to the Philadelphia *Press:*

The draft having been ordered by the President of the United States, will be followed by an almost immediate filling up of the recent call for three hundred thousand volunteers to serve for three years or during the war. Many who may be disposed to await the operation of the draft will accept the generous terms that have been repeatedly offered by the Government and the people, so that the old regiments now in the service may be recruited to the original number, and the new regiments put into a state of preparation and discipline. Should these results be accomplished promptly, the drafted men will probably be held as a great army of reserve and occupation. These, with the new levies, and our armies now in the field, will give us an effective fighting force of more than half a million, exclusive of the reserve.

H. J. BRAINARD & CO.'S
MILLS,
SITUATED ON PHALON'S CREEK, WHERE THE STILLWATER ROAD CROSSES.
This Mill is just completed, and is in good running order. Our machinery embraces all the latest improvements, and was got up in the East, without regard to expense. It has two run of Burrs, which will be kept running night and day, so that farmers coming from a distance can be accommodated without much delay.
The need of a first class Mill of this kind has long been felt by the citizens of St. Paul and vicinity. We have secured the services of James Craigie, who has made milling the business of his life, and to whom we can place entire confidence.
All kinds of grain will be weighed when brought to the Mill, and also when taken away, if desired. We feel confident in saying to the public that we can make as good Flour and as great a yield to the bushel as any Mill in Minnesota, and respectfully solicit a fair trial.
Also a new Mill for grinding corn in the ear.
☞ All work done at this Mill is warranted.

Persons unacquainted with the Melodeon and its history, will bear in mind that we are the pioneers and leading manufacturers, not only in the United States, but in the world. We commenced the manufacture of Melodeons in the fall of the year 1847, and since that time have finished and sold TWENTY-SEVEN THOUSAND. These instruments are now in use not only in the United States and Canada, but also in Europe, Asia, Africa, South America and the West Indies, and from all these quarters we have the most flattering testimonials of the high estimation in which they are held.
AT ALL INDUSTRIAL EXHIBITIONS THEY HAVE INVARIABLY BEEN AWARDED THE HIGHEST PREMIUM WHENEVER EXHIBITED IN COMPETITION WITH OTHERS.
We shall take pleasure in forwarding by mail (at our own expense) our Illustrated Catalogue, in which every instrument we manufacture is fully described and illustrated by elegant engravings.
